Definition and examples

A **rhetorical question** is a figure of speech that takes the form of a question but doesn't expect an answer. It's used to make a point, not to gather information. Often, the answer is obvious, but the speaker asks the question to emphasise an idea or to make the listener think.

Questions and Rhetoric in the Greek New Testament Douglas Estes, 2017-03-28 While there are almost 1000 questions in the Greek New Testament many commentators pastors and students skip over the questions for more theological verses or worse they convert questions into statements to mine them for what they are saying theologically However this is not the way questions in the Greek New Testament work and it overlooks the rhetorical importance of questions and how they were used in the ancient world Questions and Rhetoric in the Greek New Testament is a helpful and thorough examination of questions in the Greek New Testament seen from the standpoint of grammatical semantic and linguistic analysis with special emphasis on their rhetorical effects It includes charts tools and lists that explain and categorize the almost 1000 questions in the Greek New Testament Thus the user is able to go to the section in the book dealing with the type of question they are studying and find the exegetical parameters needed to understand that question Questions and Rhetoric in the Greek New Testament offers vibrant examples of all the major categories of questions to aid the reader in grasping how questions work in the Greek New Testament Special emphasis is given to the way questions persuade and influence readers of the Greek New Testament

Rhetorical Questions □□□ □, 2018-02-16 Traditional accounts of rhetorical questions have focused on polarity reversal rhetorical questions conveying assertions opposite in polarity to the propositional content However non polarity reversed and rhetorically ambiguous interrogatives are also common In this book Risa Goto seeks a theoretical approach that can explain this pragmatic ambiguity with respect to rhetoricity The relevance theoretic view of interrogative and ironical utterances assumes no clear cut borderline between information seeking and rhetorical use of interrogative utterances The cognitive model of irony suggests

that recognition of ironicalness necessarily leads to a rhetorical reading Goto combines these two theoretical frameworks into an entirely new cognitive pragmatic model of interrogatives discussing the causal interrelation between rhetoricity and ironicalness and showing that ironical aspects in interrogative utterances can lead to rhetorical readings **Peer Response in Second Language Writing Classrooms, Second Edition** Jun Liu, Jette G.
