The Power of Perspective Knut Mikjel Rio, 2007-05-01 Focusing on different forms of agency in North Ambrym social life the author demonstrates the potency of outsiders at different times and in different situations in Ambrym society This model challenges the premises of much Western thinking about reciprocity and suggests new directions in the analysis of Melanesian societies

**The Matter of Evil** Drew M. Dalton, 2023-10-15 A provocative and entirely new account of ethical reasoning that reconceives the traditional understanding of ethical action negatively In this radical reconsideration of ethical reasoning in contemporary European philosophy Drew M Dalton makes the case for an absolutely grounded account of ethical normativity developed from a scientifically informed and purely materialistic metaphysics Expanding on speculative realist arguments Dalton argues that the limits placed on the nature of ethical judgments by Kant's critique can be overcome through a moral evaluation of the laws of nature specifically the entropic principle that undergirds the laws of physics chemistry and biology In order to extract a moral meaning from this simple material fact Dalton scrutinizes the presumptions of classical accounts and traditional understandings of good and evil within the history of Western philosophy and ultimately asserts that ethical normativity can be reestablished absolutely without reverting to dogmatism By overturning our assumptions about the nature and value of reality *The Matter of Evil From Speculative Realism to Ethical Pessimism* presents a provocative new model of ethical responsibility that is both logically justifiable and scientifically sound Dalton argues for ethical pessimism a position previously marginalized in the West as a means to cultivate an account of ethical responsibility and political activism that takes seriously the unbecoming of being and the moral horror of existence

The Share of Perspective Emmanuel Alloa, 2024-08-02 This book is a defense of perspectivism in the age of post truth At the crossroads of science art and philosophy it unearths a tradition that we must rediscover the point of view is not only what divides it is also what is shared Today perspective is associated with individualism and personal viewpoints But in an age of post truth the only robust answer to relativism lies in fact in a reappraisal of perspectivism In discussion with contemporary new realisms of various sorts this book makes a case why perspectivism alone can avoid us falling back into epistemological naiveté A journey into the history of optics art philosophy and social psychology this book unearths the forgotten tradition of *perspectiva communis* which makes perspective the vector of a common horizon This book argues that vision is never immediate Rather to see through is the key to understanding the perspectival operation We never see by ourselves all seeing must pass through something other than itself through the mediation and the detour of an apparatus or the witness of a third party Besides the theoretical framework for this new approach to perspective this book presents a series of case studies ranging from innovative interpretations of classical authors and key moments in the history of art from ancient painting *trompe l'oeil* and Brunelleschi's experiment in Renaissance Florence to the issue of perspective in the work of contemporary artists such as Robert Rauschenberg *The Share of Perspective* will be of interest to scholars and advanced students working in

Woods, 2008-05-31 The so called Sumerian conjugation prefixes are the most poorly understood and perplexing elements of Sumerian verbal morphology Approaching the problem from a functional typological perspective and basing the analysis upon semantics Professor Woods argues that these elements in their primary function constitute a system of grammatical voice in which the active voice is set against the middle voice The latter is represented by heavy and light markers that differ with respect to focus and emphasis As a system of grammatical voice the conjugation prefixes provided Sumerian speakers with a linguistic means of altering the perspective from which events may be viewed giving speakers a series of options for better approximating in language the infinitely graded spectrum of human conceptualization and experience Woods is to be commended for establishing a new precedent for analyzing Sumerian grammar which will hopefully become a model for future studies of the language Paul Delnero Johns Hopkins University *The Prism of Perspective* Pasquale De

