practices in perspectives on childhood and in beliefs about work and play which make a big difference to children's adaptations to school. In other words it shows how children succeed and fail from their early days at school. It shows too how the good intentions of good teachers can sometimes allow children from certain backgrounds to become disaffected and learn to fail and it suggests ways of working with children from working class and multicultural families which may help both children and parents to gain a better understanding of school learning in the UK.
