Recasting Conservatism Oakeshott Strauss And The Response To Postmodernism

Angus Burgin

Recasting Conservatism Oakeshott Strauss And The Response To Postmodernism:

Recasting Conservatism Robert Devigne, 1996-08-28 Explores how conservative thought in the work of Oakeshott and Strauss and their followers responds to the postmodern loss of tradition morality and authority in contemporary British and American society The work also compares each theory to previous political outlooks in both countries [Roads to Dominion](#) Sara Diamond, 1995-09-08 Diamond looks at conservative politics in the United States from World War II to the post Reagan years *The Great Persuasion* Angus Burgin, 2012-10-30 Just as economists struggle today to justify the free market after the global economic crisis an earlier generation revisited their worldview after the Great Depression In this intellectual history of that project Burgin traces the evolution of postwar economic thought in order to reconsider the most basic assumptions of a market centered world *Political Thinking, Political Theory, and Civil Society* Steven M DeLue, Timothy Dale, 2015-09-04 A comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills This text is uniquely organized around the theme of civil society what is the nature of a civil society why is it important that will engage students and help make the material relevant Major thinkers discussed in the text are explored not only with the goal of understanding their views but also with an interest in understanding the relationship of their ideas to the notion of a civil society DeLue contends that a civil society is important for securing the way of life that most of us value and want to preserve a way of life that allows people to live freely and place significance on their own lives **Michael Oakeshott and the Conversation of Modern Political Thought** Luke Philip Plotica, 2015-02-23 One of the seminal voices of twentieth century political thought Michael Oakeshott's work has often fallen prey to the ideological labels applied to it by his interpreters and commentators In this book Luke Philip Plotica argues that we stand to learn more by embracing Oakeshott's own understanding of his work as contributions to an ever evolving conversation of humanity Building from Oakeshott's concept of conversation as an engagement among a plurality of voices without symposiarch or arbiter to dictate its course Plotica explores several fundamental and recurring themes of Oakeshott's philosophical and political writings individual agency tradition the state and democracy When viewed as interventions into an ongoing conversation of modern political thought Oakeshott's work transcends the limits of familiar ideological labels and his thought opens into deeper engagement with some of the most significant thinkers of the twentieth century including Ludwig Wittgenstein Charles Taylor Michel Foucault and Hannah Arendt Attending to these often unexpected or unrecognized affinities casts fresh light on some of Oakeshott's most familiar ideas and their systematic relations and facilitates a better understanding of the breadth and depth of his political thought **In Defence of Modernity** Efraim Podoksik, 2013-05-14 Although Oakeshott's philosophy has received considerable attention the vision which underlies it has been almost completely ignored This vision which is rooted in the intellectual debates of his epoch cements his ideas into a coherent whole and provides a compelling defence of modernity The main

feature of Oakeshott's vision of modernity is seen here as radical plurality resulting from fragmentation of experience and society. On the level of experience, modernity denies the existence of the hierarchical medieval scheme and argues that there exist independent ways of understanding our world such as science and history which cannot be reduced to each other. On the level of society, modernity finds expression in liberal doctrine according to which society is an aggregate of individuals each pursuing his or her own choices. For Oakeshott, to be modern means not only to recognise this condition of radical plurality but also to learn to appreciate and enjoy it. Oakeshott did not think that it was possible to find a comprehensive philosophical justification for modernity; therefore, the only way to preserve modern civilisation seemed to be an appeal to sentiment. As a consequence, he was a passionate defender of liberal education as the best way to underwrite the conversation of mankind.

Reading between the lines – Leo Strauss and the history of early modern philosophy Winfried Schröder, 2015-11-13. Since its publication in 1952, Leo Strauss's *Persecution and the Art of Writing* has stirred considerable controversy, particularly among historians concerned with early modern philosophy. On the one hand, several scholars share his view that it would be inadequate to generally take at face value the explicit message of texts which were composed in an era in which severe sanctions were imposed on those who entertained deviating views. *Reading between the lines* therefore seems to be the appropriate hermeneutical approach. On the other hand, the risks of such an interpretative maxim are more than obvious as it might come up to an unlimited license to ascribe heterodox doctrines to early modern philosophers whose manifest teachings were in harmony with the orthodox positions of their time. The contributions to this volume both address these methodological issues and discuss paradigmatic cases of authors who might indeed be candidates for a Straussian reading between the lines: Hobbes, Spinoza and Bayle.

Democratic Vanguardism Michael Harland, 2013-10-24. The terrorist attacks of September 11, 2001, transformed the way in which Americans and their leaders viewed the world. The tragic events of that day helped give rise to a foreign policy strategy commonly referred to as the Bush Doctrine. At the heart of this doctrine lie a series of claims about the need to encourage liberal democracy as the antidote to jihadist terrorism. President George W. Bush proclaimed in a variety of addresses that democracy now represented the single surviving model of political life to which all people aspired. In the course of making this argument, President Bush linked his policies to an overarching teleology of progress. This discourse suggested that the United States might use force to hasten the emergence of liberal norms and institutions in rogue states. With a sense of irony, some commentators soon referred to the Bush administration's position as Leninist because of its determination to bring about the so-called end of history today. Yet surprisingly, these critics had little more to add. This book assesses in greater depth the Bush administration's claim to comprehend the purpose of historical progress. Developing a concept termed democratic vanguardism, this study investigates the idea of liberal modernity, the role of the United States as a force for democracy, and the implications of using military intervention in the service of idealistic ends. It examines disputes among political theorists, public intellectuals, and elected statesmen that help to

enrich our understanding of the United States efforts under President Bush to bend history to its will *Leo Strauss, the Straussians, and the American Regime* Kenneth L. Deutsch, John Albert Murley, 1999 Responding to volatile criticisms frequently leveled at Leo Strauss and those he influenced the prominent contributors to this volume demonstrate the profound influence that Strauss and his students have exerted on American liberal democracy and contemporary political thought By stressing the enduring vitality of classic books and by articulating the theoretical and practical flaws of relativism and historicism the contributors argue that Strauss and the Straussians have identified fundamental crises of modernity and liberal democracy This book emphasizes the broad range of Strauss's influence from literary criticism to constitutional thought and it denies the existence of a monolithic Straussian political orthodoxy Both critics and supporters of Strauss thought are included All political theorists interested in Strauss's extraordinary impact on political thought will want to read this book Reflections on Conservatism Doğançan Özsel, 2011-09-22 In comparison to other political doctrines conservatism is an understudied subject and there are few books that bring together works of scholars studying conservatism from different perspectives *Reflections on Conservatism* is among these few pieces and is written for those who are interested in conservative thinking and conservative movements in different countries In *Reflections on Conservatism* readers will find 13 articles covering a wide range of aspects on conservatism Six of these articles offer analyses of certain theoretical aspects of conservatism and focus on issues such as the definition of conservatism the theme of inequality in conservative thinking and the applicability of conservative principles to postcolonial politics Following these there are seven articles that focus on conservative movements or thinkers from different countries Here readers will find detailed discussions on the contemporary state of British and US conservatisms as well as Sarkozy's UMP There are also other articles that present the portrayal of post war cultural conservatism in Denmark Antall's conservatism in Hungary and radical conservative trends in Turkey

As recognized, adventure as skillfully as experience very nearly lesson, amusement, as capably as deal can be gotten by just checking out a ebook **Recasting Conservatism Oakeshott Strauss And The Response To Postmodernism** afterward it is not directly done, you could receive even more regarding this life, in relation to the world.

We provide you this proper as well as easy showing off to acquire those all.
