Radhasoami Tradition A Critical History Of Guru Successorship:

The Radhasoami Tradition David Christopher Lane, 1992 A sociological study of the forces at work in choosing a successor to a guru taking as the central example the 1974 rivalry for spiritual leadership of an Indian sect Traces the lineage back to the beginning of the sect noting the circumstances of the various successions and relating them to the thoughts of the followers about the recent succession based on interviews No subject index Annotation copyright by Book News Inc Portland OR

Radhasoami David Christopher Lane, 2015-09-26 Presents a critical overview of guru succession in the Radhasoami Tradition from its inception in the mid 1850s up until early 1991 Provides vital information for anyone interested in the politics behind guru succession in general Includes extensive notes and an exhaustive bibliography Focuses specifically on the development of gurus in the Agra and Beas branches and includes information on lesser known gurus and movements including Faqir Chand and Manavta Mandir Central Issue On August 24 1974 Kirpal Singh a renowned guru of surat shabd yoga union of the soul consciousness with the sacred sound and founder of Ruhani Satsang died at the age of eighty His death caused an intense succession dispute amongst his thousands of followers that has yet to be mended Eventually a number of factions developed each following a different successor Although most of Kirpal Singh's followers rallied around Darshan Singh Kirpal's son others paid allegiance to either Thakar Singh of Delhi or Ajaib Singh of Rajasthan The interesting sociological question that confronts us here is how each successor to Kirpal Singh legitimized his role That is what type of ideological strategy did these would be gurus develop in order to solidify their constituencies Further what were the social and historical factors that influenced or constrained their gaddi nasheen rhetoric To properly address and answer these questions necessitates a fairly comprehensive overview of the social context in which these surat shabd yoga gurus live and teach Thus this study begins with a historical overview of Sant mat and Radhasoami in general And secondly I have focused on the specific parampara guru lineage that preceded Kirpal Singh and his successors General Thesis The central thesis of this work is that there is an observable pattern which governs the ideological work i.e. rhetoric of guru succession in the Sant mat and Radhasoami traditions namely successorship claimants who lack sufficient outward confirmation to be accepted by the majority of the guru's congregation move generally toward experiential inward and personal forms of verification This movement towards internal validation moreover brings with it an inclination to question the forms of legitimacy that brought solidarity to the majority party and its leader Hence minority claimants usually those who do not retain the gaddi seat of the guru's residence tend in Max Weber's terms to criticize the routinization of charisma by office and argue for the superiority of personal attainment The politics of guru succession therefore is essentially a conflict over the nature and transference of charisma spiritual power Using Ken Wilber's terminology as found in *A Sociable God* this thesis can also be phrased as those who lack legitimacy outward confirmation by the consensus majority point to their authenticity inward confirmation by individuals experientially or mystically as the primary means for verifying their roles Additionally

guru succession is oftentimes a struggle over controlling theological doctrines membership ranks and property rights Hence gurus do not merely represent their own inner callings but various material interests ranging from the right interpretation of Radhasoami teachings to the governance of sadhu and household members of outlying branches to ownership rights over inherited sacred property With such larger worldly issues at stake it is little wonder that guru politics can turn into an ugly slugfest between sister related communities The decades long legal battle between Dayal Bagh and Soami Bagh over worship rights at Shiv Dayal Singh s samadh is perhaps the most graphic illustration of how social factors play a central part in succession contests Based on years of extensive research from the author s numerous trips to India and personal interaction with a large number of shabd yoga gurus [The Sach Khand Journal of Radhasoami Studies](#) David Lane,2015-12-12 This unique journal covers the history of the Radhasoami movement as founded by Shiv Dayal Singh in the mid 19th century with unique articles on the various offshoots that have branched off from its inception Includes essays on Eckankar MSIA MasterPath and other American based gurus Also includes special issues on the death of Julian P Johnson and Soamiji s forgotten guru **Radhasoami Tradition** David Lane,2023-03-22 The Radhasoami Tradition is an important contribution to several scholarly literatures on Southeast Asian studies the sociology of religion and the sociology of politics Dr Lane has gathered a truly impressive array of data on the process of choosing a new guru in the Radhasoami tradition No serious scholar of Indian religion can ignore Lane s work The data he has collected will be the building blocks for all future research on this area To this data David has applied a very insightful original conceptual framework combining elements of Weberian theory on the transmission of charisma of phenomenological theory on the sociology of experience and the theories of ideological work developed by Bennett Berger The result is the kind of scholarship that deeply respects the authenticity of the religious experience of the Radhasoami community while at the same time making it possible to understand that experience in the context of cultural processes and organizational dynamics common to many different religious communities Professor Madsen Co author of Habits of the Heart The Radhasoami Tradition is one of the best works I have read in many years in the field of modern religion and society Its great strength I feel is its understanding of the concept of authority in the Radhasoami tradition and in religious communities in India in general At no greater time is this concept tested and honed than in the process of succession from one spiritual master to another These are often difficult moments for the Radhasoami communities and for this reason inside knowledge about guru succession is very difficult to obtain Dr Lane not only has this information he has it in abundance He is able to work with this vast knowledge of Radhasoami history and make useful sociological observations on the basis of it Professor Juergensmeyer Author of Radhasoami Reality The Radhasoami Tradition is a masterful work Dr Lane demonstrates the dynamics and history of Indian religious movements in the Hindu tradition and provides a basis for comparative analysis Building on the classics in the sociology of religion and new studies of religious movements Dr Lane skillfully show how religious traditions are maintained in the midst of change conflict and negotiation

Professor Jules Rosette Author of *The New Religions of Africa* Handbook of Religion and the Authority of Science Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world
