Greenleaf, 1998-09-04 A collection of eight of Greenleaf's most compelling essays on servant leadership an approach to leadership which puts serving others including employees customers and community first Back cover **Servants and Paternalism in the Works of Maria Edgeworth and Elizabeth Gaskell** Julie Nash, 2017-11-30 Writing during periods of dramatic social change Maria Edgeworth and Elizabeth Gaskell were both attracted to the idea of radical societal transformation at the same time that their writings express nostalgia for a traditional paternalistic ruling class The author shows how this tension is played out especially through the characters of servants in short fiction and novels such as Edgeworth's *Castle Rackrent* *Belinda* and *Helen* and Gaskell's *North and South* and *Cranford* Servant characters the author contends enable these writers to give voice to the contradictions inherent in the popular paternalistic philosophy of their times because the situation of domestic servitude itself embodies such inconsistencies Servants whose labor was essential to the economic and social function of eighteenth and nineteenth century British society made up the largest category of workers in England by the nineteenth century and yet were expected to be socially invisible At the same time they lived in the same houses as their masters and mistresses and were privy to the most intimate details of their lives Both Edgeworth and Gaskell created servant characters who challenge the social hierarchy thus exposing the potential for dehumanization and corruption inherent in the paternalistic philosophy the author's study opens up important avenues for future scholars of women's fiction in the nineteenth century Power
