The Bristol Blenheim Graham Warner, 2005 This is a truly comprehensive account of the Blenheim's origins, development and operational history
Bombs over Biscay, Barcelona and Dresden (1937-1945) Joan Maria Thomàs, Jon Irazabal Agirre, Ramon Arnabat Mata, 2019-05-02 Sometimes tragedies that have little to distinguish them from a wide range of similar events and which can make no claim to record numbers of casualties or destructive impact go down in history as fundamental and emblematic. This is the case of two of the airstrikes discussed in this volume: Barcelona and Dresden. Other tragedies however are sometimes obscured by circumstances elsewhere. This is the case of the other Guernicas: that is to say the bombings of Otxandio, Durango and Elorrio in Biscay. They are good examples not only of the brutality inherent in all wars and of how methods of combat become increasingly barbaric as conflicts wear on, but also of the way in which some circumstances push events to the forefront of history and make them emblematic. **Air Pictorial** , 1987
Paras Versus the Reich Bernd Horn, Michel Wyczynski, 2003-08-01 This meticulously researched book traces the development of airborne forces from their earliest mythology to their earth-shattering debut in the Second World War. More importantly, it reveals in exacting detail the story of Canada's paratroopers: from the early resistance to their establishment, the rigorous selection process and gruelling training to their unrivalled combat record. It tells the story of the 1st Canadian Parachute Battalion, which never failed to achieve its assigned missions nor did it ever lose an objective once captured. Through the pages of this book, the reader will experience the exceptional courage, endurance, fighting skills and tenacity of Canada's paratroopers in the Second World War. *United States Army in World War 2* , CMH Publication 9-2 United States Army in World War 2 Tells the story of General Stilwell's experiences in the China-Burma-India (CBI) theater between October 1943 and his recall in October 1944. Chronicles the seizure of Myitkyina in Burma and the Salween River fighting in China. Includes tables, charts, maps, illustrations, bibliographical notes, glossaries and index. The Beginnings of Strategic Air Power Neville Jones,2012-11-12 Using official records the author traces the origins and early development of strategic bombing and examines its organs in the operations and staff planning of the First World War The experiences of the First World War should have been a valuable legacy to those who devised the counter offensive strategy in the years between the war Unfortunately the lessons learnt were soon forgotten and many of the operational and technical problems which the planners had begun to tackle in 1918 were not even seen to exist by the Air Staff during the 1920s and early 1930s **The Publishers' Trade List Annual** ,1978
