Mathura The Settlement Pattern And Cultural Profile Of An Early Historical City:

Mathurā Vijaya Laxmi Singh, 2005 **Religion, Landscape and Material Culture in Pre-modern South Asia**

Tilottama Mukherjee, Nupur Dasgupta, 2023-02-10 This book highlights emerging trends and new themes in South Asian history. It covers issues broadly related to religion, materiality and nature from differing perspectives and methods to offer a kaleidoscopic view of Indian history until the late eighteenth century. The essays in the volume focus on understanding questions of premodern religion, material culture processes and their spatial and environmental contexts through a study of networks of commodities and cultural and religious landscapes. From the early history of coastal regions such as Gujarat and Bengal to material networks of political culture from temples and their connection with maritime trade to the importance of landscape in influencing temple building from regions considered peripheral to mainstream historiography to the development of religious sects, this collection of articles maps the diverse networks and connections across regions and time. The volume will be of great interest to scholars and researchers of history, archaeology, museum and heritage studies, religion, especially Hinduism, Sufism and Buddhism and South Asian studies. Framing the Mahabharata Saikat K Bose, 2018-05-01 It all probably was a tale. However, serious research does identify some events from about a thousand years before the Common Era that qualify as the bases of the epic's plot. Apparently, collective memory evolved significantly through the centuries before their stories, legends and allegories took the forms that we know from the epic today. And yet even if no set of historical events can be found to correspond with epic episodes, its many stories, legends and allegories nevertheless conform to themes that were at one time authentic. In other words, whether or not epic episodes were historical, the ideas and concepts they represent were. It is with these ideas and concepts that *Framing the Mahabharata* weaves the pattern of South Asian society as it evolved through the cusp of the Bronze and Iron Ages, developing motifs we are familiar with today. Against this pattern, it reconstructs the military tactics, technology and sociology that marked the interplay of nomadic and sedentary folks most poignantly depicted in the career of war chariots. *Geographical Thoughts in India* Rana Singh, 2009-05-27 This book deals with roots of Indian geographical thoughts with reference to its historical base, cultural context and visionary message. As a consequence of long cultural history, the resultant lifeworld in India converges like a drama and dance of space-time function with transference and transformation. In the passage of time, emerged a metaphysical frame of thought, the varieties of heritagescapes and simultaneously grown the senses to heritage ecology. Of course, attempts have been scanty, but the richness always portrayed in literature and literary geography. Historical and cultural geographies in India have not caught that much attention in the academia, however, on micro level, distinct attributes are interpreted in the recent literature. Going back to the ancient notions of nature, theology, religiouscapes and rituals have developed a complex network of belief systems in the Hindu traditions. In these traditions, the motherly river Ganga serves as symbol, system and metaphor in the Indian culture. Continuity of cultural manifestations is actively maintained and continued in the Indian villages where lives
