**Early Childhood Classroom** Amy Noelle Parks, 2015-04-28 This practical book provides pre and inservice teachers with an understanding of how math can be learned through play The author helps teachers to recognize the mathematical learning that occurs during play to develop strategies for mathematizing that play and to design formal lessons that make connections between mathematics and play Common Core State Standards are addressed throughout the text to demonstrate the ways in which play is critical to standards based mathematics teaching and to help teachers become more familiar with these standards Classroom examples illustrate that unlike most formal tasks play offers children opportunities to solve nonroutine problems and to demonstrate a variety of mathematical ways of thinking such as perseverance and attention to precision This book will help put play back into the early childhood classroom where it belongs Book Features Makes explicit connections to

play and the Common Core State Standards in Mathematics Offers many examples of free play activities in which mathematics can be highlighted as well as formal lessons that are inspired by play Provides strategies for making assessments more playful helping teachers meet increasing demands for assessment data while also reducing child stress Includes highlight boxes with recommended resources questions for reflection key research findings vocabulary lesson plan templates and more This is one of those books that I wish I had written It is smart readable relevant and authentically focused on children From the Foreword by Elizabeth Graue Sorenson Professor of Early Childhood Education University of Wisconsin In this deceptively easy to read book Amy Parks explains two things that could make a world of difference in early childhood and elementary classrooms Mathematics isn't something in a workbook it's a fascinating part of the real world And playing in school isn't a luxury it's an essential context for learning about all sorts of things including mathematics Through vignettes of children learning mathematics as they play Parks helps teachers recognize their answerability to the moment eschewing someone else's determination of best practice in favor of what works with actual children eager to learn mathematics Rebecca New School of Education University of North Carolina at Chapel Hill *Mathematics Through Play in the Early Years* Kate Tucker, 2010-03-18 Teaching mathematics to young children in creative ways is made easy with this second edition of a wonderful book which offers the reader clear advice and lots of exciting ideas to use in any early years setting By showing how to introduce mathematical concepts through play based activities this book is in tune with current thinking about best practice in teaching and with the requirements of the Early Years Foundation Stage and current Primary National Strategy New material includes an additional chapter on creative recording a whole new chapter on ways to involve parents discussion of policy throughout the UK more on using ICT case studies covering the whole birth to eight age range Essential reading for any practitioner who wants to develop their mathematics teaching this book is equally important for all trainee teachers and early years students Kate Tucker is an early years teacher trainer and writer based in Exeter she has over 20 years of experience and has written widely on early years mathematics and Foundation Stage practice **The Early Childhood Curriculum** Suzanne L. Krogh, Pamela Morehouse, 2014-02-18 Based on research that demonstrates the powerful advantages of integrating the curriculum while providing inquiry opportunities The Early Childhood Curriculum shows how to make such an approach work for all children preschool through the primary grades The text demonstrates how to confidently teach using inquiry based methods that address the whole child while also meeting and exceeding academic standards Offering a foundation in early childhood theory philosophy research and development the 2nd edition of this unique textbook helps future teachers as well as current educators understand the why of curriculum in early childhood and invests them with the skills they need to move from simply following a script to knowledgeably creating curricula on their own Since each curricular subject has its own integrity there is a chapter for each discipline grounding the reader in the essentials of the subject in order to foster knowledgeable and effective integration The 2nd edition of The Early Childhood

Curriculum includes information on the most recent trends in national curriculum standards particularly in regard to the Common Core State Standards Initiative and the Next Generation Science Standards Coupled with this information are practical suggestions for meeting standards while still providing young learners with a truly child centered educational experience Chapters contain real life vignettes that demonstrate inquiry and integration in practice The entire text reflects the philosophy that the use of inquiry to seek and obtain information is one of the most valuable and powerful tools children can acquire along the way to becoming lifelong learners

**Staying Connected** Rachel Saliba, 2016-12-16 Staying Connected is a journey of discovery for parents of children who are about to begin school or who are already on their journey through education Rachel encourages parents to discover where learning happens and shares stories of the school experience from a parent perspective Her helpful advice draws from real life stories of parenting children as they make their way through their education Truly connecting with children and their learning is at the heart of the book as Rachel encourages us to explore our own connection with ourselves to enable that special relationship between parent and child to continue once they begin school The book is a helpful tool a guide for practice with examples of how tos Although its geared for parents as a teacher I would find it very helpful especially for the kinds of conversations I might have with both parents and children It also provides wonderful ideas that a teacher can pass on to a parent about talking with and encouraging a child Some of the best gems in this book are near the end Rachel writes The gift of connection with our children can never truly be found unless we connect with ourselves first Dr Joni Samples Chief Academic Officer International Speaker and Author Family Friendly Schools USA This book is a must read for parents and carers who want to be thoughtful and intentional in their parenting in ways that are simple and affirming for adult and child Rachel offers insights and personal reflections on parenting and childrens learning as well as providing sound practical advice She skillfully weaves stories from her own experience with the academic literature and research making this a very accessible and relatable book Danielle Cronin Winston Churchill Memorial Trust of Australia Churchill Fellow 2008 Public Policy and Parental Engagement in Education USA and UK

**Book Talk** Sherry Sanden, Cassandra Mattoon, Sandra L. Osorio, 2021 This book envisions the language and learning possibilities of young children s active engagement in literature discussion which is not often found in books about early read alouds This book promotes read aloud experiences that keep children their backgrounds and their experiences front and center This book shares our journey as educators and researchers with a goal to support the learning journey of other early childhood educators This book includes vignettes from classroom literature discussions as well as conversations between educators
