Woodhouse, 2018-11-30 The book of 1 Kings outlines the rise and fall of ancient Israel through the stories of fourteen kings It is a book of great victories and devastating failures In its pages are violence betrayal power and politics But no matter how great the accomplishments or evil the deeds none of these kingdoms built by human kings could last John Woodhouse walks us through this book passage by passage as it reveals how God's purpose for the kings reaches far beyond what they could accomplish in their lifetimes Their lives are part of a greater story bearing witness about the King of kings Jesus Christ the Savior of the world building and strengthening our faith as we set our eyes on the kingdom that will last forever An Economy of Strangers Avinoam Yuval-Naeh, 2024-01-09 One of the most persistent powerful and dangerous notions in the history of the Jews in the diaspora is the prodigious talent attributed to them in all things economic From the medieval Jewish usurer through the early modern port Jew and court Jew to the grand financier of the nineteenth and twentieth centuries and contemporary investors Jews loom large in the economic imagination For capitalists and Marxists libertarians and radical reformers Jews are intertwined with the economy This association has become so natural that we often overlook the history behind the making and remaking of the complex cluster of perceptions about Jews and economy which emerged within different historical contexts to meet a variety of personal and societal anxieties and needs In An Economy of Strangers Avinoam Yuval Naeh historicizes this association by focusing on one specific time and place the financial revolution that England underwent from the late seventeenth century that coincided with the reestablishment of the Jewish population there for the first time in almost four hundred years European Christian societies had to that point shunned finance and constructed a normative system to avoid it relying on the figure of the Jew as a foil But as the economy modernized in the seventeenth century finance became the hinge of national power Finance's rise in England provoked intense national debates Could financial economy based on lending money on interest be accommodated within Christian state and society when it had previously been understood as a Jewish practice By projecting the modern economy and the Jewish community onto each other the Christian majority imbued them with interrelated meanings This braiding together of parallel developments Yuval Naeh argues reveals in a meaningful way how the contemporary and wide ranging association of Jews with the modern economy could be created The Institute Tie ,1913 **Bookseller** ,1874 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series
