Matres Lectionis in Ancient Hebrew Epigraphs Ziony Zevit, 1980      Ancient Hebrew Periodization and the Language of the Book of Jeremiah Aaron Hornkohl, 2014-04-24 In Ancient Hebrew Periodization and the Language of the Book of Jeremiah Aaron Hornkohl defends the diachronic approach to Biblical Hebrew and the linguistic dating of biblical texts Applying the standard methodologies to the Masoretic version of the biblical book of Jeremiah he seeks to date the work on the basis of its linguistic profile determining that though composite Jeremiah is likely a product of the transitional time between the First and Second Temple Periods Hornkohl also contributes to unraveling Jeremiah's complicated literary development arguing on the basis of language that its short edition as reflected in the book's Old Greek translation predates that supplementary material preserved in the Masoretic edition but unparalleled in the Greek Nevertheless he concludes that neither is written in Late Biblical Hebrew proper      **Le-ma'an Ziony** Frederick E. Greenspahn, Gary A. Rendsburg, 2017-03-02 An

international array of twenty six scholars contributes twenty one essays to honor Ziony Zevit American Jewish University one of the foremost biblical scholars of his generation The breadth of the honoree is indicated by the breadth of coverage in these twenty one articles with seven each in the categories of history and archaeology Bible and Hebrew and Aramaic language

**Job 1 - 21** C. L. Seow, 2013-07-04 The Hebrew book of Job is by all accounts an exquisite piece of literary art that holds its rightful place among the most outstanding compositions in world literature Yet it is also widely recognized as an immensely difficult text to understand In elucidating that ancient text this inaugural Illuminations commentary by C L Seow pays close attention to the reception history of Job including Jewish Muslim Christian and Western secular interpretations as expressed in theological philosophical and literary writings and in the visual and performing arts Seow offers a primarily literary theological interpretation of Job a new translation and detailed commentary      In the Beginning Joel

Hoffman, 2006-03 Written in language simple enough for everyone to learn this sweeping history traces the Hebrew language's development and covers the dramatic story of the rebirth of Hebrew as a modern spoken language      **Studies in Semitic**

**Vocalisation and Reading Traditions** Aaron Hornkohl, Geoffrey Khan, 2020-06-01 This volume brings together papers relating to the pronunciation of Semitic languages and the representation of their pronunciation in written form The papers focus on sources representative of a period that stretches from late antiquity until the Middle Ages A large proportion of them concern reading traditions of Biblical Hebrew especially the vocalisation notation systems used to represent them Also discussed are orthography and the written representation of prosody Beyond Biblical Hebrew there are studies concerning Punic Biblical Aramaic Syriac and Arabic as well as post biblical traditions of Hebrew such as piyyu and medieval Hebrew poetry There were many parallels and interactions between these various language traditions and the volume demonstrates that important insights can be gained from such a wide range of perspectives across different historical periods      **On**

**Biblical Poetry** F.W. Dobbs-Allsopp, 2015-08-19 On Biblical Poetry takes a fresh look at the nature of biblical Hebrew poetry

beyond its currently best known feature parallelism F W Dobbs Allsopp argues that biblical poetry is in most respects just like any other verse tradition and therefore biblical poems should be read and interpreted like other poems using the same critical tools and with the same kinds of guiding assumptions in place He offers a series of programmatic essays on major facets of biblical verse each aspiring to alter currently regnant conceptualizations in the field and to show that attention to aspects of prosody rhythm lineation and the like allied with close reading can yield interesting valuable and even pleasurable interpretations What distinguishes the verse of the Bible says Dobbs Allsopp is its historicity and cultural specificity those peculiar encrustations and encumbrances that typify all human artifacts Both the literary and the historical then are in view throughout The concluding essay elaborates a close reading of Psalm 133 This chapter enacts the final movement to the set of literary and historical arguments mounted throughout the volume an example of the holistic staging which Dobbs Allsopp argues is much needed in the field of Biblical Studies

**Text and History** Jens Bruun Kofoed,2005-06-30 During the past two or three decades the value of the text of the Hebrew Bible as a testimony to the history of Israel has come under siege As the date of the final form of the text has been pushed later and later often into the Hellenistic era the text has been devalued accordingly what is late is viewed as having less value At the same time the connection between the text and extratextual information particularly from archaeology has been rendered less and less clear by both archaeological investigation itself and an increasing inability to connect text and artifact or to do so compellingly Some of the foremost scholars who have argued that the biblical text contributes little to historical research have come from Copenhagen Now from Copenhagen Jens Bruun Kofoed steps forward to address the methodological issues that must lie behind the use of the biblical text and its validation as a source for historical information In this volume he sets out the methodological stepping stones necessary to an honest use of the biblical text and through discussion of presuppositions underlying various methodologies and by evaluating specific test cases shows among other things that lateness of the extant text by itself is not a charge that reduces the text's value as a source of historical information that taking modern genre research and authorial intent into account opens new vistas for evaluating the historiographical reliability of ancient texts and that a way forward from the current impasse is possible

