Market Deeping Model railway club rose to public notice in May 2019 following the sad overnight vandalism of their annual railway show. The breaking news story became a worldwide cause célèbre bringing a whirlwind of kind support from modelers and the general public. The rebuilding of the club's damaged layouts and new projects for replacements gave the rare opportunity of experienced modelers to photograph and document the build process and revisit the basics. The results are incorporated into this book making a positive and cathartic activity from a distinctly negative situation.

Practical Introduction to Digital Command Control for Railway Modellers Nigel Burkin, 2013-03-01

From background information on the technology itself to layout wiring taking in decoders, hand controllers, wireless and many practical modelling projects, Neil Burkin offers a comprehensive introduction to Digital Command Control (DCC) for the beginner and experienced modeller alike. The book emphasises the benefits of DCC technology as a model railway control system and offers practical advice on the choice of systems, applying the technology to a layout, how to use it to enhance layout operations and how it can be used to overcome practical difficulties with operations such as banking, double heading, lighting and sound. Technical jargon is avoided and clear descriptions of each project featured in the book will remove the mystery surrounding DCC. Many of the modelling projects may be adapted for almost any modelling situation and are supported by over 400 excellent colour photographs. A comprehensive guide to Digital Command Control for the beginner and experienced modeller alike. Emphasises the benefits of DCC technology and offers practical advice on the choice of systems. Includes practical modelling projects which are supported by over 400 excellent colour photographs.

Nigel Burkin is a railway modeller with over 20 years experience and has hundreds of magazine articles to his credit.

Scratch-Building Model Railway Locomotives Simon Bolton, 2014-07-31

Have you ever dreamed of being able to make a beautiful model locomotive from scratch? Do you have a favourite locomotive that you would love to reproduce in model form? Are you itching to start such a project and feel you need a helping hand? If so, this is the book for you. Using step by step text and illustration, this new book demonstrates how to construct a model of a pleasing J15 class 0-6-0 steam locomotive in OO gauge. It also explains how models of other locomotives can be built by adapting the methods covered in the book. Alternative options for chassis construction, other gauges and scales are considered as well as how to build a simple diesel locomotive.

The Railway and Modernity Matthew Beaumont, Michael J. Freeman, 2007

Most research and writing on railway history has been undertaken in a way that disconnects it from the wider cultural milieu. Authors have been very effective at constructing specialist histories of transport but have failed to register the railway's central importance in the representation and understanding of modernity. This book brings together contributions from a range of established scholars.

in a variety of disciplines with the central purpose of exploring the railway less as a transport technology than as a key signifier of capitalist modernity It examines the complex social relations in which the railway became historically embedded identifying it as a central problematic in the cultural experience of modernity It avoids the limitations of both the close sighted empiricism typical of many transport historians and the long sighted generalizations of cultural commentators who view the railway merely as a shorthand for the concept of progress over the nineteenth and twentieth centuries The book draws on a diverse range of materials including literary and historical forms of representation It is also informed by a creative application of various critical theories
