

Maths Investigations

A Collection of Open-ended Tasks

How long would it take to write every number to a million?

Why is my birthday on a different day each year?

How many nappies will a baby use before he or she is toilet-trained?

Can a person really jump from the top of one building to the next like they do on TV?

Is it true that the length of your feet is the same as the distance between your elbow and your wrist?

How much water do I use having a shower?

Paul Swan

Maths Investigations A Collection Of Openended Tasks

The Process of Learning Mathematics L. R. Chapman, 2016-06-06 The Process of Learning Mathematics is a collection of essays from a two term course of intercollegiate lectures for students of B Ed degree This collection starts with two different views on the nature of mathematics One essay discusses the role of intuition in understanding mathematics while another paper expounds on the role of logic This book then discusses the generalization structure and approximations used in teaching mathematics and emphasizes the problems of applied mathematics and technology pertaining to equations of motion mathematical representation of physical phenomena or in relations such as conservation of matter One paper reviews Piaget's studies on the development of children's thinking process noting that teachers should consider the level of thinking the pupil uses when designing his teaching material Another essay deals with how the existing knowledge in a student can affect new kinds of learning through assimilation and accommodation This book then describes the use of symbols and reflective intelligence addressing reflective activities communication and the contribution of symbols This text then discusses computer assisted education and several mathematical teaching or learning experiments This compendium can prove useful for mathematics majors educators school administrators and math teachers

Mathematics at Home John Davis, 2001-10-01 How can teachers help parents to get involved with their children's learning Maths at home is full of activities designed to fit in with the Key Stage 2 Numeracy topics Teachers can photocopy the appropriate sheet and send it home for parents and children to work on together Each activity has a set of explanatory notes for teachers and a photocopiable worksheet Instructions to parents are clearly presented with resources listed The activities are practical and enjoyable covering everyday mathematical tasks such as calculating shopping bills estimating quantities and looking at timetables Children are also encouraged to apply their mathematical skills and understanding to these practical tasks for example by converting cooking time information into a graph John Davis sets out to develop children's enthusiasm for maths and to build up parents confidence in helping their children in what can often be a daunting area of the curriculum A full glossary of terms used is included at the end of the

book to provide extra information for parents if they need to give any further explanation

Learning to Teach in the Primary School Teresa Cremin, Helen Hendry, Anna Harrison, 2025-06-30 How do you become an effective primary school teacher What do you need to be able to do What do you need to know Flexible effective and creative primary school teachers require subject knowledge an understanding of their pupils and how they learn a range of strategies for managing behaviour and organising environments for learning and the ability to respond to dynamic classroom situations The fifth edition of this bestselling textbook has been fully updated with the latest research and initiatives in the field as well as the most recent curriculum and policy changes across the UK It features two new co editors and 13 new chapters and enhanced accessibility throughout New or completely rewritten chapters have been included on Reading curriculum Writing curriculum Maths curriculum Science curriculum Arts enriched curriculum Humanities curriculum Adaptive teaching Education and wellbeing Education for sustainability Applying for jobs and preparing to be an ECT A selection of extra tasks have been woven throughout with an emphasis on innovative reflective practice and new vivid examples bring each chapter s argument to life in a classroom context Providing a comprehensive but accessible introduction to teaching and learning in the primary school covering everything a trainee needs to know in order to gain QTS this accessible and engaging textbook is essential reading for all students training to be primary school teachers This textbook is supported by a free companion website with additional resources for instructors and students and an accompanying series of books on Teaching Creatively across the curriculum

Natural Maths Strategies Ann Baker, Johnny Baker, 2006 Spiral bound Includes CD
