Magnini, 2014-09-05 This book will be a major resource for all academic researchers and practitioners interested in issues dealing with the development of tourism its potential and challenges and policy and regulatory issues in the Central Asian countries of Kazakhstan Uzbekistan Turkmenistan Kyrgyzstan and Tajikistan These countries are gaining more attention as emerging destinations There is limited research that focuses on these countries with respect to their potential and characteristics as tourism destinations This book aims to be an invaluable source for both practitioners and academicians who are in international marketing and tourism The central Asia region also termed the Silk Road region as an emerging destination is ripe for future tourism development The region is rich with historical cultural and natural beauty that could provide significant utility to many potential visitors This book brings together key writings on this topic in a single resource

Central Asia, Russia and the Caucasus: a Pictorial Guide Bob Gibbons, Siân Pritchard-Jones, 2021-08-24 There are many familiar travel destinations across the world that inspire would be adventurers and tourists The great region of Central Asia Russia and the Caucasus had been crisscrossed for centuries by ancient civilisations long before any modern travellers set foot in Samarkand Most of the so called great civilisations of the eastern world invaded plundered ravaged and conquered much of the region Colonial powers can be added to this rich tapestry of history It may not have been glorious but it certainly has left a legacy of sights for travellers to discover The greater region of Central Asia Russia and the Caucasus hosts great swathes of grasslands desert or arid bush with a mix of mountain ranges The population is a vast melting pot of people encompassing Azeri Armenian Georgian Russian Uzbek Kyrgyz Kazakh Tajik Mongolian Afghan and some Chinese The Caucasus cling to a more European culture with superb scenery cultural attractions and a mix of peoples who unfortunately have still to recover from the arbitrary borders imposed by the Soviet Union The recent war between Azerbaijan and Armenia

is a sad testament to this historic conundrum Russia is a surprising country especially well away from the more developed hinterlands of Moscow Few visitors get to places like Saratov Voronezh or Belgorod which for those that do makes it all the more intriguing That Russia is a powerful world player is not in doubt but all is not as it seems The roads are a challenge to say the least but it is a vast country in which to build the infrastructure The Central Asian countries are not a seamless collection of domains There are glaring economic differences between the countries Oil rich Kazakhstan and Turkmenistan have forged ahead in some respects but Uzbekistan Kyrgyzstan and Tajikistan have fabulous scenic and cultural wonders to draw in the crowds Mongolia is perhaps the odd man out in this ensemble but attracts adventurous travellers and mountain climbers Afghanistan is included in Central Asia and has more than made its impact on the region it still does as the tragic events in Kabul of August 2021 have illustrated so vividly across the world Like most of Asia the region is evolving fast as the people have an insatiable desire for the modern Much of the region is on the cusp of rapid modernisation with burgeoning economies and innovation This book is divided into the countries of the region excluding perhaps in future the most important influence on the region China Some of the images date back to the 1980s an era of great adventure others are more recent Russia Central Asia and the Caucasus may not be under the travellers spotlight quite like other parts of the world but being generally less explored the region holds an engrossing fascination for the curious

Central Asia Tom Everett-Heath, 2003-04-17 The five central Asian States of Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan stand at the crossroads of world civilization Influenced by South Asia Iran China and Russia this region which has recently burst onto the world stage once again guards a distinct identity This collection by established experts on the area covers the dramatic Soviet interventions of the early twentieth century and details the role of ethnicity and the contribution made by Islamic impulses in the process of building the modern nation states
