Islam and following it to the present day and its effect on current events not just in the Middle East but globally The Silk Roads Peter Frankopan, 2016-02-16 INTERNATIONAL BESTSELLER Far more than a history of the Silk Roads this book is truly a revelatory new history of the world promising to destabilize notions of where we come from and where we are headed next A rare book that makes you question your assumptions about the world The Wall Street Journal From the Middle East and its political instability to China and its economic rise the vast region stretching eastward from the Balkans across the steppe and South Asia has been thrust into the global spotlight in recent years Frankopan teaches us that to understand what is at stake for the cities and nations built on these intricate trade routes we must first understand their astounding pasts Frankopan realigns our understanding of the world pointing us eastward It was on the Silk Roads that East and West first encountered each other through trade and conquest leading to the spread of ideas cultures and religions From the rise and fall of empires to the spread of Buddhism and the advent of Christianity and Islam right up to the great wars of the twentieth century this book shows how the fate of the West has always been inextricably linked to the East Also available The New Silk Roads a timely exploration of the dramatic and profound changes our world is undergoing right now as seen from the perspective of the rising powers of the East **The Mamluk-Ottoman Transition** Stephan Conermann, Gül Şen, 2022-07-11 While the Ottoman conquest of the Mamluk realm in 1516-17 doubtlessly changed the balance of political power in Egypt and Greater Syria the changes must be seen as a wide ranging transition process The present collection of essays provides several case studies on the changing situation during the fifteenth and sixteenth centuries and explains how the reconfiguration of political power affected both Egypt and Greater Syria With reference to the first volume 2017 this second volume continues the debate on key issues of the transition period with contributions by scholars from both Mamluk and Ottoman studies By combining these perspectives the authors provide a more comprehensive and nuanced picture of the process of transformation from Mamluk to Ottoman rule
