David F. Ford, Graham Stanton, 2004 Eighteen leading scripture scholars and theologians engage with key issues and texts to do with scripture and theology They look at how the Bible and theology have come together in the past in Judaism the early Church the Middle Ages early modernity and the 20th century How is current biblical scholarship to be related to past insights and modern methods Contributors debate how wisdom is to be related to faith and to reason      *Voices from the Borderland* Chris Shannahan, 2016-04-01 Urban theology affirms the importance of context notably the place of the city in theological reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the fluidity of contemporary urban societies *Voices from the Borderland* presents an overview of urban theology arguing that the twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of the multicultural and multi faith British urban experience and situates these within the wider international context The works of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban liberation theology urban black theology reformist urban theology globalisation urban theology and post religious urban theology      *A Theology of International Development* Thia Cooper, 2020-02-05 Religion and development have been intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students      **Encyclopedia of New Religious**

*Orthodoxy and Anarchism* Davor Džalto, 2024-03-26 This book brings together essays by contemporary Orthodox theologians and scholars on Orthodox Christianity that analyze various aspects of the complex relationship between anarchism both as a concept and as a political philosophy and Orthodoxy As many studies have already shown the dominant theological approaches in Orthodox political theology have been characterized by the search for some kind of symphonia where a harmonious and mutually beneficial cooperation between the Church and the State has been sought Although one can see many alternative attempts in contemporary Orthodox political theology to move away from traditional monarchical and autocratic symphonic models the fact remains that most of those approaches still tend to provide theological articulations that rationalize and ultimately defend the dominant ideological systems such as those of the nation state or liberal democracy for instance There has been however another marginal and marginalized tradition in Orthodox Christian political theology which can be labelled as anarchist The purpose of this volume is to gather contemporary voices in

and on Orthodox theology that explore this tradition in the history of Orthodox Christianity or that themselves employ an anarchist approach to the socio political sphere including the Church in its institutional functioning      *The Blackwell Companion to Political Theology* Peter Manley Scott, William T. Cavanaugh, 2008-04-15 Written by a team of international experts drawn from various traditions of political theology this outstanding resource brings together 35 newly commissioned essays in the field Demonstrates that Christian theology is inherently political and shows how theology impacts on present day political issues Considers the interface of theology with political ideologies including the contribution of theology to feminist ecological black and pacifist movements Assesses the contribution of the major political theologians and theological movements Explores the political aspects of Christian sources such as scripture and liturgy      *That Holy Anarchist* Mark Van Steenwyk, Ched Myers, 2012-06-25 In *That Holy Anarchist* Mark Van Steenwyk explores the relationship between Christianity and anarchism The name of Jesus is invoked by those in power as well as those resisting that power What were the politics of Jesus and how can they continue to inform us as we struggle for justice      **The Oxford History of Protestant Dissenting Traditions, Volume V** Mark P. Hutchinson, Mark Hutchinson, 2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places      *Galatians* Nancy Bedford, 2016-08-16 In this incisive commentary Nancy Bedford explores Paul's Letter to the Galatians as it addresses pressing issues in the earliest Christian churches Paul argues that it is not necessary for Gentiles to become full fledged Jews in order to follow Jesus In Jesus Christ differences among people will continue Bedford sees that equality in Christ Galatians 3:28 does not erase differences but instead breaks down hierarchical relationships among many different people and groups She considers the implications of these convictions for Christian faith today particularly for those outside of Western Christian traditions Bedford's unique theological interpretive approach to Galatians is suitable for preaching and teaching preparation and is a welcome addition to the Belief series      **Nick Page: The Longest Week, The Wrong Messiah, Kingdom of Fools** Nick Page, 2018-03-08 Essential reading enlightening and informative you will be sure to learn something new Church of England Newspaper In this illuminating read Nick Page strips away centuries of misrepresentation and myth to reveal the real personality portrayed in the gospels Drawing on a wealth of historical and archaeological research the result is a startling and vivid new portrait of Yeshua ben Yosef Jesus of Nazareth
