Grace Jantzen Professor Elaine L. Graham, 2013-06-28 Grace Jantzen was an internationally renowned feminist philosopher of religion whose work has transformed the way we think about the interactions between religion culture and gender in Western culture Jantzen s aim was to redeem the present via a critique and reconstruction of staple concepts of the Western imaginary This unique book brings together many of Grace Jantzen s colleagues and former students in a wide ranging exploration of her enduring influence ranging across philosophy of religion to literature psychoanalysis theology ethics and politics Part I assesses the ramifications of Jantzen s affirmation that Western culture must choose life in preference to a prevailing symbolic of violence and death Part II explores some of the key voices which contributed to Jantzen s understanding of a culture of flourishing and natality Quaker thought and practice medieval mysticism and feminist spirituality Further essays apply elements of Jantzen s work to the politics of disability development and environmentalism extending her range of influence into new and innovative areas **Radical Dharma** Rev. angel Kyodo williams, Lama Rod Owens, Jasmine Syedullah, Ph.D., 2016-06-14 Igniting a long overdue dialogue about how the legacy of racial injustice and white supremacy plays out in society at large and Buddhist communities in particular this urgent call to action outlines a new dharma that takes into account the ways that racism and privilege prevent our collective awakening The authors traveled around the country to spark an open conversation that brings together the Black prophetic tradition and the wisdom of the Dharma Bridging the world of spirit and activism they urge a compassionate response to the systemic state sanctioned violence and oppression that has persisted against black people since the slave era With national attention focused on the recent killings of unarmed black citizens and the response of the Black centered liberation groups such as Black Lives Matter Radical Dharma demonstrates how social transformation and personal spiritual liberation must be articulated and

inextricably linked Rev angel Kyodo williams Lama Rod Owens and Jasmine Syedullah represent a new voice in American Buddhism Offering their own histories and experiences as illustrations of the types of challenges facing dharma practitioners and teachers who are different from those of the past five decades they ask how teachings that transcend color class and caste are hindered by discrimination and the dynamics of power shame and ignorance Their illuminating argument goes beyond a demand for the equality and inclusion of diverse populations to advancing a new dharma that deconstructs rather than amplifies systems of suffering and prepares us to weigh the shortcomings not only of our own minds but also of our communities They forge a path toward reconciliation and self liberation that rests on radical honesty a common ground where we can drop our need for perfection and propriety and speak as souls In a society where profit rules people s value is determined by the color of their skin and many voices including queer voices are silenced Radical Dharma recasts the concepts of engaged spirituality social transformation inclusiveness and healing **Radical Wisdom** C. Wilson,2017-11-09 Inventing Christic Jesuses is the first comprehensive proposal for how revisionist theology can deploy historical Jesus research in a methodologically sophisticated way Rejecting positions that insulate theology from Jesus research the proposal sets out warrants and rules for a quested Christology in dialogue with an analysis of the conduct of historians of Jesus from the period of the Third Quest c 1980 2010 The volume Method analyzes for theology the methods and values of historical research on Jesus It argues that the methodic construction of historical images of Jesus in conversation with sources is simultaneously a retrojective activity of value production First in defining the terms of the inquiry Wilson locates a middle ground between hostility to questing and a too ready application of historical results to Christology He then identifies rules and warrants for the deployment of Jesus research in theology and reconstructs the notion of the retrojection of value in the production of a historical Jesus The volume ends with a case study of retrojective Jesus production an analysis and assessment of the new notion that Jesus is a sage in the tradition of wisdom *Radical Wisdom* C Algernon Whitmore,2023-07-18 Explore the radical and thought

