intervention into Romantic era depictions of the dead and wounded Philip Shaw's timely study directs our gaze to the neglected figure of the common soldier How suffering and sentiment were portrayed in a variety of visual and verbal media is Shaw's particular concern as he examines a wide range of print and visual media from paintings to sketches to political prose and anti war poetry and from writings on culture and aesthetics to graphic satires and early photographs Whilst classical portraiture and history painting certainly conspired with official ideologies to deflect attention from the true costs of war other works of art literary as well as visual proffered representations that countered the view that suffering on and off the battlefield is noble or heroic Shaw uncovers a history of changing attitudes towards suffering from mid eighteenth century ambivalence to late eighteenth and early nineteenth century concepts of moral sentiment Thus Shaw's story is one of how images of death and wounding facilitated and queried these shifts in the perception of war qualifying as well as consolidating ideas of individual and national unanimity Informed by readings of the letters and journals of serving soldiers surgeons notebooks and sketches and the writings of peace and war agitators Shaw's study shows how an attention to the depiction of suffering and the development of liberal sentiment enables a reconfiguring of historical and theoretical notions of the body as a site of pain and as a locus of violent national imaginings

Codell, Dianne Sacko Macleod, 2018-12-20 First published in 1998 this volume reflects that ever since the publication of Edward Said's Orientalism twenty years ago scholars have tested his thesis against the wider application of his terms to cultural practices and the rhetoric of power The cultural impact of the British on their colonies has been extensively investigated but only recently have scholars begun to ask in what ways British culture was transformed by its contact with the colonies The essays in this volume demonstrate how influential the Empire was on British culture from the late eighteenth to early twentieth centuries They show how from cross cultural cross dressing to Buddhism British artists and

writers appropriated unfamiliar and challenging aspects of the culture of the Empire for their own purposes. An examination is also made of the extent to which colonized people engaged in the orientalisising discourse, amending and subverting it even re-applying its stereotypes to the British themselves. Finally two essays explore instances of the exchange of ideas between colonies. Several of the essays are based on papers given at the 1996 Conference of the College Arts Association.

British and Irish Paintings in Public Collections Christopher Wright, Catherine May Gordon, 2006-01-01

This book sets a new standard as a work of reference. It covers British and Irish art in public collections from the beginning of the sixteenth century to the end of the nineteenth and it encompasses nearly 9 000 painters and 90 000 paintings in more than 1 700 separate collections. The book includes as well pictures that are now lost, some as a consequence of the Second World War and others because of de-accessioning, mostly from 1950 to about 1975 when Victorian art was out of fashion. By listing many tens of thousands of previously unpublished works, including around 13 000 which do not yet have any form of attribution, this book becomes a unique and indispensable work of reference, one that will transform the study of British and Irish painting.
