Raf Gate Guards:

RAF Gate Guards Jim Simpson, 1992 **The RAF's Armourers** Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now

Battle of Britain The Movie Robert J. Rudhall, Dilip Sarkar, 2023-06-30 Released in 1969 the film *Battle of Britain* went on to become one of the most iconic war movies ever produced The film drew many respected British actors to accept roles as key figures of the battle including Sir Laurence Olivier as Hugh Dowding and Trevor Howard as Keith Park It also starred Michael Caine Christopher Plummer and Robert Shaw as squadron leaders As well as its large all star international cast the film was notable for its spectacular flying sequences which were on a far grander scale than anything that had been seen on film before At the time of its release *Battle of Britain* was singled out for its efforts to portray the events of the summer of 1940 in great accuracy To achieve this *Battle of Britain* veterans such as Group Captain Tom Gleave Wing Commander Robert Stanford Tuck Wing Commander Douglas Bader Squadron Leader Boleslaw Drobinski and Luftwaffe General Adolf Galland were all involved as consultants This detailed description of the making of the film is supported by a mouth watering selection of pictures that were taken during the production stages The images cover not only the many vintage aircraft used in the film but also the airfields the actors and even the merchandise which accompanied the film s release in 1969 plus a whole lot more There are numerous air to air shots of the Spitfires Messerschmitts Hurricanes and Heinkels that were brought together for the film There are also images that capture the moment that *Battle of Britain* veterans some of whom

were acting as consultants visited the sets Interviews with people who worked on the film such as Hamish Mahaddie John Blake and Ron Goodwin among others bring the story to life **Hawker's Secret Cold War Airfield** Christopher Budgen,2020-11-23 A military aviation expert chronicles the decades of breathtaking innovation that took place at Britain's secret airbase In 1951 Hawker Aircraft started using Dunsfold Aerodrome to test its new jet projects The Sea Hawk was followed by the superlative Hunter Then came a radical new engine design for an aircraft capable of vertical take off and landing While nay sayers claimed it would never work the Harrier proved them wrong becoming a vital asset during the Falklands War Then came the Hawk which after completion of the RAF requirement was sold into air arms across the world including the US Navy It was an incredible achievement for a UK design British Aerospace then brought forth its upgraded Harrier the Harrier GR 5 One might expect that this prolific output was the result of some massive industrial plant in the Midlands rather than an isolated aerodrome tucked in the rural hinterland of south Surrey Shrouded in secrecy for most of its life Dunsfold has largely escaped the notice of the general public This volume shines a light on the remarkable work carried out there Terror Out of Zion John Bowyer Bell,1977 *Canadian Warbird Survivors* Harold A. Skaarup,2000 The purpose of this handbook is to provide aviation enthusiasts with a handbook on where to find the surviving retired military aircraft preserved in Canada The majority of the Canadian Warbird and War Prize Survivors are on display within a significant number of aviation museums Many others are displayed as gate guards on or near a number of Canadian and Allied Armed Forces Bases and installations There are also a few in the hands of private owners and collectors that have been restored to flying status These include a number of foreign warbird survivors that were brought back to Canada as War Prizes The museum staffs and volunteer organizations such as the Canadian Aviation Preservation Association CAPA have done tremendous work in preserving military and civilian aircraft that have been a major part of Canada's aviation heritage A few of these aircraft are illustrated in this book along with a short description of the aircraft flown by Canadian servicemen and women The aircraft are listed alphabetically along with a city or museum location the manufacturer aircraft serial number and call sign where known Canadian Warbird and War Prize Survivors is part of a series on aircraft used by the Canadian Forces throughout its history *Hawker's Early Jets* Christopher Budgen,2022-02-10 A study of the British manufacturer's efforts to get its Hunter aircraft into service following World War II On September 2 1947 Hawker Aircraft Ltd figuratively and literally took to the air with their first jet design the P 1040 Conceived in the latter days of the Second World War and developed in the straitened times of post war austerity the aircraft allowed Hawker to explore the new technology before moving on to more ambitious programs Rejected by the Royal Air Force subsequent development of the aircraft allowed the Royal Navy to find in it a useful role at sea As this project slowly wound its way through the government bureaucracy against a background of national insolvency Hawker continued their research into more potent forms of jet travel with their first swept wing aircraft the P 1052 their first rocket powered example the P 1072 and finally the sleek all

swept P 1081 These essentially research aircraft gave the company the experience and expertise it required to produce a powerful transonic fighter with which to equip the RAF for the defense of the UK and other friendly nations at a time when the Cold War threatened to engulf the world in a truly global nuclear conflict That aircraft the P 1067 Hunter first flew in 1951 and was at the time the fastest fighter in the world as evinced by gaining the World Airspeed Record in 1953 prior to entry into RAF service at a stroke revolutionizing the potential of the UK's air arm Such was the haste with which this occurred that many teething problems remained to be resolved as detailed here but eventually the aircraft would become the day fighter of choice for many of the world's air forces and remain in service for decades to come
