Pamela Anne Quiroz

Mating Dating And Relating:

Women in Philosophical Counseling Luisa de Paula, Peter Raabe, 2015-04-23 With contributions from eighteen professional women counselors from twelve different countries this book is the first to provide an overview of new born philosophical practices from an entirely female perspective It gives voice to women's thoughts and brings to the reader a living portrait of philosophy as a service to people and a training for those in search of a fully lived existence As the authors draw on first hand experience their philosophical analyses intertwine with changes in attitudes and real life stories unearthing that forgotten soul of philosophical thought which our ancestors referred to as the Anima The book provides a lively sprightly and vivacious picture of how philosophy is used in practice a long way from the rigidness and stereotypical severity of its traditional image It will not fail to inspire readers to live their thoughts and think their lives **Dating,**

Mating, Relating Pamela Anne Quiroz, 2022-06-20 To fit a changing society the conventional ways we date and mate have given way to brand new methods People nowadays marry later in life choose not to marry at all seek partners after divorce outlive spouses relocate to new areas and even endure pandemics This signifies that we are moving toward larger dating pools something made possible through public personal advertising This text details personal advertising in print and digital media as well as online dating services speed dating the use of mobile dating apps and other topics Interviews reveal the appeal and limitations of personal advertising for meeting people This book offers a window into the development of trust and relationships as well as the increasing role technology plays in shaping how people meet and mate in the modern world

Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy **One by One** Gina

Dalfonzo, 2017-06-20 There are now more single adults than married adults in the United States yet the evangelical church continues to focus primarily on serving couples and families with ministries geared toward their particular needs This can lead however unintentionally to the marginalization of adults who are single by choice divorce or death or who are simply not yet married Families are a good thing but so are all of God's people and singles long to be lovingly integrated into the Body of

Christ In One by One Gina Dalfonzo explores common misconceptions and stereotypes about singles including the idea that they must be single because something is wrong with them and the subtle and not so subtle ways they are devalued like when sermons focus overmuch on navigating marital relationships or raising children She shows how the church of Paul who commended those who remained single became the church where singles are too often treated like second class Christians Then she explores what the church is doing right what unique services singles can offer the church and most importantly what the church can do to love and support the singles in their midst **Cyberbullies, Cyberactivists, Cyberpredators**

Lauren Rosewarne,2016-01-25 Written by an expert in media popular culture gender and sexuality this book surveys the common archetypes of Internet users from geeks nerds and gamers to hackers scammers and predators and assesses what these stereotypes reveal about our culture s attitudes regarding gender technology intimacy and identity The Internet has enabled an exponentially larger number of people individuals who are members of numerous and vastly different subgroups to be exposed to one other As a result instead of the simple jocks versus geeks paradigm of previous eras our society now has more detailed stereotypes of the undesirable the under the radar and the ostracized cyberpervs neckbeards goths tech nerds and anyone with a non heterosexual identity Each chapter of this book explores a different stereotype of the Internet user with key themes such as gender technophobia and sexuality explored with regard to that specific characterization of online users Author Lauren Rosewarne PhD supplies a highly interdisciplinary perspective that draws on research and theories from a range of fields psychology sociology and communications studies as well as feminist theory film theory political science and philosophy to analyze what these stereotypes mean in the context of broader social and cultural issues From cyberbullies to chronically masturbating porn addicts to desperate online daters readers will see the paradox in popular culture s message that while Internet use is universal actual Internet users are somehow subpar less desirable less cool less friendly than everybody else **The Zoomer Philosophy**