Perspective James Elkins, 2018-10-18 Perspective has been a divided subject orphaned among various disciplines from philosophy to gardening In the first book to bring together recent thinking on perspective from such fields as art history literary theory aesthetics psychology and the history of mathematics James Elkins leads us to a new understanding of how we talk about pictures Elkins provides an abundantly illustrated history of the theory and practice of perspective Looking at key texts from the Renaissance to the present he traces a fundamental historical change that took place in the way in which perspective was conceptualized first a technique for constructing pictures it slowly became a metaphor for subjectivity That gradual transformation he observes has led to the rifts that today separate those who understand perspective as a historical or formal property of pictures from those who see it as a linguistic cognitive or epistemological metaphor Elkins considers how the principal concepts of perspective have been rewritten in work by Erwin Panofsky Hubert Damisch Martin Jay Paul Ricoeur Jacques Lacan Maurice Merleau Ponty and E H Gombrich The Poetics of Perspective illustrates that perspective is an unusual kind of subject it exists as a coherent idea but no one discipline offers an adequate exposition of it Rather than presenting perspective as a resonant metaphor for subjectivity a painter's tool without meaning a disused historical practice or a model for vision and representation Elkins proposes a comprehensive revaluation The perspective he describes is at once a series of specific pictorial decisions and a powerful figure for our knowledge of the world The Dark Lord And Master and other Magicians stories and songs Rachel Lawson, 2024-05-05 Ever since Blake revealed his identity as Death he has felt utterly disregarded People just see Death not the man he is This is a day in his life Also other stories and songs based on the books **The Art of Being** Dennis Merritt Jones, 2008-04-17 The Art of Being 101 Ways to Practice Purpose in Your Life helps readers become inspired and stay inspired with motivational and uplifting writings that can be read daily supported by Mindfulness Practices or action steps to make it simple Ultimately the understanding at which the reader will arrive is that spirituality the art of being is actually a lifestyle a way of walking our sacred earth every day The Art of Being is a user friendly manual to guide you to become acutely aware of how to live more mindfully on a day by day hour by hour moment by moment basis and thus create more peace and happiness in your life and in the lives of those around you *Bottom-up Linguistics* Paul Rastall, 2019-01-01 Lingvistika zdola nahoru p edstavuje alternativu k v t in mainstreamov ch pohled na jazyk a na lingvistickou anal zu Tento p stup zkoum jazykov jednotky a vztahy v jejich v cerozm rn diverzit Sou asn jazykov jednotky poj m jako zp sob jak m mluv vyjad uj sv komunika n pot eby a jako zp sob jak m se tvo verb ln skute nost K zobecn n m se dosp v z pozorov n p i em se respektuje diverzita uvnit jazyk a nap jazyky P stup bere v potaz jak informa n tak signaliza n vlastnosti e i **Fundamentals of Customer-Focused Management** Joby John, 2003-12-30 Customer orientation customer centricity and customer relationship management CRM are not new concepts or practices But information technology has unleashed tremendous opportunities in dealing with a customer and in creating value to the customer And yet the majority of CRM investments and initiatives fail because firms do not have the appropriate orientation to serving the customer The

principal aim of this book is to get the reader to think about the firm and the way it conducts its business in a certain way with a customer focus. It is now becoming clearly evident that all firms compete on service. Providing superior service becomes a prerequisite for any differentiation strategy to succeed. To provide superior service for a competitive advantage requires a concrete understanding of what service orientation means. This orientation in the form of frame of mind is essential for the firm to take advantage of opportunities and to address the challenges so as to gain a competitive advantage. For excellent service firms the challenges and opportunities in providing services are a constant endeavor. For others these challenges and opportunities are not that obvious. A complementary aim of this book therefore is to instill into the reader the principles of managing services.

*Dao Companion to ZHU Xi's Philosophy* Kai-chiu Ng, Yong Huang, 2020-03-04 Zhu Xi 1130-1200 has been commonly and justifiably recognized as the most influential philosopher of Neo-Confucianism, a revival of classical Confucianism in face of the challenges coming from Daoism and more importantly Buddhism. His place in the Confucian tradition is often and also very plausibly compared to that of Thomas Aquinas slightly later in the Christian tradition. This book presents the most comprehensive and updated study of this great philosopher. It situates Zhu Xi's philosophy in the historical context of not only Confucian philosophy but also Chinese philosophy as a whole. Topics covered within Zhu Xi's thought are metaphysics, epistemology, ethics, political philosophy, hermeneutics, philosophy of religion, moral psychology and moral education. This text shows both how Zhu Xi responded to earlier thinkers and how his thoughts resonate in contemporary philosophy, particularly in the analytic tradition. This companion will appeal to students, researchers and educators in the field.

