Black-Branch, Dieter Fleck, 2014-07-22 The volume discusses the legal interpretation and implementation of the three pillars of the Treaty of the Non Proliferation of Nuclear Weapons 1968 regarding the non proliferation of nuclear weapons the right to develop research production and use of nuclear energy for peaceful purposes and issues relating to nuclear disarmament It examines the status of international law regarding nuclear capacity considering competing legal approaches to the development of nuclear technology non proliferation disarmament and regulating nuclear weapons within a contemporary international context **Asian Yearbook of International Law, Volume 24 (2018)** Seokwoo Lee, Hee Eun Lee, 2020-11-30 Launched in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its

kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies The 2018 edition of the Yearbook features articles on the practice of Asian states from the perspective of Third World Approaches to International Law TWAIL

Nuclear Weapons and International Law Charles J. Moxley, 2024-05-15 This book analyzes the facts and law as to nuclear weapons and the policy of deterrence It demonstrates that such weapons cannot lawfully be used and that the policy of deterrence is risky and unlawful It urges that the U S take the lead in delegitimizing these weapons and seeking abolition

The Gabčíkovo-Nagymaros Judgment and Its Contribution to the Development of International Law Serena Forlati, Makane Moïse Mbengue, Brian McGarry, 2020-05-18 The Gab kovo Nagymaros Judgment is among the most influential pronouncements of the International Court of Justice While the Court took an unusual approach to settling this dispute it also adopted important stances on a number of complex issues of sustainable development and delicate problems of general international law It significantly contributed to the elucidation and consolidation of many rules pertaining to the law of treaties the law of international responsibility and their mutual relationship The Gab kovo Nagymaros Judgment and its Contribution to the Development of International Law offers a comprehensive analysis of both the management of this case and the substantive legal issues at stake It also reappraises the Court s findings in light of subsequent developments in the international legal order focusing on the role of the World Court in fostering such developments The Legality and

Legitimacy of the Use of Force in Northeast Asia Brendan Howe, Boris Kondoch, 2013-06-06 In The Legality and Legitimacy of the Use of Force in Northeast Asia Brendan Howe and Boris Kondoch bring together distinguished authors with extensive Northeast Asian backgrounds to offer a diverse and comprehensive evaluation of when it is right from regional perspectives to use force in international relations The use of force in international relations has been severely curtailed by pragmatic considerations of international order and further constrained by positive international law In Northeast Asia the prohibition of aggression has remained uncontested Strict adherence to non intervention in Northeast Asia has however increasingly come under attack from internal and external normative communities The contributors therefore use regional legal normative cultural and historical insights to shed light on the contemporary positions of Northeast Asian political communities with regard to the use of force *International Law for Common Goods* Federico Lenzerini, Ana Filipa

Vrdoljak,2014-12-01 International law has long been dominated by the State But it has become apparent that this bias is unrealistic and untenable in the contemporary world as the rise of the notion of common goods challenges this dominance These common goods typically values like human rights rule of law etc or common domains the environment cultural heritage space etc speak to an emergent international community beyond the society of States and the attendant rights and obligations of non State actors This book details how three key areas of international law human rights culture and the environment are pushing the boundaries in this field Each category is of current and ongoing significance in legal and public discourse as illustrated by the Syrian conflict human rights and international humanitarian law the destruction of mausoleums and manuscripts in Mali cultural heritage and the Deepwater Horizon oil spill the environment Each exemplifies the need to move beyond a State focused idea of international law This timely volume explores how the idea of common goods in which rights and obligations extend to individuals groups and the international community offers one such avenue and reflects on its transformative impact on international law

Cultural Heritage, Cultural Rights, Cultural Diversity

Silvia Borelli,Federico Lenzerini,2012-07-05 This volume explores the recent evolution of cultural heritage law which has resulted in the emergence of a new international conscience rooted in the awareness that cultural heritage represents a holistic notion strongly connected with the identity of peoples

Global Nuclear Disarmament Nik Hynek,Michal

Smetana,2015-12-22 This book examines the issue of nuclear disarmament in different strategic political and regional contexts This volume seeks to provide a rich theoretical and practical insight to one of the major topics in the field of international security global abolishment of nuclear weapons Renewed calls for a nuclear weapons free world have sparked a wide academic debate on both the attainability of such goal and the steps that should be taken Comparably less attention however has been paid to theoretically informed considerations of the consequences of nuclear abolition Comprising essays from leading scholars and experts within the field this collection discusses the fundamental theoretical and conceptual foundations of nuclear disarmament and subsequently tries to assess its hypothetical impact in global and regional contexts The varied methodological approach of the contributors aims to advance a multi theoretical and multi perspectival view of the issue The book is organized in three main sections Strategic Perspectives dealing with the specific constraints and facilitators for the states to achieve their core objectives Political Perspectives with the focus on the power of norms belief systems and ideas and Regional Perspectives with the analyses of seven regional and or state specific nuclear contexts As a whole the volume provides a detailed complex overview of the risks and opportunities that are embedded in the vision of a nuclear weapon free world This book will be of great interest to students of nuclear proliferation arms control war and conflict studies international relations and security studies

