Official Gazette of the United States Patent and Trademark Office ,2004 Household Horror Marc Olivier,2020-02-11 A scholar examines 14 everyday objects featured in horror films and how they manifest their power and speak to society's fears Take a tour of the house where a microwave killed a gremlin a typewriter made Jack a dull boy a sewing machine fashioned Carrie's prom dress and houseplants might kill you while you sleep In Household Horror Marc Olivier highlights the wonder fear and terrifying dimension of objects in horror cinema Inspired by object oriented ontology and the nonhuman turn in philosophy Olivier places objects in film on par with humans arguing for example that a sleeper sofa is as much the star of *Sisters* as Margot Kidder that *The Exorcist* is about a possessed bed and that *Rosemary's Baby* is a conflict between herbal shakes and prenatal vitamins Household Horror reinvigorates horror film criticism by investigating the unfathomable being of objects as seemingly benign as remotes radiators refrigerators and dining tables Olivier questions what Hitchcock's *Psycho* tells us about shower curtains What can we learn from Freddie Krueger's greatest accomplice the mattress Room by room Olivier considers the dark side of fourteen household objects to demonstrate how the objects in these films manifest their own power and connect with specific cultural fears and concerns Provides a lively and highly original contribution to horror studies As a work on cinema it introduces the reader to films that may be less well known to casual fans and scholars more conspicuously it returns to horror staples gleefully reanimating works that one might otherwise assume had been critically done to death *Psycho* *The Exorcist* *The Shining* Allan Cameron University of Auckland Military Thought ,2015

Paterson,L. Burn,2012-12-06 As we stated in our message in the book of abstracts for this congress we have planned the programme over

a long period with one clear objective to present musculoskeletal medicine as an integral part of orthodox medical practice rather than as something alternative or complementary To this end we have based the plenary programme as far as possible on accepted epidemiological anatomical physiological and pathological phenomena Scientifically well validated material must surely be the base upon which any viable musculoskeletal medicine practice may be built While we have chosen the plenary programme to reflect musculoskeletal medicine as a part of orthodoxy we realize and wish to emphasize that there is a wealth of original work that has been carried out within FIMM For this reason our first innovation for the congress was to invite members of the scientific advisory committee to select for a directed programme the three topics they felt were of

greatest current importance The results of this democratic procedure was the choice of the sacroiliac joint a comparison of manual therapies and biomechanics This illustrates the broad direction of present thinking within FIMM *Shipboard Electrical Systems* United States.