**Community Series: Towards a Meaningful Instrumental Music Education. Methods, Perspectives, and Challenges - Volume II** Andrea Schiavio, Marja-Leena Juntunen, Dylan van der Schyff, Luc Nijs, 2024-02-26 Trying to understand the complex interplay between effective learning and personal experience is one of the main challenges for instrumental music education. Much of the research that focuses on effective learning outcomes often adopts experimental methodologies that do not allow for a thorough examination of the subjective and social processes that accompany each student's musical journey. On the contrary, contributions dedicated to the detailed analysis of the learners' lived experience often do not offer generalizable outcomes to different types of learning and teaching.

Experiences of Adults Following an Autism Diagnosis Kristien

Hens, Raymond Langenberg, 2018-09-29 This book explores adult experiences of autism diagnosis Focusing on the experiences of 21 interviewees the structure of the book mirrors the seven stages undergone upon diagnosis and raises important questions about modern society and the self amidst this life changing news Analysing a broad range of empirical interview data including adults who had experiences of other diagnoses and adults who seemed to function normally before their autism diagnosis the authors use these stories to examine how autism diagnosis can be extremely important and helpful but also generate a great deal of negativity Illuminating a range of testimonies that have previously been kept in the shadows this book will not only appeal to students and scholars of autism in adults but also to practitioners as well as adults who have been diagnosed with autism

*The Many Faces of Clio* Q. Edward Wang, Franz Leander Fillafer, 2006-12-01 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue This volume reflects the profound impact of his oeuvre Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non Western historical writing in relation to developments in the West Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students

**Out of Sorts** Joseph A. Dane, 2011-06-06 The new history of the book has constituted a vibrant academic field in recent years and theories of print culture have moved to the center of much scholarly discourse One might think typography would be a basic element in the construction of these theories yet if only we would pay careful attention to detail Joseph A Dane argues we would find something else entirely that a careful consideration of typography serves not as a material support to prevailing theories of print but rather as a recalcitrant counter voice to them In *Out of Sorts* Dane continues his examination of the ways in which the grand narratives of book history mask what we might actually learn by looking at books themselves He considers the differences between internal and external evidence for the nature of the type used by Gutenberg and the curious disconnection between the two and he explores how descriptions of typesetting devices from the seventeenth and eighteenth centuries have been projected back onto the fifteenth to make the earlier period not more accessible but less In subsequent chapters he considers topics that include the modern mythologies of so called gothic typefaces the presence of nontypographical elements in typographical form and the assumptions that underlie the electronic editions of a medieval poem or the visual representation of typographical history in nineteenth century studies of the subject Is Dane one of the most original or most traditional of historians of print In *Out of Sorts* he demonstrates that it may well be possible to be both things at once

**The Poetics of Visuality** Justin J. White , 2024-11-14 Justin J White explores the nature of images in

ancient Israel through a reconceptualization of the relationship between image and text. He proposes that in ancient Israel, texts evoked images as a core part of their rhetoric. Rather than conceptualizing texts and images as ontologically or functionally distinct media, he argues that both media are mixed media, even while neither medium is reducible to the other. In order to make this argument, he focuses on the visual aspects of textual rhetoric, what he terms the poetics of visuality. He builds his argument across three text-specific axes of visual rhetoric: ekphrasis, the visual imagination, and material agency. He makes the claim that each of these three axes is endemic to Israelite literature and mutually contributes to the formation of a robust ontology of visual representation in ancient Israel.
