Human Activities and the Tropical Rainforest Bernard K. Maloney, 2013-11-11 Arising initially from a conference the papers published here have been integrated into book form to provide information on human activities and the tropical rainforest in the past and present and on the possible future of the rainforest in a unique way Other books have considered some but not all of these themes however none has stressed the continuity of change over time and its possible outcome for the people of the forest as well as for the forest itself Because of the approach taken this book should appeal across traditional disciplinary boundaries Indeed a prime aim has been to suggest that rainforest because of its complexity and the complexity of people rainforest relationships throughout time deserves study from a broad perspective This book poses more questions than answers about the rainforest and it is hoped that it will encourage readers to think about the rainforest in a wider way than hitherto This book is aimed at geographers physical and human social anthropologists archaeologists pedologists foresters and tropical botanists and will be of value to graduates of various disciplines setting out to research the rainforest *Moon Central America* Avalon Travel, 2016-02-02 An ebook exclusive Moon Central America combines Moon s full length guides to seven Central American countries into one comprehensive digital guide Moon Central America includes the following country guides Moon Belize Moon Costa Rica Moon El Salvador Moon Guatemala Moon Honduras the Bay Islands Moon Nicaragua Moon Panama For each country you ll find trustworthy advice from Moon s experienced travel authors Professional photographer Al Argueta compiles the best places to take in Guatemala s awe inspiring volcanoes and adventure traveler Amy Robertson shares her list of Honduras s best places to get face to face with nature from caves to cloud forests If you re dreaming of a Central American trip of any length or mix of destinations Moon Central America is the travel companion for you [Alternative Medicine](#) , 1995

Biodiversity and the Law Charles R. Q'eqchi' Maya Reproductive Ethnomedicine Jillian De Gezelle, 2014-11-28 The Q'eqchi' Maya of Belize have an extensive pharmacopoeia of medicinal plants used traditionally for reproductive health and fertility utilizing more than 60 plant species for these health treatments Ten species were selected for investigation of their estrogenic activity using a reporter gene assay Nine of the species were estrogenic four of the species were also antiestrogenic and two of the extracts were cytotoxic to the MCF 7 breast cancer cell line Women's healing traditions are being lost in the Q'eqchi' communities of Belize at an accelerated rate due to a combination of factors including migration from Guatemala disrupting traditional lines of knowledge transmission perceived disapproval by biomedical authorities women's limited mobility due to domestic obligations and lack of confidence stemming from the devaluation of women's knowledge Q'eqchi' medicinal plant knowledge is highly gendered with women and men using different species in traditional health treatments Revitalizing women's healing practices is vital for maintaining the traditional knowledge needed to provide comprehensive healthcare for Belize's indigenous communities

Ethnobotany and the Search for New Drugs Derek J. Chadwick, Joan Marsh, 2008-04-30 A compilation of articles by prominent experts in their respective fields on compensation for and collaboration with indigenous people in regard to their knowledge and provision of rare plants which are used for some of the most potent drugs in Western medicine
