Medieval Woman's Song Anne L. Klinck, Ann Marie Rasmussen, 2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman's song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters

in Medieval Woman's Song bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction

The Qur'an Oliver Leaman, 2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the source of inspiration for one of the world's major religions followed today by over a billion people It plays a central role in

Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate. Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam, producing a very wide range of views. Authored by forty-three international experts, the objective of *The Qur'an: An Encyclopedia* is to present this diversity of thought, approach and school without priority in order to give a strong appreciation of the range of response that the text has provoked throughout its history and providing students and researchers with a powerful one-volume resource covering all aspects of the text and its reception. Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book. Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies. The volume assumes no previous knowledge of the Qur'an, Islam or Arabic. Technical terms are explained in the text itself and the style of each entry is designed to be as self-contained as possible. Entries are cross-referenced and many include a brief bibliography. At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books, journals and articles in Quranic Studies. There is a full index. The readership will include those seeking basic information on the Qur'an; however, the substantial number of longer entries means that it will also be used by specialists. *Voices of Islam*, Virginia G.

Blakemore-Henry, Vincent J. Cornell, Omid Safi, 2006-12-30. Despite frequent and extensive publications on Islam, very few Americans indeed, very few non-Muslims truly understand the faith or the more than one billion adherents who live it. This set presents the diversity and richness of Islam, filling in the blanks and expanding our knowledge and understanding. Portraying Muslims in all their humanity and diversity balances the images that have bombarded society and presents the reader with a fuller and more accurate picture of the Islamic faith and what it means to live as a Muslim in Muslim communities and as part of a broader tapestry of pluralism in the nations of the world. What does it mean to share Muslim concerns? To experience Muslim spirituality? What is the difference between Sunni and Shiite sects? Why do Muslims pray so frequently? What is the reality of Muslim marriage and gender relations? What is the meaning of jihad and martyrdom to a practicing Muslim? What role do the arts and humanities play in modern Muslim life? How are Islamic children raised? These questions and others are answered in these volumes, which bring together Muslim voices from around the world, including men and women scholars and laypersons, fundamentalists and progressives and others from various cultural, political and Islamic backgrounds. Personal experiences and poetry are included to illustrate the many different expressions of Islam.
