Music: An Art and a Language Walter Raymond Spalding, 2015-06-12 Excerpt from *Music An Art and a Language* Although of the making of books there is no end this book on so human a subject as music we believe should justify itself A twenty years experience in teaching the *Appreciation of Music* at Harvard University and Radcliffe College has convinced the author that a knowledge of musical grammar and structure does enable us as the saying is to get more out of music This conviction is further strengthened by the statement of numerous students who testify that after analyzing certain standard compositions their attitude towards music has changed and their love for it greatly increased In the illustrations published in a Supplementary Volume no concessions have been made to so called popular taste people have an instinctive liking for the best when it is fairly put before them We are not providing a musical digest since music requires active cooperation by the hearer nor are we trying to interpret music in terms of the other arts Music is itself For those who may be interested in speculating as to the connection between music and art numerous books are available some of them excellent from their point of view This book concerns itself with music as music It is assumed that if anyone really loves this art he is willing and glad to do serious work to quicken his sense of hearing to broaden his imagination and to strengthen his memory so that he may become intelligent in appreciation rather than merely absorbed in honeyed sounds Music is of such power and glory that we should be ready to devote to its study as much time as to a foreign language In the creed of the music lover the first and last article is familiarity When we thoroughly know a composition so that its themes sing in our memory and we feel at home in the structure the

music will speak to us directly and all books and analytical comments will be of secondary importance those of the present writer not excepted Special effort has been made to select illustrations of musical worth and upon these the real emphasis in study should be laid About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
