Raiding The Land Of The Foreigners The L:

Raiding the Land of the Foreigners Danilyn Rutherford, 2021-01-12 What are the limits of national belonging Focusing on Biak a set of islands off the coast of western New Guinea in the Indonesian province of Irian Jaya Danilyn Rutherford's analysis calls for a rethinking of the nature of national identity With the resurgence of separatism in the province Irian Jaya has become the focus of fears that the Indonesian nation is falling apart Yet in the early 1990s the fieldwork for this book was made possible by the government's belief that Biaks were finally beginning to see themselves as Indonesians Taking in the dynamics of Biak social life and the islands long history of millennial unrest Rutherford shows how practices that indicated Biaks submission to national authority actually reproduced antinational understandings of space time and self Approaching the foreign as a focus of longing in cultural arenas ranging from kinship to Christianity Biaks participated in Indonesian national institutions without accepting the identities they promoted Their remarkable response to the Indonesian government and earlier polities laying claim to western New Guinea suggests the limits of national identity and modernity writ large This is one of the few books reporting on the volatile province of Irian Jaya It offers a new way of thinking about the nation and its limits one that moves beyond the conventions of both scholarship and recent journalism It shows how people can belong to a nation yet maintain commitments that fall both short of and beyond the nation state *Working Skin* Joseph D.

Hankins, 2014-07-26 Since the 1980s arguments for a multicultural Japan have gained considerable currency against an entrenched myth of national homogeneity *Working Skin* enters this conversation with an ethnography of Japan's Buraku people Touted as Japan's largest minority the Buraku are stigmatized because of associations with labor considered unclean such as leather and meat production That labor however is vanishing from Japan Liberalized markets have sent these jobs overseas and changes in family and residential record keeping have made it harder to track connections to these industries Multiculturalism as a project of managing difference comes into ascendancy and relief just as the labor it struggles to represent is disappearing *Working Skin* develops this argument by exploring the interconnected work of tanners in Japan Buraku rights activists and their South Asian allies as well as cattle ranchers in West Texas United Nations officials and international NGO advocates Moving deftly across these engagements Joseph Hankins analyzes the global political and economic demands of the labor of multiculturalism Written in accessible prose this book speaks to larger theoretical debates in critical anthropology Asian and cultural studies and examinations of liberalism and empire and it will appeal to audiences interested in social movements stigmatization and the overlapping circulation of language politics and capital Mimesis

Into the Field Miriam L. Kingsberg Kadia, 2019-11-26 In the 1930s a cohort of professional human scientists coalesced around a common and particular understanding of objectivity as the foundation of legitimate knowledge and of fieldwork as the pathway to objectivity Into the Field is the first collective biography of this cohort evocatively described by one contemporary as the men of one age At the height of imperialism the men of one age undertook field research in territories under Japanese rule in pursuit of objective information that would justify the subjugation of local peoples After 1945 amid the defeat and dismantling of Japanese sovereignty and under the occupation and tutelage of the United States they returned to the field to create narratives of human difference that supported the new national values of democracy capitalism and peace The 1968 student movement challenged these values resulting in an all encompassing attack on objectivity itself Nonetheless the legacy of the men of one age lives on in the disciplines they developed and the beliefs they established about human diversity

Sovereignty Unhinged Deborah A. Thomas, Joseph Masco, 2023-01-18 Sovereignty Unhinged theorizes sovereignty beyond the typical understandings of action control and the nation state Rather than engaging with the geopolitical realities of the present the contributors consider

sovereignty from the perspective of how it is lived and enacted in everyday practice and how it reflects people's aspirations for new futures. In a series of ethnographic case studies ranging from the Americas to the Middle East to South Asia they examine the means of avoiding the political and historical capture that make one complicit with sovereign authority rather than creating the conditions of possibility to confront it. The contributors attend to the affective dimensions of these practices of world building to illuminate the epistemological, ontological, and transnational entanglements that produce a sense of what is possible. They also trace how sovereignty is activated and deactivated over the course of a lifetime within the struggle of the everyday. In so doing they outline how individuals create and enact forms of sovereignty that allow them to endure fast and slow forms of violence while embracing endless opportunities for building new worlds. Contributors: Alex Blanchette, Yarimar Bonilla, Jessica Cattelino, María Elena García Akhil Gupta, Lochlann Jain, Purnima Mankekar, Joseph Masco, Michaela Ralph, Danilyn Rutherford, Arjun Shankar, Kristen L. Simmons, Deborah A. Thomas, Leniqueca A. Welcome, Kaya Naomi Williams, Jessica Winegar.

States and Citizens Jon Shefner, 2015-11-16. This volume examines how states and citizens have been able to address globalization in different ways across the Global North and South. Authors examine the state as it forms policies in agro production, contends with critical constituencies, and rebuilds capacity to act in the popular interest after forty years of neoliberal assault.

Sex and Salvation Jennifer Cole, 2010-12-15. Sex and Salvation chronicles the coming of age of a generation of women in Tamatave in the years that followed Madagascar's economic liberalization. Eager to forge a viable future amid poverty and rising consumerism, many young women have entered the sexual economy in hope of finding a European husband. Just as many Westerners believe that young people break with the past as they enter adulthood, Malagasy citizens fear that these women have severed the connection to their history and culture. Jennifer Cole's elegant analysis shows how this notion of generational change is both wrong and consequential. It obscures the ways young people draw on long-standing ideas of gender and sexuality; it ignores how urbanites relate to their rural counterparts; and it neglects the relationship between these husband-seeking women and their elders who join Pentecostal churches. And yet, as talk about the women circulates through the city's neighborhoods, bars, Internet cafes, and churches, it teaches others new ways of being. Cole's sophisticated depiction of how a generation's coming of age contributes to social change eschews a narrow focus on crisis. Instead, she reveals how fantasies of rupture and conceptions of the changing life course shape the everyday ways that people create the future.

The Returns of Fetishism Charles de Brosses, 2017-07-26. For more than 250 years, Charles de Brosses's term fetishism has exerted great influence over our most ambitious thinkers. Used as an alternative to magic but nonetheless expressing the material force of magical thought, de Brosses's term has proved indispensable to thinkers as diverse as Kant, Hegel, Marx, Freud, Lacan, Baudrillard, and Derrida. With this book, Daniel H. Leonard offers the first fully annotated English translation of the text that started it all. On the Worship of Fetish Gods. Rosalind C. Morris offers incisive commentary that helps modern readers better understand it and its legacy. The product of de Brosses's autodidactic

curiosity and idiosyncratic theories of language On the Worship of Fetish Gods is an enigmatic text that is often difficult for contemporary audiences to assess In a thorough introduction to the text Leonard situates de Brosses's work within the cultural and intellectual milieu of its time Then Morris traces the concept of fetishism through its extraordinary permutations as it was picked up and transformed by the fields of philosophy comparative religion political economy psychoanalysis and anthropology Ultimately she breaks new ground moving into and beyond recent studies by thinkers such as William Pietz Hartmut B hme and Alfonso Iacono through illuminating new discussions on topics ranging from translation issues to Africanity and the new materialisms
