Negotiating Diaspora Jewish Strategies In The Roman Empire:

Negotiating Diaspora John M.G. Barclay, 2004-06-22 The study of the ancient Jewish Diaspora is developing in exciting new directions as a result of fresh archaeological material and new frameworks of interpretation The six studies collected in this volume have been composed by an international group of scholars at the forefront of Diaspora studies and explore key features of the cultural dynamics of the Jewish Diaspora Studies on Jews in Rome Margaret Williams and Alexandria Sarah Pearce examine the dialectic of local and translocal identities including a new theory on Jewish sabbath fasting in Rome Through careful analysis of inscriptions in the Balkans Alexander Panayotov in the first study of the material in English and Asia Minor Paul Trebilco the often ambiguous expression of Diaspora Jews is examined Two essays on the historian Josephus by James McLaren and John Barclay examine his crafted reconstructions of Judaeae history and indicate his subaltern tactics deploying the tools of colonial culture for the advantage of his own A thorough Introduction relates these studies to the broader field of Diaspora studies in current cultural anthropology This is volume 45 in the Journal for the Study of the Pseudepigrapha Supplement series

James in Postcolonial Perspective K. Jason Coker, 2015-08-01 James confronts the exploitive wealthy it also opposes Pauline hybridity K Jason Coker argues that postcolonial perspectives allow us to understand how these themes converge in the letter James opposes the exploitation of the Roman Empire and a peculiar Pauline form of hybridity that compromises with it refutes Roman cultural practices such as the patronage system and economic practices that threaten the identity of the letter's recipients and condemns those who would transgress the boundaries between purity and impurity God and world

Marginalized Religion and the Law in the Roman Empire K. P. S. Janssen, 2024-11-14 The Roman Empire's approach to religion has traditionally been described in paradoxical terms On the one hand Rome has often been regarded as almost proverbially tolerant as well as highly flexible in its dealings with the diverse range of religious cults and practices within its territories On the other hand the Roman religious landscape was not without its limits and there were certain groups who found themselves for one reason or another on the outside The legal interactions between these groups and the Roman authorities have largely been studied in isolation In *Marginalized Religion and the Law in the Roman Empire* K P S Janssen instead takes a comparative approach and investigates how members of various marginalized religious groups were embedded in and interacted with the wider Roman legal system The legal positions of private diviners Jewish communities and early Christians are compared and contrasted to provide a broader perspective on the legal treatment of marginalized religion in the Roman world Janssen argues that the known interactions between these respective groups and the Roman authorities are best understood within the wider context of Roman law and administration and that they furthermore shared a number of important characteristics While the treatment these groups received was certainly not in all respects identical the procedural socio political and ideological mechanisms that underpinned the relevant legal measures were nonetheless conspicuously similar

Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2021-08-23 This volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of Jews It documents the religious sociological political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the Jews social status The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism

The Origin of Heresy Robert M. Royalty, 2013-05-07 Heresy is a central concept in the formation of Orthodox Christianity Where does this notion come from This book traces the construction of the idea of heresy in the rhetoric of ideological disagreements in Second Temple Jewish and early Christian texts and in the development of the polemical rhetoric against heretics called heresiology Here author Robert Royalty argues one finds the origin of what comes to be labelled heresy in the second century In other words there was such a thing as heresy in ancient Jewish and Christian discourse before it was called heresy And by the end of the first century the notion of heresy was integral to the political

positioning of the early orthodox Christian party within the Roman Empire and the range of other Christian communities This book is an original contribution to the field of Early Christian studies Recent treatments of the origins of heresy and Christian identity have focused on the second century rather than on the earlier texts including the New Testament The book further makes a methodological contribution by blurring the line between New Testament Studies and Early Christian studies employing ideological and post colonial critical methods The Urban World and the First Christians Steve Walton,Paul Trebilco,David W. J. Gill,2017 In the tradition of *The First Urban Christians* by Wayne Meeks this book explores the relationship between the earliest Christians and the city environment Experts in classics early Christianity and human geography analyze the growth development and self understanding of the early Christian movement in urban settings The book s contributors first look at how the urban physical cultural and social environments of the ancient Mediterranean basin affected the ways in which early Christianity progressed They then turn to how the earliest Christians thought and theologized in their engagement with cities With a rich variety of expertise and scholarship *The Urban World and the First Christians* is an important contribution to the understanding of early Christianity Jewish War under Trajan and Hadrian ,

The Emergence of Christianity Cynthia White,2010-10-01 This brief survey text tells the story of early Christianity Cynthia White explores the emergence of Christianity in Rome during the first four centuries of the Greco Roman empire from the first followers of Jesus Christ to conflicts between Christians and Jewish kings under Roman occupation to the torture of Christian followers Diocletian s reforms and Constantine s eventual conversion to monotheism which cemented Christianity s status as the official religion of Rome The text s chapters will integrate key pedagogy including introductions study questions textboxes photos maps suggested readings and a glossary and timeline *Christianity in the Second Century* James Carleton Paget,Judith Lieu,2017-05-15 Christianity in the Second Century shows how academic study on this critical period of Christian development has undergone substantial change over the last thirty years The second century is often considered to be a time during which the Christian church moved relentlessly towards forms of institutionalisation and consolidated itself against so called heretics However new perspectives have been brought within recent scholarship as the period has attracted interest from a variety of disciplines including not only early Christian studies but also ancient Judaism and the wider world of the early imperial scholarship This book seeks to reflect this changed scholarly landscape and with contributions from key figures in these recent re evaluations it aims to enrich and stimulate further discussion **Rewritten Bible after Fifty Years: Texts, Terms, or Techniques?** József Zsengellér,2014-05-12 *Rewritten Bible After Fifty Years* presents the papers of a conference on the meanings and usages of the term *Rewritten Bible* introduced by Geza Vermes in 1961 Leading scholars of the topic discuss their new insights and ideas comparing with Vermes initiative whose participation on this conference was unfortunately the last chance for a life dialogue with him on this topic Apart from the terminological discussions and comparisons several case studies widen the scope of the notion of *Rewritten Bible* Scripture and rewriting

social instructions shaped by the theological vision of the author of 1 Peter This publication investigates the coherence between the social behavioural instructions and the theological teachings found in 1 Peter Engaging with the Balch Elliott debate Dr Joyce Sun argues that the core question should not be whether Christians should separate from or accommodate to wider society but whether their behaviour is consistent with their ultimate allegiance to God Sun convincingly demonstrates that the social distinctiveness of Christian communities was actively encouraged in the Petrine literature as a form of cultural and spiritual opposition to wider societal norms

Jewish War under Trajan and Hadrian William Horbury, 2014-09-18 Two major Jewish risings against Rome took place in the years following the destruction of Jerusalem the first during Trajan's Parthian war and the second led by Bar Kokhba under Hadrian's principate The impact of these risings not only on Judaea but also on Cyrene Egypt Cyprus and Mesopotamia is shown by accounts in both ancient Jewish and non Jewish literature More recently discovered sources include letters and documents from fighters and refugees and inscriptions attesting war and restoration Historical evaluation has veered between regret for a pointless bloodbath and admiration for sustained resistance William Horbury offers a new history of these risings presenting a fresh review of sources and interpretations He explores the period of Jewish war under Trajan and Hadrian not just as the end of an era but also as a time of continuity in Jewish life and development in Jewish and Christian origins
