Anglo-Saxon Saints Lives as History Writing in Late Medieval England Cynthia Turner Camp, 2015 A groundbreaking assessment of the use medieval English history writers made of saints lives The past was ever present in later medieval England as secular and religious institutions worked to recover or create originary narratives that could guarantee they hoped their political and spiritual legitimacy Anglo Saxon England in particular was imagined as a spiritual golden age and a rich source of precedent for kings and for the monasteries that housed early English saints remains This book examines the vernacular hagiography produced in a monastic context demonstrating how writers illuminators and policy makers used English saints including St Edmund to re envision the bonds between ancient spiritual purity and contemporary conditions Treating history and ethical practice as inseparable poets such as Osbern Bokenham Henry Bradshaw and John Lydgate reconfigured England s history through its saints engaging with contemporary concerns about institutional identity authority and ethics Cynthia Turner Camp is an Assistant Professor of English at the University of Georgia

Literary Variety and the Writing of History in Britain's Long Twelfth Century Jacqueline M. Burek, 2023 A survey of the different literary forms adopted by history writers after the Conquest exploring why and for what effects they were used Histories of Britain composed during the twelfth century renaissance display a remarkable amount of literary variety Latin varietas Furthermore British historians writing after the Norman Conquest often draw attention to the differing forms of their texts But why would historians of this period associate literary variety with the

work of history writing Drawing on theories of literary variety found in classical and medieval rhetoric this book traces how British writers came to believe that *varietas* could help them construct comprehensive continuous accounts of Britain's past It shows how Latin prose historians such as William of Malmesbury Henry of Huntingdon and Geoffrey of Monmouth filled their texts with a diverse array of literary forms which they carefully selected and ordered in accordance with their broader historiographical aims The pronounced literary variety of these influential histories inspired some Middle English verse chroniclers including Laamon and Robert Mannyng to adopt similar principles in their vernacular poetry By uncovering the rhetorical and historiographical theories beneath their literary variety this book provides a new framework for interpreting the stylistic and organizational choices of medieval historians

England and Bohemia in the Age of Chaucer Peter Brown, Jan Čermák, 2023 New essays examining Bohemia as a key European context for understanding Chaucer's poetry Chaucer never went to Bohemia but Bohemia came to him when in 1382 King Richard II of England married Anne daughter of the Holy Roman Emperor Charles IV Charles's splendid court in Prague was renowned across Europe for its patronage of literature art and architecture and Anne and her entourage brought with them some of its glamour and allure their fashions extravagance and behaviour provoking comment from English chroniclers For Chaucer a poet and diplomat affiliated to Richard's court Anne was more muse than patron her influence embedded in a range of his works including the Parliament of Fowls Troilus and Criseyde the Legend of Good Women and Canterbury Tales This volume shows Bohemia to be a key European context alongside France and Italy for understanding Chaucer's poetry providing a wide perspective on the nature of cultural exchange between England and Bohemia in the later fourteenth century The contributors consider such matters as court culture and politics the writings of Richard Rolle artistic style Troy stories historiographic writing and travel narrative they highlight the debt Chaucer owed to Bohemian culture and the affinities between English and Bohemian literary production