**A Cultural History of Aramaic** Holger Gzella,2015-01-08 Aramaic is a constant thread running through the various civilizations of the Near East ancient and modern from 1000 BCE to the present and has been the language of small principalities world empires and a fair share of the Jewish Christian tradition Holger Gzella describes its cultural and linguistic history as a continuous evolution from its beginnings to the advent of Islam For the first time the individual phases of the language their socio historical underpinnings and the textual sources are discussed comprehensively in light of the latest linguistic and historical research and with ample attention to scribal traditions multilingualism and language as a marker of cultural self awareness Many new observations on Aramaic are thereby integrated into a coherent historical framework

Linguistic Evidence for the Pre-exilic Date of the Yahwistic Source Rick Wright, 2005-05-01 For the past few decades a growing number of scholars have attempted to overthrow the traditional Wellhausian view that the so called Yahwist or J source of the Pentateuch is the oldest of the four major sources These scholars have argued that J was composed during the exilic or post exilic periods of ancient Israel Their arguments have focused on the literary historiographic and theological characteristics of J This book attempts to re evaluate on linguistic grounds such efforts to place the Yahwist source in the exilic or post exilic periods The study employs the methodology developed most prominently by Avi Hurvitz for identifying characteristic features of post exilic Hebrew Late Biblical Hebrew This divides the language of the Hebrew Bible into three main chronological stages Archaic

Biblical Hebrew ABH Standard Biblical Hebrew SBH and Late Biblical Hebrew LBH Wright examines 40 features of J for which useful comparisons can be made to LBH and finds no evidence of LBH in the entire Yahwist source Therefore it is unlikely that J was composed during the post exilic period Moreover since Hurvitz has shown that the exilic period was a time of transition between SBH and LBH such that late features began to occur in exilic texts the author concludes on linguistic grounds that J was most likely composed during the pre exilic period of ancient Israel *Semitic Studies in Honour of Edward Ullendorff* Geoffrey Khan,2017-07-03 This is a Festschrift volume for the British Semitist Edward Ullendorff It contains papers written by leading scholars in the fields of Semitic philology and Near Eastern history and literature The contributions are wide ranging including linguistic studies of Ethiopian Semitic Aramaic Hebrew Arabic and Greek also papers on ancient Near Eastern biblical Islamic and Ethiopian history and papers on Amharic and Modern Hebrew literature

*Identifying Biblical Persons In Northwest Semitic Inscriptions Of 1200 - 539 B.c.e.* Lawrence J. Mykytiuk,2004 This book establishes the first comprehensive system for evaluating potential identifications of persons mentioned in the Hebrew Bible with persons mentioned in Northwest Semitic inscriptions Then it delineates a first ever corpus consisting only of inscriptions that name biblical persons Paperback edition available from the Society of Biblical Literature [www.sbl-site.org](http://www.sbl-site.org) What Really Happened in the Garden of Eden? Ziony Zevit,2013-11-26 A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature The Garden of Eden story one of the most famous narratives in Western history is typically read as an ancient account of original sin and humanity's fall from divine grace In this highly innovative study Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text Drawing on such diverse disciplines as biblical studies geography archaeology mythology anthropology biology poetics law linguistics and literary theory he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context Most provocatively he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism He shows how for ancient Israelites the story was really about how humans achieved ethical discernment He argues further that Adam was not made from dust and that Eve was not made from Adam's rib His study unsettles much of what has been taken for granted about the story for more than two millennia and has far reaching implications for both literary and theological interpreters Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist He knows all the hidden subtleties of the instrument and he makes you hear them in this rendition of the profoundly simple story of Adam Eve the Serpent and their Creator in the Garden of Eden Zevit brings a great deal of other biblical learning to bear in a surprisingly light hearted book Jack Miles author of *God A Biography* Studies in Hebrew and Aramaic Orthography David Noel Freedman,A. Dean Forbes,Francis I. Andersen,1992 This book introduces the student to the textual study of the Hebrew Bible to help such a student perceive the work of the numberless and nameless scribes torn between tradition and fashion in their restrained attempts to update the orthography

of Scripture Sixteen essays serve as the bridge from older methods for the study of orthography to newer ones using the computer to analyze large bodies of text Introduction to the Semitic Languages Gotthelf Bergsträsser, 1983 The book presents an introduction to Akkadian Hebrew Aramaic Ethiopic Amharic Tigr Mehri and Arabic with analysis and parallel texts **A Corpus of Ammonite Inscriptions** Walter E. Aufrecht, 2019-05-22 This second edition of A Corpus of Ammonite Inscriptions presents all of the published inscriptions that have been identified as Ammonite in one volume Each entry is accompanied by a complete bibliography a physical description and details about its location a photograph and or drawing relevant linguistic information and a history of the inscription s interpretation The discovery of the Amman Theater Inscription Amman Citadel Inscription Tall S r n Bottle isb n Ostraca and Tall al Mazar Ostraca opened a new chapter in the study of ancient Northwest Semitic inscriptions with the recognition and analysis of the language and script of ancient Ammon These new discoveries prompted a reclassification of a number of epigraphs previously identified as Hebrew Phoenician or Aramaic Since the first edition of this corpus the discussion of the criteria used to classify inscriptions as Ammonite including provenance language onomastics paleography and iconography has advanced considerably In addition the number of known inscriptions has increased This updated edition includes 254 additional inscriptions four new appendixes and in many cases new and improved images
