Rebel Nation:

Confederate Nation Michael Gray, 2005-10 Buy this book What you expected sterling praise from famous writers Sorry I can't provide that because I am forced to publish Confederate Nation myself Besides I suspect that many of those testimonials are just favors from friends who may not have even read the book And you never see a bad one right Let's face it the so called mainstream publishing industry has become constipated and reluctant to do much more than recycle the gorp of mediocre but established writers It is mostly unwilling to take a chance and discover new and exciting writers So I am taking matters in my own hands and getting Confederate Nation in front of readers Life is too short to wait for a break I'm going to try and make it happen now Is this a great book Probably not There are very few great books published any more But is it entertaining Yes Does it tell an odd story Certainly And I have always thought it should be a movie too With proper padding and makeup Kurt Russell could again be Elvis A man is ultimately his own father because he keeps growing if he's lucky and as he grows he's the only person there every damn day to help get past the rough spots We become our own fathers and we should and we must raise ourselves even when a biological father has been there but even more so when one has not In the end we are solitary creatures We're alone The smart ones will make alliances and coalitions with others to make the trip sweeter and kinder but it's a long and solitary trip and in the end the partners we make can't get us across the last barrier That we have to do for ourselves Michael Loyd Gray

Women Suicide Bombers V. G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial Third World feminist and human rights framework drawing on case studies from conflicts in Palestine Sri Lanka and Chechnya among others Women Suicide Bombers explores why cultural media and political reports from various geographies present different information about and portraits of the same women suicide bombers The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers abnormal mental conditions their physicality for example their painted fingernails or their beautiful eyes their sexualities and the various ways in which they have been victimized by their backward Third World cultures especially by Islam In contrast propaganda produced by rebel groups deploying women bombers cultures supporting those campaigns and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes in ways that supersedes the martyrdom operations of male bombers Many of the books published on this phenomenon have revealed interesting ways to read women bombers subjectivities but do not explore the phenomenon of women bombers both inside and outside of their militant activities or against the patriarchal Orientalist and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures In contrast this book offers a corrective lens to the existing discourse and encourages a more balanced evaluation of women bombers in contemporary conflict This book will be of interest to students of terrorism gender studies and security studies in general

The Unknown Nation James Curran, Stuart Ward, 2010 The

Unknown Nation is an illuminating history of Australia's putative search for national identity. James Curran and Stuart Ward document how the receding ties of empire and Britishness posed an unprecedented dilemma as Australians lost their traditional ways of defining themselves as a people. With the sudden disappearance in the 1960s and 1970s of the familiar coordinates of the British world, Australians were cast into the realm of the unknown. The task of remodelling the national image touched every aspect of Australian life where identifiably British ideas, habits and symbols from foreign relations to the national anthem had grown obsolete. But how to celebrate Australia's past achievements and present aspirations became a source of public controversy as community leaders struggled to find the appropriate language and rhetoric to invoke a new era.

Time & Again David S. Nevarez, 2017-11-22 The book's story is based on a legend told by a shaman medicine man to a group of children with the intent of retaining epic stories of brave and heroic Mescalero Apache men within the tribe. The story is supposedly true. The story is about an incident that happened to a ten-year-old Apache boy during the Spanish conquistadores' time, on or about the year 1550. A good abduction was made by Apache spirits to heal the boy from injuries that happened to him when he did a heroic act by saving a little girl's life from great harm. The boy was taken by the spirits to be healed and returned sixty years later, but the boy still looked ten years old. The Apache spirits appear to have been aliens from outer space. Aliens came to planet earth a number of times. The aliens returned one last time to help planet earth from doom or destruction approximately 450 years later. The story is about how, what and why the aliens came to assist planet earth.

Rebel Nation Christopher Stires, 2015-08-23 The truth grows poisonous in the dark. In a nation where the Confederacy is a world power, shots ring out and a famed civil rights leader is murdered. McKenna Alexander is an investigative reporter who isn't afraid to challenge those in power and something about this assassination screams conspiracy. As she digs deeper, she begins to uncover an ugly secret that began during the Second World War and is only now coming to fruition. As she races to expose the conspirators, they race to ensure her permanent silence, and only her despised ex-husband is willing to help her stay alive.

The Nation, 1920 **Resistance and Rebellion** Roger D. Petersen, 2001-05-07 *Resistance and Rebellion* explains how ordinary people become involved in resistance and rebellion against powerful regimes. The book shows how a sequence of causal forces, social norms, focal points, rational calculation, operate to drive individuals into roles of passive resistance and, at a second stage, into participation in community-based rebellion organization. By linking the operation of these mechanisms to observable social structures, the work generates predictions about which types of community and society are most likely to form and sustain resistance and rebellion. The empirical material centres around Lithuanian anti-Soviet resistance in both the 1940s and the 1987-91 period. Using the Lithuanian experience as a baseline, comparisons with several other Eastern European countries demonstrate the breadth and depth of the theory. The book contributes to both the general literature on political violence and protest as well as the theoretical literature on collective action.
