Murmuring The Judges:

Murmuring judges David Hare,1991 Murmuring the Judges Quintin Jardine,2010-11-10 Bob Skinner faces a complex case of murder and organised crime in this absorbing crime thriller In Edinburgh s old Parliament House an armed robbery trial is about to take a macabre turn While the lawyers tussle over the evidence the judge suddenly collapses in agony the victim of an apparent heart attack For Deputy Chief Constable Bob Skinner with his life finally back on track after the near collapse of his marriage this is the last thing he needs But as the wave of brutal robberies continues it emerges that Lord Archergait s death may have been murder and he s not the only judge whose life is in danger With a gang of ruthless killers still at large it s down to Skinner to piece together a puzzle of sinister complexity **Literature and Law**

,2016-08-09 In recent years there has been a continuing and persistent world wide interest in the interaction between the two disciplines of law and literature Although there have been many collections of primary texts that combined these two areas this volume presents literary analyses and criticism in an attempt to assess the varied relationships between law and justice between lawyers and clients and between readers perceptions and authors intent hopefully suggesting why they have continually been yoked together One similarity between the two is that lawyers like writers must catch their audience s attention by novelty of scene distinctiveness of voice and ingenuity of design Furthermore legal advocates must recreate a concrete sense of reality developing vivid and valid pictures of a specific time and place In short both lawyers and writers attempt to provide a basis for juries readers to judge defendants characters by their motivations and their actions and to decide whether a favorable ruling assessment is justified Collectively the essays in this book are designed to deal with themes of guilt and innocence right and wrong morality and legality The essays also suggest that the world as it is delineated by lawyers is indeed a text that like its literary counterparts sometimes blurs the distinction between fact and fiction as it attempts to define truth and to establish criteria for impartial justice By exploring interdisciplinary contexts readers will surely be made more aware more sensitive to the roles that stories play in the legal profession and to the dilemmas faced by legal systems that often succeed in maintaining the rights and privileges of a dominant societal group at the expense of a less powerful one

over and in 1976 led the move into the National's concrete home on the South Bank. Criminal Sentencing as Practical Wisdom Graeme Brown, 2017-06-01

How do judges sentence? In particular, how important is judicial discretion in sentencing? Sentencing guidelines are often said to promote consistency, but is consistency in sentencing achievable or even desirable? Whilst the passing of a sentence is arguably the most public stage of the criminal justice process, there have been few attempts to examine judicial perceptions of and attitudes towards the sentencing process. Through interviews with Scottish judges and by presenting a comprehensive review and analysis of recent scholarship on sentencing, including a comparative study of UK, Irish and Commonwealth sentencing jurisprudence, this book explores these issues to present a systematic theory of sentencing. Through an integration of the concept of equity as particularised justice, the Aristotelian concept of *phronesis* or practical wisdom, the concept of value pluralism and the focus of appellate courts throughout the Commonwealth on sentencing by way of instinctive synthesis, it is argued that judicial sentencing methodology is best viewed in terms of a *phronetic* synthesis of the relevant facts and circumstances of the particular case. The author concludes that sentencing is best conceptualised as a form of case-orientated, concrete and intuitive decision-making, one that seeks individualisation through judicial recognition of the profoundly contextualised nature of the process.
