**(Dis)Information Age: From Post-Truth to Post-Postmodernism** Jonathan Austad,2025-01-07 There has yet to be a strong consensus regarding when and if postmodernism ended As such there is no agreement about the new age s name origins or tenets Nealson s *Post Postmodernism* or *The Cultural Logic of Just in Time Capitalism* leaves out the impact of the internet and social media Other books fail to explore post postmodernism within a larger social political framework and do not examine the cultural trends that have responded to such forces This book undertakes these complexities by examining the interplay between the sociohistorical events and visual culture of the last two decades and posits that postmodernism ended with the terror attacks on September 11 2001 Few events have such a tremendous impact on the collective consciousness that they cause immense social political and cultural changes but the terror attacks marked the beginning of a new era filled with greater anxiety and uncertainty The Bush Administration used news outlets to promote a false narrative and mislead the public manipulating information to further its agenda and altering the nature and efficacy of mass media and ultimately launching society into an age of disinformation The Dis Information Age is comprised of two main phenomena post truth and post postmodernism Truth and reality have become increasingly difficult to ascertain in this post truth world and created increased skepticism towards those in the government and media The rise of the internet and social media has exacerbated this trend by individualizing facts and data further fragmenting society along ideological lines The result is people share fewer common ideas than in previous eras and are no longer living in a shared reality Post postmodernism on the other hand is a cultural movement that has responded to post truth s weaponization misuse and individualization of information Artists of post postmodernism seek greater connectivity and common ground to combat individualized information and ideological warfare To them truth resides in the collective This study examines the intricate relationship between recent socio historic events and cultural manifestations that respond to them to better understand the world in which we live *Integrative and Functional Medical Nutrition Therapy* Diana Noland,Jeanne A. *Exploring the Frontiers of Regenerative Cardiovascular Medicine* Joshua D. Hutcheson, Julie A. Phillippi, Elena Aikawa, 2019-05-15 This Research Topic celebrates the 50th anniversary of the first heart transplant performed in December of 1967 in Cape Town South Africa Cardiovascular researchers met in South Africa in December 2017 to commemorate this event presenting an opportune time to reflect on the achievements of applied cardiovascular research and highlight forthcoming technology developments that will shape the future of cardiovascular medicine The clinical breakthrough in 1967 offered hope to many patients suffering with cardiac complications and these life

saving surgeries continue to have a tremendous impact Tissue shortages surgical risks and complications due to improper host transplant tissue interactions however limit the utility of heart transplants to the most severe cases of cardiac morbidity Recent advances have yielded mechanistic insight into the factors that control cardiovascular tissue maintenance and remodeling The field of regenerative medicine seeks to control these factors to promote in situ tissue regeneration or engineered tissue replacement These exciting new technologies could lead to a renaissance in the treatment of many cardiovascular diseases just as the realization of heart transplantation 50 years ago In this Research Topic researchers and clinicians from regenerative medicine and applied cardiovascular biology provide literature reviews and original manuscripts to demonstrate the trajectory of cardiovascular medicine The contributions vertically integrate advances by clinicians engineers and basic scientists all researching similar topics from different angles and with complementary perspectives Taken together these contributions demonstrate the process of applied cardiovascular research from basic science discoveries to implementation in clinical practice ECKM 2019 20th European Conference on Knowledge Management 2 VOLS Dr. Eduardo Tomé,2019-09-05 **American Book Publishing Record** ,1998
