Investigating Social Realism: with reference to *Sweet Sixteen* (2002) and *This Is England* (2006) Within the last few years British Cinema and Realism have been linked. "Realism began in the 1930's with documentary films, and a prime example of this is with the 'father of documentary' John Grierson, who founded the British documentary movement and created classic films such as *Drifters* (1929), *Industrial Britain* (1933), *Song of Ceylon* (1934) and *Night Mail* (1936). "In which British Cinema depicting the daily lifestyles of working class citizens. Social Realism presents a tenacious raw and grim image of lifestyles explored by the working class.

It is conventional for social realism to be filmed with natural lighting, as it help encode realism, with also de saturated colours as Social realism tends to deal with real life issues, as the mood of the media text typically tends to be negative. Over the years the genre has been seen to have a gloomy reputation, which has seen an increase in box office revenue. For example *Kidulthood* which depicted gang culture with the streets of London, The film was of a low budget (which is normally conventional for a social realist films) and was funded by the UK film council.

Social realist films tend to consist of the socio-economic group of an ABC1 audience and a psychographic group of aspirers from the age range of 30-60 with a secondary audience of students. Social realism can be seen to educate and inform users about grim issues faced upon society. The upper band of the socio economic group, the ABC1 group would tend to use the film for a sense of personal identity or surveillance (Blumer and Katz, 1974) whereas the lower end of socio economic group, C2, D and E audience would use social realism for diversion to gain a sense of escapism from the outside world.

Better than any other genre, social realism has shown us to ourselves, pushing the boundaries in the effort to put the experiences of real Britons on the screen, and shaping our ideas of what British cinema can be. " It is conventional for Social Realism films to have low production values, with a majority of films within the last few years funded by the now closed UK Film Council (UKFC). The UK film council was funded by through sources including the National Lottery. It distributed more than ? 160m of lottery money to over 900 films. Most of which was of the genre of Social Realism.

Established directors such as Ken Loach have created many successfully social realism films with low budgets. For example His most commercially successful recent film is 2009's *Looking for Eric* (Ken Loach, 2009) featuring a depressed postman's conversations with the ex-Manchester United football star, Eric Cantona (played by Cantona himself). A measure of Loach's difficulties gaining broad release for his work is the fact that this film ended up making only ? 12,000 profit. The film received critical acclaim and won the Magritte Award

Realism, an Essay in Interpretation and Social Reality David J. Levy, 1981 *Rethinking Social Realism* Stacy I. Morgan, 2004 The social realist movement with its focus on proletarian themes and its strong ties to New Deal programs and leftist politics has long been considered a depression era phenomenon that ended with the start of World War II This study explores how and why African American writers and visual artists sustained an engagement with the themes and aesthetics of social realism into the early cold war era far longer than a majority of their white counterparts Stacy I Morgan recalls the social realist atmosphere in which certain African American artists and writers were immersed and shows how black social realism served alternately to question the existing order instill race pride and build interracial working class coalitions Morgan discusses among others such figures as Charles White John Wilson Frank Marshall Davis Willard Motley Langston Hughes Sterling Brown Elizabeth Catlett and Hale Woodruff **Socialist Cultures East and West** Dubravka Juraga, M. Keith Booker, 2002-06-30 Decades of Western Cold War propaganda were designed to depict socialism as inimical to genuine aesthetic achievement Now in the wake of the Cold War it is becoming possible to reassess the past and present cultural productions of artists with socialist inclinations The essays in this volume begin such a reassessment finding that socialist cultural production in the 20th century both as the official culture of the socialist East and as an oppositional culture in the capitalist West has been rich and varied The volume focuses on socialist culture in the industrialized world primarily Eastern Europe and the West An introductory essay overviews socialist cultural productions of the 20th century while the chapters that follow address a wide range of topics These include Soviet socialist realist fiction and film musicals the socialist drama of Bertolt Brecht and British and American leftist fiction The volume demonstrates that propagandistic Cold War depictions of socialism as a threat to artistic expression were inaccurate and misleading **The Philosopher's Index** , 1992 Vols for 1969 include a section of abstracts Realism's Others Eva Aldea, Geoffrey Baker, 2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate *Realism's Others* examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively create difference and this creation of difference often occasions severe difficulties for the novels representational schema How does one represent different types of knowledge other aesthetic modes or other spaces for example in texts whose

epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic These essays all begin with a certain collision of nationalities of classes of representational matrices of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism This question motivates examination of key realist or social realist texts in some of these essays by Honoré de Balzac George Eliot Franz Grillparzer Theodor Storm Gottfried Keller Theodor Fontane Wilhelm Raabe María Amparo Ruiz de Burton Henry James William Dean Howells Charles Chesnutt Theodore Dreiser H T Tsiang Alan Sillitoe and Richard Yates However it is no less central a question in certain non realist texts which engage realist aims to a surprising degree often to debate them openly some of these essays discuss in this light fantastic magical realist and postmodern works by Abram Tertz Paul Auster Alejo Carpentier Toni Morrison Gabriel García Márquez Salman Rushdie and A S Byatt Realism becomes more than an aesthetic aim or narrative mode It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction's treatment of ethnicity nationality ideology space gender and social class

