One Million Tomorrows Bob Shaw, 2011-09-29 The Price of Eternal Life In the 22nd Century no one had to die of old age an immortality drug was available to all Its only drawback was the side effect that ended a man's sex drive so most men waited till their youth was fading before they took the final step and became cools But Will Carewe became the first man to test a new variety of the drug one without any side effects at all The limitless future a million tomorrows stretched before him with golden hope until a series of accidents made him realise that someone was trying to murder him As an immortal Carewe had an infinitely greater stake in remaining alive So he began the battle to find out who was after him and why

Building Imaginary Worlds Mark J.P. Wolf, 2014-03-14 Mark J.P. Wolf's study of imaginary worlds theorizes world building within and across media including literature comics film radio television board games video games the Internet and more Building Imaginary Worlds departs from prior approaches to imaginary worlds that focused mainly on narrative medium or genre and instead considers imaginary worlds as dynamic entities in and of themselves Wolf argues that imaginary worlds which are often transnarrative transmedial and transauthorial in nature are compelling objects of inquiry for Media Studies Chapters touch on a theoretical analysis of how world building extends beyond storytelling the engagement of the audience and the way worlds are conceptualized and experienced a history of imaginary worlds that follows their development over three millennia from the fictional islands of Homer's Odyssey to the present internarrative theory examining how narratives set in the same world can interact and relate to one another an examination of transmedial

growth and adaptation and what happens when worlds make the jump between media an analysis of the transauthorial nature of imaginary worlds the resulting concentric circles of authorship and related topics of canonicity participatory worlds and subcreation s relationship with divine Creation Building Imaginary Worlds also provides the scholar of imaginary worlds with a glossary of terms and a detailed timeline that spans three millennia and more than 1 400 imaginary worlds listing their names creators and the works in which they first appeared A Wreath of Stars Bob Shaw,2011-09-29 Thornton s Planet is an anti neutrino planet detected on its approach to Earth It can be seen only through the newly developed magniluct lenses and its arrival causes a wave of panic When its course carries it past the earth interest in Thornton s Planet wanes Then comes news from the African state of Barandi Miners wearing magniluct lenses have seen ghosts in the mine passages The visit of Thornton s Planet has had effects on Earth further ranging than anyone could have imagined **Warren Peace: Dimensions** Bob Shaw,2012-10-15 Warren Peace joined the Space Legion to forget and forget what it was he wanted to forget In his quest to find out who he d been he got turned into an Oscar by a symbiotic alien parasite Oscars are invulnerable superbeings immune to everything and with no need for air food or drink let alone sex and drugs and rock n roll Marooned on an airless planet with a whole bunch of them Warren is bored witless Then a chance encounter with a lump of pryktonite turns him back into a human and Warren embarks on a new career as a galactic troubleshooter His first mission takes him with a couple of Oscars providing the muscle to a water covered planet where a company producing a mind blowing drug is having trouble with its alien work force It seems they re smuggling alien porn mags on to the planet and are too tired to work Warren sets out to find the solution Warren Peace is the second bizarre episode in the series that began with Who Goes Here By the acclaimed author of Orbitsville and the Ragged Astronauts trilogy **Science Fiction and Market Realities** George Edgar Slusser,Gary Westfahl,Eric S. Rabkin,1996 Through case studies other contributors relate science fiction to other forms of underground literature consider the continual cycle of illegitimate art replacing legitimate art look at young readers of science fiction chart the rising and falling stock of science fiction writers reputations and consider the influence of editors on a writer s work *The Year's Best Science Fiction: Thirty-First Annual Collection* Gardner Dozois,2014-07-15 In the new millennium what secrets lay beyond the far reaches of the universe What mysteries belie the truths we once held to be self evident The world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art Now in The Year s Best Science Fiction Thirty First Annual Collection the very best SF authors explore ideas of a new world in the year s best short stories This venerable collection brings together award winning authors and masters of the field such as Robert Reed Alastair Reynolds Damien Broderick Elizabeth Bear Paul McAuley and John Barnes And with an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre **The Year's Best Science Fiction: Thirteenth Annual Collection** Gardner Dozois,1996-05-15

The marvels of tomorrows past and tomorrows yet to come abound in this delightful volume With two dozen imaginative and moving tales this collection included the work of the finest writers in the field among them Poul Anderson Terry Bisson Pat Cadigan Greg Egan Michael F Flynn Joe Haldeman James Patrick Kelly John Kessel Nancy Kress Ursula K Le Guin Ian R MacLeod David Marusek Paul J McAuley Maureen F McHugh Robert Reed Mary Rosenblum Geoff Ryman William Sanders Dan Simmons Brian Stableford Allen Steele Michael Swanwick A helpful list of honorable mentions and Gardner Dozois s insightful summation of the year in science fiction round out the volume making it indispensable for anyone interested in science fiction today Once again Dozois serves up a pleasurable mix of established luminaries as well as the newer stars of the SF realm All of the 24 short stories or novellas are rewarding which is really the most outstanding feature of this collection Publishers Weekly *Complete Critical Assembly* David Langford,2002-10-01 This new collection of essays commissioned from a range of scholars across the world takes as its theme the reception of Rome s greatest poet in a time of profound cultural change Amid the rise of Christianity the changing status of the city of Rome and the emergence of new governing classes Vergil remained a bedrock of Roman education and identity This volume considers the different ways in which Vergil was read understood and appropriated by poets commentators Church fathers orators and historians The introduction outlines the cultural and historical contexts Twelve chapters dedicated to individual writers or genres and the contributors make use of a wide range of approaches from contemporary reception theory An epilogue concludes the volume
