Matters Of Dignity:

Contemporary Issues in Management Lindsay Hamilton, Laura Mitchell, Anita Mangan, 2014-06-27 This book is for upper level students managers and academics who are interested in exploring the messy reality of the contemporary workplace and in considering how things might be done differently In particular it offers a critical perspective on **Why Things Matter to People** Andrew Sayer, 2011-01-20 Andrew Sayer undertakes a fundamental critique of social science s difficulties in acknowledging that people s relation to the world is one of concern As sentient beings capable of flourishing and suffering and particularly vulnerable to how others treat us our view of the world is substantially evaluative Yet modernist ways of thinking encourage the common but extraordinary belief that values are beyond reason and merely subjective or matters of convention with little or nothing to do with the kind of beings people are the quality of their social relations their material circumstances or well being The author shows how social theory and philosophy need to change to reflect the complexity of everyday ethical concerns and the importance people attach to dignity He argues for a robustly critical social science that explains and evaluates social life from the standpoint of human flourishing **Why Law Matters** Alon Harel, 2014-04 Why Law Matters argues that public institutions and legal procedures are valuable and matter as such irrespective of their instrumental value Examining the value of rights public institutions and constitutional review the book criticises instrumentalist approaches in political theory claiming they fail to account for their enduring appeal **Mental Health Law** David B. Wexler, 2013-11-11 THE CORE OF MENTAL HEALTH LAW A musty file in Arizona s Greenlee County Courthouse reveals that on January 22 1912 shortly before Arizona became a state a 19 year old Mexican American woman residing in Morenci was taken into custody and placed in the county jail by a deputy sheriff who that same day filed with the Greenlee County Probate Court the following commit ment petition Have known girl about one year Last summer July or Aug 19 commenced to act irrational Has been under treatment of physicians past 4 months They called me this A M and told me they were unable to treat her successfully that she is crazy and I must arrest her The proposed patient was apparently examined the next day by two physicians who duly completed the required medical questionnaire In addition to mentioning that the patient s physical health was good that she was cleanly in her personal habits that she did not use liquor tobacco or drugs and that neither she nor any of her relatives had ever been mentally ill or hospitalized in the past the doctors listed the follow ing information on those portions of the form devoted to mental illness and dangerousness Dangerousness No threats or attempts to commit suicide or murder Is of a very happy temperament Has a tendency to laugh and sing Facts indicating insanity She wanted to dance Most of conversation was fairly rational **The Trauma of Racism** Beverly J. Stoute, Michael Slevin, 2022-10-31 The Trauma of Racism Lessons from the Therapeutic Encounter is a pioneering reflection on the psychology of racism and its impact on us all With the intimacy of personal experience and depth of analytic exposition the authors expose racism s searing effects on personal clinical and community interactions while providing pathways for change

This book asserts that the insights and practice of psychoanalysis applied behind the couch and in the community create unique opportunities for change. Essayists address racially derived mental health inequities including distortions, projections, stereotypes, and historical tropes. *The Trauma of Racism* invites personal and clinical exploration of how people learn, confront, and relearn views on race. Narratives of the loss and grief and the burdens of slavery that crisscross the African American community are present. They are complemented by those of the psychological burdens and inspired acts of personal responsibility that respond to unequal access to wealth and opportunity along racial lines. In moving accounts portraying experiences of racism and access to privilege, the authors grapple with the possibilities of mutual understanding. Readers concerned about racism will find themselves challenged and engaged. This book is intended for the general reader and for clinicians at any career stage. Likewise, scholars in the humanities, law, education, or public policy will find new opportunities to reflect and to act.

Rights for Intelligent Robots? Kęstutis Mosakas, 2024-08-28. In recent years, the question of human moral duties toward robots has gained momentum in scholarly research due to great advancements in the fields of artificial intelligence (AI) and robotics. Although the current machines fall short of the level of sophistication and human likeness portrayed in science fiction (e.g., the *Westworld* series or the movie *Blade Runner 2049*), they are increasingly assuming roles in our society in various important areas, including manufacturing, healthcare, education, customer service, entertainment, and many others. This book makes a meaningful contribution to the ongoing philosophical discourse surrounding the moral treatment of robots. By providing a rigorous and systematic examination of key moral concepts (e.g., moral rights, moral status, moral considerability, and moral value) within the context of robotics and exploring other closely related issues (e.g., the moral implications of artificial consciousness and the associated epistemic challenges), this book offers fresh insights into the necessary and sufficient conditions for machine moral status and rights.

State of Healthcare 2008 Great Britain. Commission for Healthcare Audit and Inspection, Healthcare Commission, 2008. The Healthcare Commission is the independent watchdog for England. Its function is to assess and report on the quality and safety of services provided by the NHS and independent sector. This is the fifth and final annual State of Healthcare Report as the Commission is to be replaced by the Care Quality Commission on 1 April 2009. The report is mainly about the findings for the financial year 2007/08, but it also reflects on the progress that has been made in healthcare over the past five years. The report presents six pictures of the state of healthcare: for mothers, for children and young people, for people with mental health needs, for people with a learning disability, for people needing urgent and hospital care, and of the support offered to enhance people's health and wellbeing in the community. The Commission highlights improvements with better use and management of resources in the NHS, falling death rates from cancer and heart disease, progress in public health matters such as smoking, a greater attention to safety. Concerns remain, however, a variable picture of quality in maternity services, mental health services, and urgent care; commissioning of healthcare meeting the needs of the more vulnerable in society; children's services; care for older people.

Further improvement is needed to ensure that patients really are at the centre of care are able to make meaningful choices be fully involved in decisions and have the information they need An Instrumentalist Theory of Political Legitimacy Matthias Brinkmann,2024 What justifies political power Most philosophers argue that consent or democracy are important in other words it matters how power is exercised But this book argues that outcomes primarily matter to justifying power
