Radio Wizard Edward Samuel Rogers And The Revolution Of Communication:

Radio Wizard Ian Anthony, Rogers Telecommunications Limited, 2000 High Wire Act Caroline Van Hasselt, 2010-03-17 There has possibly never been a more daring business figure in Canada's history than Ted Rogers. Hailed by some as a visionary with an incomparable insight and equally loathed by others as a ruthless opportunist, Ted Rogers relentlessly conquered his rivals in three industries: radio, cable television, and cellular telephony. High Wire Act is an unprecedented in-depth analysis into how Ted Rogers, driven by the psychological need to restore his family's name, leveraged his stake in a small Toronto FM radio station and propelled it into a media and telecommunications behemoth worth over 23 billion. The many topics covered in the book include details on Rogers' unmatched ability to foresee the convergence of cable and telephony before anyone else did; insatiable appetite for debt and risk-taking; and how he bet his company three times to carry out his vision. Shrewd political and regulatory maneuvers that always kept him one step ahead of his competitors and political adversaries such as Bell and the Aspers. Opportunistic acquisition of the Toronto Blue Jays. High Wire Act is a fascinating and one-of-a-kind look into one of Canada's most audacious and visionary business figures of the past fifty years. Every Canadian business reader will be enthralled by this enduring success story of Canada's only true telecommunications mogul.

Art Deco Michael Windover, 2012 No detailed description available for Art Deco The Early Shortwave Stations Jerome S. Berg, 2013-10-04 In July 1923, less than three years after Westinghouse station KDKA signed on, company engineer Frank Conrad began regular simulcasting of its programs on a frequency in the newly discovered shortwave range. It was an important event in a technological revolution that would make dependable worldwide radio communication possible for the first time. In subsequent years, countless stations in practically all countries followed suit, taking to shortwave to extend reception domestically or reach audiences thousands of miles away. Shortwave broadcasting would also have an important role in World War II and in the Cold War. In this, his fourth book on shortwave broadcast history, the author revisits the period of his earlier work *On the Short Waves 1923-1945* and focuses on the stations that were on the air in those early days. The year-by-year account chronicles the birth and operation of the large international broadcasters as well as the numerous smaller stations that were a great attraction to the DXers or long-distance radio enthusiasts of the time. With more than 100 illustrations and extensive notes, bibliography, and index, the book is also a valuable starting point for further study and research.

Wireless and Empire Aitor Anduaga Egaña, Aitor Anduaga, 2009-02-19 Although the product of consensus politics, the British Empire was based on communications supremacy and the knowledge of the atmosphere. Focusing on science, industry, government, the military, and education, this book studies the relationship between wireless and Empire throughout the interwar period.

Wireless and Empire Aitor Anduaga, 2009-02-19 Although the product of a self-proclaimed consensus politics, the British Empire was always based on communications supremacy and the knowledge of the atmosphere. Using the metaphor of a thread of five pieces representing the categories: science, industry, government, the

military and the education this is the first book to study the relations between wireless and Empire throughout the interwar period It is also the first to make full use of the abundant archive material and rich sources existing in Britain and the Dominions The book examines the evolving connection between the development of imperial radio communications and atmospheric physics the expansion and strength of the British radio industry and its relationship with the elucidation of the ionosphere and the different extent to which Australia Canada and New Zealand managed to emulate the British model of radio R D in the interwar years The book ends with a highly original and provocative epilogue The realist interpretation of the atmosphere

Canada Michelangelo Sabatino, Rhodri Windsor Liscombe, 2016-11-15 Canada is a country of massive size of diverse geographical features and an equally diverse population all features that are magnificently reflected in its architecture In this book Rhodri Windsor Liscombe and Michelangelo Sabatino offer a richly informative history of Canadian architecture that celebrates and explores the country's many contributions to the spread of architectural modernity in the Americas A distinct Canadian design attitude coalesced during the twentieth century one informed by a liberal hybrid and pragmatic mindset intent less upon the dogma of architectural language and more on thinking about the formation of inclusive spaces and places Taking a fresh perspective on design production they map the unfolding of architectural modernity across the country from the completion of the transcontinental railway in the late 1880s through to the present Along the way they discuss architecture within the broader contexts of political industrial and sociocultural evolution the urban suburban expansion and new building technologies Examining the works of architects and firms such as ARCOP Eric Arthur Ernest Cormier Brigitte Shim and Howard Sutcliffe this book brings Canadian architecture chronologically and thematically to life

Relentless Ted Rogers, Robert Brehl, 2013-09-24 From his earliest days buying Canada's first FM radio station CHFI to developing Rogers Cable Media and Wireless Relentless tells the true story of the man who stood alone among Canada's all time business giants Relentless is the amazing story of a young man who overcame the early death of his father which cost the family a burgeoning radio business to establish and nurture one of the biggest communications companies in North America Relentless published mere weeks before Ted Rogers' death in late 2008 is filled with back room deals on air battles and the often outrageous exploits of an extraordinary entrepreneur The book made headlines coast to coast when it was first published and Rogers' passing spawned tributes in newspapers as well as on radio TV and the Internet in Canada and around the world

Swashbucklers Knowlton Nash, 2001 From its beginnings broadcasting in Canada has been a battlefield with the larger than life entrepreneurs who fell in love with the new medium locked in battle with government and meddlesome do gooders impressed by the cultural power of radio The first fight of the radio pioneers was over advertising and initially the private broadcasters won commercials were here to stay making radio an immensely profitable industry But the biggest battle of the early years was between private broadcasters and those who lobbied against the new commercial adventurers should the airwaves be used to sell things and entertain or to enrich and educate Canadians

The struggle consumed both sides for years even after the establishment of national public radio in 1936 The advent of television in the early 1950s merely moved the war to fresh terrain By the early 1980s the private broadcasters appeared to have won but a new player arrived on the scene the cable industry The proliferation of specialty channels threatened the end of mass national audiences for television but in an ironic twist the small specialty audiences for cable awoke private broadcasters to the need for specialized Canadian programming The swashbucklers who battled for control of the airwaves and over what is broadcast on them have left behind them a rich record one that Nash brings to life in this vivid and entertaining story of the men the Sedgwicks of Toronto the Siftons of the Prairies the Thomsons of Ontario the Bassetts and the Rogers of Toronto the Aspers of Winnipeg the Shaws of Calgary the Chandlers of Vancouver the Peladeaus of Quebec along with Moses Znaimer of CITY TV and Ivan Fecanof CTV who together have entertained us and tried to sell us things in the privacy of our living rooms for much of this century *Canadian Books in Print 2002* Marian Butler,2002-02