Realism and Christian Faith Andrew Moore, 2003-03-27 The question of realism that is whether God exists independently of human beings is central to much contemporary theology and church life. It is also an important topic in the philosophy of religion. This book discusses the relationship between realism and Christian faith in a thorough and systematic way and uses the resources of both philosophy and theology to argue for a Christocentric narrative realism. Many previous defences of realism have attempted to model Christian belief on scientific theory but Moore argues that this comparison is misleading and inadequate on both theological and philosophical grounds. In dialogue with speech act theory and critiques of realism by both non realists and Wittgensteinians a new account of the meaningfulness of Christian language is proposed. Moore uses this to develop a regulative conception of realism according to which God s independent reality is shown principally in Christ and then through Christian practices and the lives of Christians.

Eugene O'Neill's America John Patrick Diggins, 2008-09-15 In the face of seemingly relentless American optimism Eugene O'Neill's plays reveal an America many would like to ignore a place of seething resentments aching desires and family tragedy where failure and disappointment are the norm and the American dream a chimera Though derided by critics during his lifetime his works resonated with audiences won him the Nobel Prize and four Pulitzer and continue to grip theatergoers today Now noted

historian John Patrick Diggins offers a masterly biography that both traces O'Neill's tumultuous life and explains the forceful ideas that form the heart of his unflinching works. Diggins paints a richly detailed portrait of the playwright's life from his Irish roots and his early years at sea to his relationships with his troubled mother and brother. Here we see O'Neill as a young Greenwich Village radical, a ravenous autodidact who attempted to understand the disjunction between the sunny public face of American life and the rage that he knew was simmering beneath. According to Diggins, O'Neill mined this disjunction like no other American writer. His characters burn with longing for an idealized future composed of equal parts material success and individual freedom, but repeatedly they fall back to earth, pulled by the tendrils of family and the insatiability of desire. Drawing on thinkers from Emerson to Nietzsche, O'Neill viewed this endlessly frustrated desire as the problematic core of American democracy, simultaneously driving and undermining American ideals of progress, success, and individual freedom. Melding a penetrating assessment of O'Neill's works and thought with a sensitive re-creation of his life, Eugene O'Neill's America offers a striking new view of America's greatest playwright and a new picture of American democracy itself.

Balzac Michael Tilby, 2017-07-28 This canon of French literature, Honoré de Balzac (1799-1850), is also a major European figure in the development of realism. His work is dominated by an interrelated sequence of novels and short stories, *La Comédie Humaine*, which charts the idiosyncrasies of French society from the beginning of the nineteenth century to the 1840s. Among the most famous of these are *Le Père Goriot* and *La Cousine Bette*. In this study, Dr. Tilby concentrates on the main approaches in practice and discusses some of the earliest responses to Balzac's work. His introduction and headnotes set Balzac's work in context. This book will be of interest to students of French language and literature and also to those studying French in combined studies or humanities courses.

Ben Shahn, On Nonconformity Laura Katzman, 2025-04-22 A richly illustrated new exploration of the painting, photography, and illustration of the politically progressive American artist Ben Shahn. *On Nonconformity* offers a fresh and wide-ranging account of the work of Ben Shahn (1898-1969), a Jewish immigrant from Russian-controlled Lithuania who became one of America's most prominent and prolific social viewpoint artists from the Great Depression through the Vietnam War. Revealing why Shahn remains so relevant today, the book examines his commitment to progressive political causes, from combating fascism to fighting for civil rights. Incorporating international perspectives, it investigates his World War II poster art, labor-related work, and engagement in postwar artistic debates. It brings new insights to Shahn's social realist and documentary styles and their evolution into allegorical, lyrical, and often abstract idioms that embrace the philosophical and the spiritual. And it demonstrates the underappreciated complexity of Shahn's layered visual language and how he experimented with modernist conceptual strategies, often involving photography to create his paintings, murals, drawings, prints, posters, illustrated books, and commercial designs. Shahn's guiding credo, formulated in the Cold War, asserted that nonconformity was the precondition for all significant art and great social change. *Ben Shahn, On Nonconformity* illuminates why the artist's work should be seen as a series of nonconformities.
