Harlem Lionel C. Bascom, 2016-12-12 Focusing on the contributions of civic reformers and political architects who arrived in New York in the early decades of the 20th century this book explores the wide array of sweeping social reforms and radical racial demands first conceived of and planned in Harlem that transformed African Americans into self aware U S citizens for the first time in history When the first slave escaped bondage in the American South and migrated to the Northeast region of the United States this act of an individual started what became known as the great migration of African

Americans fleeing the feudal South for New York and other Northern cities This migration fueled an intellectual social and personal pursuit the long standing quest for identity by a lost tribe of African Americans by every black man woman and child in America In Harlem that quest was anchored by a wide array of civic business and prominent leaders who succeeded in establishing what we now know as modern African American culture In Harlem The Crucible of Modern African American Culture author Lionel C Bascom examines the accuracy of the established image of Harlem during the Renaissance period roughly between 1917 and the 1960s as heaven for migrating African Americans He establishes how mingled among the former tenant farmers cotton pickers maids and farmhands were college educated intellectuals progressive ministers writers and lecturers who formed various organizations aimed at banishing images of Negroes as bumbling ignorant second class citizens The book also challenges unfounded claims that political and social movements during the Harlem Renaissance period failed and dramatizes numerous attempts by government authorities to silence black progressives who spearheaded movements that eventually ended segregation in the armed forces drafted plans that led to the first sweeping civil rights legislation and resulted in a U S Supreme Court ruling that finally made racial segregation in schools a federal crime

Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

A Raisin in the Sun Lorraine Hansberry, 1995-08-22 Never before the entire history of the American theater has so much of the truth of black people's lives been seen on the stage observed James Baldwin shortly before A Raisin in the Sun opened on Broadway in 1959 Indeed Lorraine Hansberry's award winning drama about the hopes and aspirations of a struggling working class family living on the South Side of Chicago connected profoundly with the psyche of black America and changed American theater forever The play's title comes from a line in Langston Hughes's poem Harlem which warns that a dream deferred might dry up like a raisin in the sun The events of every passing year add resonance to A Raisin in the Sun said The New York Times It is as if history is conspiring to make the play a classic This Modern Library edition presents the fully restored uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff *Theatre as Human Action*
Thomas S. Hischak, 2019-04-04 This book engages students particularly those who may not be very familiar with many plays

in the theatre experience by focusing on just four plays the tragedy Macbeth the landmark African American drama A Raisin in the Sun the American comedy classic You Can't Take It with You and the contemporary hip hop musical Hamilton

The Cambridge Guide to Women's Writing in English Lorna Sage, 1999-09-30 This Guide aims to consolidate and epitomise the re-reading of women's writing that has gone on in the last twenty-five years. This is an opportunity for stock-taking a timely project when so much writing has been rediscovered, reclaimed and republished. There are entries on writers, on individual texts and on general terms, genres and movements, all printed in a single alphabetical sequence. The earliest written documents in medieval English, the visionary writings of Julian of Norwich and Margery Kempe, are covered in an historical and geographical sweep that takes us up to the present day. The book reflects the spread of literacy, the history of colonisation and the development of post-colonial cultures, using and changing the English language. The entries are written by contributors from all the countries covered. The result is a work of reference with a unique feeling for the vitality, wealth and diversity of women's writing.
