Radios First Two Decades:

Encyclopedia of Radio 3-Volume Set Christopher H. Sterling, 2004-03 Produced in association with the Museum of Broadcast Communications in Chicago the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people networks and organizations regulation and policies audience research and radio s technology This encyclopedic work will be the first broadly conceived reference source on a medium that is now nearly eighty years old with essays that provide essential information on the subject as well as comment on the significance of the particular person organization or topic being examined Radio Tracking and Animal Populations Joshua Millspaugh, John M. Marzluff, 2001-08-14 Radio Tracking and Animal Populations is a succinct synthesis of emerging technologies and their applications to the empirical and theoretical problems of population assessment The book is divided into sections designed to encompass the various aspects of animal ecology that may be evaluated using radiotelemetry technology experimental design equipment and technology animal movement resource selection and demographics Wildlife biologists at the leading edge of new developments in the technology and its application have joined forces **Radio Cultures** Michael C. Keith, 2008 Radio Cultures examines the manifold ways in which radio has influenced the nation s social and cultural environment since its inception nearly a century ago Written by leading scholars in the field chapters address a wide range of topics including how this powerful medium has impacted and affected non mainstream segments of the population throughout its history and how these repressed and neglected groups have employed radio to counter and overcome discrimination and bias The use of the audio medium for political economic and religious purposes is comprehensively probed and analyzed in this insightful and innovative volume Back cover **Sounds of Change** Christopher H. Sterling, Michael C. Keith, 2009-09-15 When it first appeared in the 1930s FM radio was a technological marvel providing better sound and nearly eliminating the static that plagued AM stations It took another forty years however for FM s popularity to surpass that of AM In Sounds of Change Christopher Sterling and Michael Keith detail the history of FM from its inception to its dominance for now at least of the airwaves Initially FM s identity as a separate service was stifled since most FM outlets were AM owned and simply simulcast AM programming and advertising A wartime hiatus followed by the rise of television precipitated the failure of hundreds of FM stations As Sterling and Keith explain the 1960s brought FCC regulations allowing stereo transmission and requiring FM programs to differ from those broadcast on co owned AM stations Forced nonduplication led some FM stations to branch out into experimental programming which attracted the counterculture movement minority groups and noncommercial public and college radio By 1979 mainstream commercial FM was finally reaching larger audiences than AM The story of FM since 1980 the authors say is the story of radio especially in its many musical formats But trouble looms Sterling and Keith conclude by looking ahead to the age of digital radio which includes satellite and internet stations as well as terrestrial stations suggesting that FM s decline will be partly a result of

self inflicted wounds bland programming excessive advertising and little variety **De-Westernizing Media Studies** James Curran, Myung-Jin Park, 2005-07-05 De Westernizing Media Studies brings together leading media critics from around the world to address central questions in the study of the media How do the media connect to power in society Who and what influence the media How is globalization changing both society and the media Golden Years of Australian Radio Astronomy Wayne Orchiston, Peter Robertson, Woodruff T. Sullivan III, 2022-01-20 The evolution of Australian radio astronomy from 1945 to 1960 has been studied in detail by numerous historians of science in recent years This Open Access book is the first to present an overview of this remarkable chapter in Australian science The book begins in the post war period as the Radiophysics Laboratory in Sydney switched from secret wartime research on radar to peacetime applications of this new technology Next follows the detection of radio waves from space and the ensuing transformation of this fledgling science into the dominant research program at the Radiophysics Lab Drawing from this history the book shows how by 1960 the Radiophysics Lab had become the largest and most successful radio astronomy group in the world The final chapter presents an overview of Australian radio astronomy from 1960 to the present day as Australia prepares to co host the multi national multi billion dollar Square Kilometre Array Nearly 300 high quality images complement the text drawn from a wide range of sources including the extensive collection held by the CSIRO Radio Astronomy Image Archive The book will be an essential reference for readers interested in the scientific and cultural development of radio astronomy This book is published open access under a CC BY 4.0 license *Daily Report, Foreign Radio Broadcasts* United States.
