Labor Pains Christin Marie Taylor, 2019-04-24 From the 1930s to the 1960s the Popular Front produced a significant era in African American literary radicalism While scholars have long associated the black radicalism of the Popular Front with the literary Left and the working class Christin Marie Taylor considers how black radicalism influenced southern fiction about black workers offering a new view of work and labor At the height of the New Deal era and its legacies Taylor examines how southern literature of the Popular Front not only addressed the familiar stakes of race and labor but also called upon an imagined black folk to explore questions of feeling and desire By poring over tropes of black workers across genres of southern literature in the works of George Wylie Henderson William Attaway Eudora Welty and Sarah Elizabeth Wright Taylor reveals the broad reach of black radicalism into experiments with portraying human feelings These writers grounded interrelationships and stoked emotions to present the social issues of their times in deeply human terms Taylor emphasizes the multidimensional use of the sensual and the sexual which many protest writers of the period such as Richard Wright avoided She suggests Henderson and company used feeling to touch readers while also questioning and reimagining the political contexts and apparent victories of their times Taylor shows how these fictions adopted the aesthetics and politics of feeling as a response to New Deal era policy reforms both in their successes and their failures In effect these writers some who are not considered a part of an African American protest tradition illuminated an alternative form of protest through poignant paradigms

The Women of Explosive Ordnance Disposal April Cobos, 2024-05-29 The Women of Explosive Ordnance Disposal Cyborg Techno Bodies Situated Knowledge and Vibrant Materiality in Military Cultures addresses the disparities between policy discourse and the lived experiences of women in the Explosive Ordnance Disposal community who these policies seek to regulate through a rhetorical framework During the Global War on Terrorism the changing contexts of war brought the community to the forefront of combat preceding the 2016 policy repeal restricting women's service in combat which positioned these women at a poignant moment in history Their positioning also sheds light on the challenges twenty first century scholars face in analyzing shifting gender roles in the workplace with policies advocating for gender equality which often buries continued gendered ideologies and discourse This book takes a mixed methods approach of qualitative and quantitative data from surveys available government documents and other cultural artifacts to create a more triangulated analysis While this book is rooted in rhetorical analysis its dynamic nature demands using an interdisciplinary approach that pulls from discourse analysis political historical and military scholarship and other humanities based feminist scholarship

Vaudeville and the Making of Modern Entertainment, 1890-1925 David Monod,2020-09-28 Today vaudeville is imagined as a parade of slapstick comedians blackface shouters coyly revealed knees and second rate acrobats But vaudeville was also America s most popular commercial amusement from the mid 1890s to the First World War at its peak 5 million Americans attended vaudeville shows every week Telling the story of this pioneering art form s rise and decline David Monod looks through the apparent carnival of vaudeville performance and asks what made the theater so popular and transformative Although he acknowledges its quirkiness Monod makes the case that vaudeville became so popular because it offered audiences a guide to a modern urban lifestyle Vaudeville acts celebrated sharp city styles and denigrated old fashioned habits showcased new music and dance moves and promulgated a deeply influential vernacular modernism The variety show s off the rack trendiness perfectly suited an era when goods and services were becoming more affordable and the mass market promised to democratize style offering a clear vision of how the quintessential twentieth century citizen should look talk move feel and act

Gentlemen of the Woods Willa Hammitt Brown,2025-02-18 Lumberjacks the men the myth and the making of an American legend The folk hero Paul Bunyan burly bearded wielding his big ax stands astride the story of the upper Midwest a manly symbol of the labor that cleared the vast north woods for the march of industrialization while somehow also maintaining an aura of pristine nature This idea celebrated in popular culture with songs and folktales receives a long overdue and thoroughly revealing correction in Gentlemen of the Woods a cultural history of the life and lore of the real lumberjack and his true place in American history Now recalled as heroes of wilderness and masculinity lumberjacks in their

own time were despised as amoral transients Willa Hammitt Brown shows that nineteenth century jacks defined their communities of itinerant workers by metrics of manhood that were abhorrent to the residents of the nearby Northwoods boomtowns valuing risk taking and skill rather than restraint and control Reviewing songs stories and firsthand accounts from loggers Brown brings to life the activities and experiences of the lumberjacks as they moved from camp to camp She contrasts this view with the popular image cultivated by retreating lumber companies that had to sell off utterly barren land This mythologized image glorified the lumberjack and evoked a kindly flannel wearing naturalist hero Along with its portrait of lumberjack life and its analysis of the creation of lumberjack myth *Gentlemen of the Woods* offers new insight into the intersections of race and social class in the logging enterprise considering the actual and perceived roles of outsider lumberjacks and Native inhabitants of the northern forests Anchored in the dual forces of capitalism and colonization this lively and compulsively readable account offers a new way to understand a myth and history that has long captured our collective imagination

Lacan in Public Christian Lundberg, 2012-11-26 *Lacan in Public* argues that Lacan's contributions to the theory of rhetoric are substantial and revolutionary and that rhetoric is in fact the central concern of Lacan's entire body of work Scholars typically cite Jacques Lacan as a thinker primarily concerned with issues of desire affect politics and pleasure And though Lacan explicitly contends with some of the pivotal thinkers in the field of rhetoric rhetoricians have been hesitant to embrace the French thinker both because his writing is difficult and because Lacan's conception of rhetoric runs counter to the American traditions of rhetoric in composition and communication studies Lacan's conception of rhetoric Christian Lundberg argues in *Lacan in Public* upsets and extends the received wisdom of American rhetorical studies that rhetoric is a science rather than an art that rhetoric is predicated not on the reciprocal exchange of meanings but rather on the impossibility of such an exchange and that rhetoric never achieves a correspondence with the real world circumstances it attempts to describe As Lundberg shows Lacan's work speaks directly to conversations at the center of current rhetorical scholarship including debates regarding the nature of the public and public discourses the materiality of rhetoric and agency and the contours of a theory of persuasion
