Recent Perspectives In American Philosop:

Recent Perspectives in American Philosophy Yervant Hovhannes Krikorian, 1973 The essays in this book analyze significant perspectives of the recent past in American philosophy they represent some of the major trends of this period Alfred North Whitehead is included with the recent American philosophers since his major philosophic ideas were fully developed in this country There has been no attempt to deal comprehensively with this period Several philosophers of equal importance who also deserve attention C I Lewis A O Lovejoy W F Montague R B Perry F J E Woodbridge and others have not been discussed Most of the essays were published at various times in various journals Though all of the perspectives are presented with sympathetic understanding they are also critically evaluated 2 AMERICAN PHILOSOPHY OF THE RECENT PAST But even more than individual philosophers and schools of philosophy the larger background of contemporary American life has nourished the empirical spirit Science as the most pervasive climate of our intellectual and practical activity has enhanced the empirical attitude The great development in this country of business and technological industry has encouraged the pragmatic empirical outlook Empiricism however is an ambiguous term and its different meanings have different philosophic consequences For some it means that only concrete personal experience can be accepted as reality for others it means the succession of sense impressions The more recent usage the one that has been dominant in American philosophy identifies empiricism with objectively and socially verifiable pronouncements that is with experimentalism or confirmation through demonstrable evidence

Recent Perspectives in American Philosophy. by Yervant H. Krikorian Yervant Hovhannes Krikorian, 1973 **New Perspectives on Anarchism** Nathan J. Jun, Shane Wahl, 2010-01-01 The study of anarchism as a philosophical political and social movement has burgeoned both in the academy and in the global activist community in recent years Taking advantage of this boom in anarchist scholarship Nathan J Jun and Shane Wahl have compiled twenty six cutting edge essays on this timely topic in *New Perspectives on Anarchism* E.A. Burtt, Historian and Philosopher D. Villemaire, 2013-04-17 Burtt's book *The Metaphysical Foundations of Modern Physical Science* is something of a puzzle within the context of twentieth century intellectual history especially American intellectual history Burtt's pioneering study of the scientific revolution has proved to be prophetic in its rejection of both scientism and positivism Published in 1924 Burtt's book continues to be read in educated circles and remains both the rose and the thorn on university reading lists raising skeptical questions about science methods and science knowledge just as it did seventy five years ago This book examines Burtt's public academic and personal life From his politics of conscience after World War I on through the Cold War Burtt is shown to be a man of unparalleled integrity whose relentless search for philosophic understanding drove his more quixotic philosophical quests and steered his personal life including its tragic dimension toward simple virtue The many who have been affected by *The Metaphysical Foundations* will be especially interested in this new perspective on the life and thought of its author Those who have not read Burtt's books might be inspired to study this

unusual American thinker *Nature's Primal Self* Nam T. Nguyen,2011-12-28 *Nature's Primal Self* examines Corrington's thought called ecstatic naturalism in juxtaposition to both C S Peirce's pragmatic and semiotic concept of the self and Karl Jaspers existential elucidation of Existenz Peirce's and Jaspers anthropocentrism is thus corrected by Corrington's ecstatic naturalism Ecstatic naturalism as a new movement is both a semiotic theoretical method and a metaphysics that probes deeply into the ontological divide between nature naturing and nature natured Author Nam T Nguyen attempts to achieve three goals first to present and elucidate the underlying philosophical concepts of Charles Peirce Karl Jaspers and Robert Corrington second to critique the anthropocentric self of Peirce's semiotic pragmatism and of Jaspers existential anthropology periechontology from the standpoint of ecstatic naturalism and third to introduce the concept of nature's primal self radically grounded in the perspective of ecstatic naturalism as a judicious more encompassing and richer framework compared to Peirce's semiotic construction of the self and Jaspers existential concept of Existenz **New**