Sovereignty and the Stateless Nation Keith

Azopardi,2009-10-06 Gibraltar is an Overseas Territory of the UK within the EU which has for three centuries been at the centre of a dispute between Britain and Spain a dispute based on traditional perceptions of sovereignty Hitherto the dispute

has been managed in a predominantly bilateral way but this has prevented the people of Gibraltar having an equal say on the issue of Gibraltar's sovereignty and decolonisation. It has produced a paradox of governance and constitutionalism that encases the Gibraltar people. This book considers the effects of sovereignty and the culture of bilateralism on the dispute and examines the resulting deficits of governance and democracy. In assessing the evolution of the themes underlying the dispute it asks how its resolution might be facilitated by the application of ideas drawn from the modern legal context of late sovereignty pluralism and stateless nationalism suggesting that a productive trilateral approach and recognition of the legal and societal context could enable an enduring settlement. The author marries theories from international relations constitutional law and public international law in the context of modern literature on sovereignty and nationalism applying these theories to the case study of Gibraltar with emphasis on constitutionalism in its international and EU context to produce a ground breaking addition to the literature on stateless nationalism late sovereignty and constitutional pluralism. As such it also complements recent studies of sub state societies regions or nations within Europe and elsewhere including Catalunya the Basque Country and Scotland and Wales and in the broader Commonwealth context other British overseas territories. This book will be of interest to lawyers political scientists constitutional historians and constitutionalists.

International Sustainable Development Law - Volume II A. F. Munir Maniruzzaman, Aaron Schwabach, Arthur John Cockfield, A. Dan Tarlock, John C. Dernbach and Gabriela Maria Kutting, 2010-10-30 International Sustainable Development Law is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias. The Theme on International Sustainable Development Law reflects on the rights and duties of states and other actors in the development process. The chapters range from International Development Law standard applications of economic theory to more radical approaches. These three volumes are aimed at the following five major target audiences: University and College Students, Educators, Professional Practitioners, Research Personnel and Policy Analysts, Managers and Decision Makers, NGOs and GOs. Marine Pollution, Shipping Waste and International Law Gabriela Argüello, 2019-07-22 Waste management poses increasing challenges to both the protection of the environment and to human health. To face these challenges this book claims that environmental law needs to shift attention from media specific pollution regimes to integrative life cycle approaches of waste management i.e. from the prevention of waste generation to the actual handling of wastes. Furthermore the cooperation of States and the establishment of coordinated activities is essential because states can no longer have separate standards for wastes posing transboundary risks and for purely domestic wastes. Drawing upon both International and EU law the book provides a detailed analysis of the regimes set up to deal with the transboundary movement of wastes and ship source pollution so as to elucidate the obligations and legal principles governing such regimes. It concludes that treaty obligations concerning transboundary movements of wastes are inapplicable to ship wastes while on board ships and on land. However despite the

limitations of the transboundary movement of wastes regime the principle of Environmentally Sound Management ESM embodied in this regime has gradually transformed into a legal principle ESM works to address the legal gaps in the regulation of wastes and consequently it provides the desired coherence to the legal system since it acts as a bridge between several regulatory and sectoral levels Furthermore ESM offers a new light with which to understand and interpret existing obligations and it provides a renewed impetus to regimes that directly and indirectly govern wastes This impetus translates into greater coordination and the establishment of cross sectional policies By offering alternative ways to solve problems linked to the management of ship wastes in the sea land interface this book will appeal to anyone with an interest in International Environmental Law **Asian Yearbook of International Law, Volume 14 (2008)** B S Chimini,Miyoshi Masahiro,Li-Ann Thio,2010-10-06 The Asian Yearbook of International Law is produced by the Foundation for the Development of International Law in Asia DILA and is a major refereed publication dedicated to international law issues as seen primarily from an Asian perspective The articles are written by experts from the region and elsewhere The Oxford Handbook of International Environmental Law Lavanya Rajamani,Jacqueline Peel,2021-08-06 The second edition of this leading reference work provides a comprehensive discussion of the dynamic and important field of international law concerned with environmental protection It is edited by globally recognised international environmental law scholars Professor Lavanya Rajamani and Professor Jacqueline Peel and features 67 chapters authored by 76 renowned experts in their fields The Handbook discusses the key principles underpinning international environmental law its relevant actors and tools and rules applying in its substantive sub fields such as climate law oceans law wildlife and biodiversity law and hazardous substances regulation It also explores the intersection of international environmental law with other areas of international law such as those concerned with trade investment disaster migration armed conflict intellectual property energy and human rights The Handbook sets its discussion of international environmental law in the broader interdisciplinary context of developments in science ethics politics and economics which inform the way in which environmental rules are made implemented and enforced It provides an introduction to the foundations of international environmental law while also engaging with questions at the frontiers of research teaching and practice in the field including the role of Global South perspectives the contribution made by Earth jurisprudence and the growing role of a diverse range of actors from indigenous peoples to business and industry Like the first edition this second edition of the Handbook is an essential reference text for all engaged with environmental issues at the international level and the applicable governance and regulatory structures International Environmental Law Pierre-Marie Dupuy,Jorge E. Viñuales,2015-04-23 An accessible up to date and legally rigorous introduction to contemporary international environmental law Detailed references combined with numerous figures and tables provide a conceptually clear understanding of the law in this area The Irish Yearbook of International Law, Volume 16, 2021-2022 Bríd Ní Ghráinne,James Gallen,Richard Collins,2025-02-06 The Irish
