Other-person-ness and the Person with Profound Disabilities Pia Matthews,2022-10-13 Many people think that profound disability presents us with a real problem often because it seems difficult to connect with someone who does not seem to think or act like us Positioning profound disability in this way immediately sets up a them and us where the person with profound disability becomes the problematic other Attempts to bridge the them and us risk reducing everyone to the same where disability is not taken seriously In contrast to a them and us and negative connotations of the other found in the existentialist philosophies of writers like Sartre and Beauvoir Pia Matthews argues for a return to a positive view of the other One positive approach to the other based on an ethics of relationship as championed by Levinas seems to mitigate the otherness of profound disability However this still makes the person with profound disability dependent on the ethical concern of the more powerful other Instead this book argues for return to a personalist philosophy of being offered by Mounier Marcel and Wojtya and deepened by participation belonging and the possibility of contributing to the good of all This deepened philosophy of being gives a more solid foundation for people who are especially at the mercy of others It will be of interest to all scholars and students of disability studies philosophy and anthropology *Communication Skills for Physiotherapists - E-Book* Vincent Kortleve,2021-05-26 Essential guide to effective communication for better physiotherapy outcomes This book will help physiotherapists at every stage of their career to develop effective therapeutic communication skills and thereby enhance patient care Author Vincent Kortleve takes an evidence based approach that will help practitioners incorporate effective communication skills and strategies into every consultation from taking a medical history through to therapy and evaluation Learn how to excel in the four roles of communicative practice the confidant the coach the detective and the teacher how to master shared decision making motivational interviewing therapeutic pain education and health education and how to cope when communication is difficult or breaks down Simple and comprehensive model Evidence based Proven communication approaches applied in the context of physiotherapy Specific clinical examples **Why Men Hurt Women and Other Reflections on Love, Violence and Masculinity** Kopano Ratele,2022-09 This book seeks to imagine the possibility of a more loving masculinity in a society where structural violence failures of government and economic inequality underpin much of the violent behaviour that men display Enriched with personal reflections on his own experiences as a partner father psychologist and researcher in the field of men and masculinities Why Men Hurt Women and Other Reflections on Love Violence and Masculinity is Kopano Ratele's meditation on love and violence and the way these forces shape the emotional lives of boys and men At the core of these critical and deeply insightful texts is the question of why men hurt women they love Ratele contends that many men in our society suffer from a painful unrecognised yet consequential love hunger that sets in during boyhood This need for love may lie at the root of some of the male violence that damages the lives of women children and men themselves Anger Management for Everyone Raymond Chip Tafrate,Howard

Public Self and Private Self Roy F. Baumeister,2012-12-06 Psychology has worked hard to explore the inner self Modern psychology was born in Wundt s laboratory and Freud s consulting room where the inner self was pressed to reveal some of its secrets Freud in particular devoted most of his life to explor ing the hidden recesses inside the self hidden even from the conscious mind he said From Freud s work right down to the latest journal article on self schemata or self esteem psychologists have continued to tell us about the inner self More recently psychology has turned some of its attention to the outer self that is the self that is seen and known by other people Various psychologists have studied how the outer self is

formed impression formation how people control their outer selves impression management and so forth But how is the outer self related to the inner self There is an easy answer but it is wrong The easy answer is that the outer self is mostly the same as the inner self Put another way it is that people reveal their true selves to others in a honest and straightforward fashion and that others accurately perceive the individual as he or she really is Sometimes it works out that way but often it does not The issue is far too complex for the easy answer