Evidence-Based Approaches in Positive Education Mathew A. White, A. Simon Murray, 2015-05-08 Based on action research and implementation at one of the world's great schools, this book provides a much-needed exploration of how to implement positive education at a whole-school level. *Evidence-Based Approaches in Positive Education* summarises the integration of a whole-school mental health and well-being strategy, positive psychology programs, and pastoral care models from 3-18 years of age. Positive education is the teaching of scientifically validated programs from positive psychology and character education that have an impact on student and staff well-being. It is an approach that focuses on teaching, building, and embedding social and emotional learning throughout a student's experience. St Peter's College, Adelaide, is the only institution in the world to integrate Martin Seligman's well-being theory throughout all aspects of both its strategic intent and positive education programs. The School's vision is to be a world-class school where all boys flourish. Its mission is to provide an exceptional education that brings out the very best in every boy. This is done within an intellectually and spiritually rich environment that nurtures international-mindedness, intercultural understanding, respect, and a commitment to social justice. This book captures the developments of the St Peter's College journey. It focuses on the integration of well-being across seven strategic goals: Academics, Well-being, Student Life, Entrepreneurship, Innovation and Partnerships, People, Culture and Change, Sustainability, and Environment, Community Engagement, Advancement, and Philanthropy. A uniquely Australian school, the impact of a St Peter's College education is to build great men who believe, safety, service, and integrity.

and fundamental parts of their lives who are active members of communities that are socially and culturally diverse who engage in political ethical and environmental challenges as good citizens Since 1847 St Peter s College alumni have had global and life changing impact in all fields of human endeavour The School s alumni include three Nobel Laureates 42 Rhodes Scholars Olympians and Archbishops artists and scientists educators and journalists actors and politicians philanthropists and physicians CEOs diplomats and soldiers explorers painters and poets This book shares evidence based practices and makes a substantial contribution to the rapidly developing field of positive psychology and its application in schools

The Participatory Turn Jorge N. Ferrer, Jacob H. Sherman, 2008-10-23 Can we take seriously religious experience spirituality and mysticism without reducing them to either cultural linguistic by products or simply asserting their validity as a dogmatic fact The contributors to this volume argue that we can and they offer a new way the participatory turn which proposes that individuals and communities have an integral and irreducible role in bringing forth ontologically rich religious worlds They explore the ways this approach weaves together and gives voice to a number of robust trends in contemporary religious scholarship including the renewed study of lived spirituality the postmodern emphasis on embodied and gendered subjectivity the admission of alternate epistemic perspectives the irreducibility of religious pluralism and the pragmatist emphasis on transformation all trends that raise serious challenges to the currently prevalent linguistic paradigm The first part of the book situates the participatory turn in the context of contemporary Religious Studies the second part shows how this approach can be applied to various global traditions ancient and contemporary from Western esotericism to Jewish mysticism Christianity Hinduism Sufism and socially engaged Buddhism

The God of Jesus Stephen J. Patterson, 1998-04-01 This book is the result of the author s involvement with the Jesus Seminar The premise is that the quest for the historical Jesus has always been closely related to the Christian search for God and that this is both good and necessary provided that one properly understands the relationship between

history and theology and does not confuse the two Patterson develops s theology that might properly be called a Jesus Theology and it is here that his contribution to the discussions of and about Jesus makes it a most distinctive contribution

Does God in fact always show love toward those who love him and faithfully serve him Even apart from the fact that God punishes those who clearly deserve his wrath and even apart from his hostility to Israel s enemies what do we do with the not insignificant number of passages in the Old Testament Hebrew Bible where it could be said that he turns against his own people or members of that people attacking them without cause or at least with excessive violence Professor James Crenshaw perhaps more than any other single scholar of this generation has led the way into discussion of this pivotal matter and the essays included in this volume are based on or react to his seminal contributions to the topic **The Culture of Control**

David Garland,2024-05-31 The past 30 years have seen vast changes in our attitudes toward crime More and more of us live in gated communities prison populations have skyrocketed and issues such as racial profiling community policing and zero tolerance policies dominate the headlines How is it that our response to crime and our sense of criminal justice has come to be so dramatically reconfigured David Garland charts the changes in crime and criminal justice in America and Britain over

the past twenty five years showing how they have been shaped by two underlying social forces the distinctive social organization of late modernity and the neoconservative politics that came to dominate the United States and the United Kingdom in the 1980s Garland explains how the new policies of crime and punishment welfare and security and the changing class race and gender relations that underpin them are linked to the fundamental problems of governing contemporary societies as states corporations and private citizens grapple with a volatile economy and a culture that combines expanded personal freedom with relaxed social controls It is the risky unfixed character of modern life that underlies our accelerating concern with control and crime control in particular It is not just crime that has changed society has changed as well and this transformation has reshaped criminological thought public policy and the cultural meaning of crime and criminals David Garland's *The Culture of Control* offers a brilliant guide to this process and its still reverberating consequences
