The Unschooling Handbook Mary Griffith,2010-05-05 To Unschoolers Learning Is As Natural As Breathing Did you know that a growing percentage of home schoolers are becoming unschoolers The unschooling movement is founded on the principle that children learn best when they pursue their own natural curiosities and interests Without bells schedules and rules about what to do and when the knowledge they gain through mindful living and exploration is absorbed more easily and enthusiastically Learning is a natural inborn impulse and the world is rich with lessons to be learned and puzzles to be solved Successful unschooling parents know how to stimulate and direct their children s learning impulse Once you read this book so will you

In Their Own Way Thomas Armstrong,2000-08-07 Does your child have a favorite subject activity or hobby Children learn in multiple ways and educator Thomas Armstrong has shown hundreds of thousands of parents and teachers how to locate those unique areas in each of our children where learning and creativity seem to flow with special vigor In this fully updated classic on multiple intelligences Armstrong sheds new light on the eight ways to bloom or the eight kinds of multiple intelligences While everyone possesses all eight intelligences Armstrong delineates how to discover your child s particular areas of strength among them The book shatters the conventional wisdom that brands our students as underachievers unmotivated or as suffering from learning disabilities attention deficit hyperactivity disorder or other learning diseases Armstrong explains how these flawed labels often overlook students who are in possession of a distinctive combination of multiple intelligences and demonstrates how to help them acquire knowledge and skills according to their sometimes extraordinary aptitudes Filled with resources for the home and classroom this new edition of In Their Own Way offers inspiration for every learning situation

Math Power Patricia Clark Kenschaft,2014-02-19 Critically acclaimed and commercially successful this resource helps parents overcome their residual math anxiety and assists them in showing children how to enjoy the subject and excel at it Packed with useful information and instruction the book features proven teaching techniques games and other activities Suitable for home schoolers and other parents of children from preschool to age 10 2006 edition
