acknowledged but made present through ritualized actions that require tangible participatory engagement Even if the virtual realm were acknowledged as real and retained both the bodily presence of the faithful and the Divine Presence the rite would still be ineffective Virtuality prevents the proper enactment of the rite rendering it ineffective At its core the ritual form is performative embodied and consecratory It requires physical presence material elements and a structured sequence of gestures symbols and words that together make the divine encounter possible Their absence in virtual spaces disrupts ritual form compromising its sacramental function

Film, Philosophy, and Reality Nathan Andersen, 2018-12-21 Film

Philosophy and Reality Ancient Greece to Godard is an original contribution to film philosophy that shows how thinking about movies can lead us into a richer appreciation and understanding of both reality and the nature of human experience Focused on the question of the relationship between how things seem to us and how they really are it is at once an introduction to philosophy through film and an introduction to film through philosophy The book is divided into three parts The first is an introduction to philosophy and film designed for the reader with little background in one or the other subject The second examines the philosophical importance of the distinction between appearance and reality and shows that reflection upon this distinction is naturally provoked by the experience of watching movies The final part takes a close and careful look at the style and techniques of Jean Luc Godard s groundbreaking film Breathless in order to illustrate how such themes can be explored cinematically The book addresses topics such as Film what it is and how to understand it The methods and concerns of philosophy The nature of cinematic appearances The history of metaphysics The relationship between cinema and life The philosophical relevance of film techniques With a glossary of key thinkers terms and concepts as well as sections on suggested films and further reading this textbook will appeal to lecturers and students in undergraduate philosophy and film courses and in courses focused on Philosophy of Film Philosophy and Film or Film Philosophy

Reality and Negation -

Kant's Principle of Anticipations of Perception Marco Giovanelli, 2010-11-18 Kant in the Critique of pure reason only dedicates a few pages to the principle of Anticipations of Perception and only a few critical studies are outspokenly dedicated to this issue in recent critical literature But if one considers the history of post Kantian philosophy one can immediately perceive the great importance of the new definition of the relationship between reality and negation which Kant s principle proposes Critical philosophy is here radically opposed to the pre critical metaphysical tradition Reality no longer appears as absolutely positive being which excludes all negativity from itself and negation is not reduced to being a simple removal the mere absence of being Instead reality and negation behave as an equally positive something in respect to one another such that negation is itself a reality that is actively opposed to another reality Such a definition of the relation between reality and negation became indispensable for post Kantian Philosophy and represents a central aspect of Kantian inspired philosophy in respect to Leibnizian metaphysics The present work therefore departs from the hypothesis that the essential philosophical importance of the Anticipations of Perception can only be fully measured by exploring its impact in the Post Kantian debate

Satan and the Problem of Evil Gregory A. Boyd, 2025-08-04 Where does evil come from If there is a sovereign creator God as Christian faith holds is this God ultimately responsible for evil Does God s sovereignty mean that God causes each instance of sin and suffering How do Satan his demons and hell fit into God s providential oversight of all creation and history How does God interact with human intention and action If people act freely does God know in particular every human decision before the choice is made In this important book Gregory A Boyd mounts a thorough response to these ages old questions which remain both crucial and contentious both practical and complex In this work Boyd defends his scripturally grounded trinitarian warfare theodicy presented in God at War with rigorous philosophical reflection and insights from human experience and scientific discovery Critiquing the classical Calvinist solution to the problem of evil he advocates an alternative understanding of the sovereignty of the trinitarian God and of the reality of Satan that sheds light on our fallen human condition While all may not agree with Boyd s conclusions Satan and the Problem of Evil promises to advance the church s discussion of these critical issues

Kant & Phenomenology Tom Rockmore, 2011-01-22 Phenomenology together with Marxism pragmatism and analytic philosophy dominated philosophy in the twentieth century and Edmund Husserl is usually thought to have been the first to develop the concept His views influenced a variety of important later thinkers such as Heidegger and Merleau Ponty who eventually turned phenomenology away from questions of knowledge But here Tom Rockmore argues for a return to phenomenology s origins in epistemology and he does so by locating its roots in the work of Immanuel Kant Kant and Phenomenology traces the formulation of Kant s phenomenological approach back to the second edition of Kant s Critique of Pure Reason In response to various criticisms of the first edition Kant more forcefully put forth a constructivist theory of knowledge This shift in Kant s thinking challenged the representational approach to epistemology and it is this turn Rockmore contends that makes Kant the first great phenomenologist He then follows this phenomenological line through the work of Kant s idealist successors Fichte and Hegel Steeped in the sources and literature it examines Kant and Phenomenology persuasively reshapes our conception of both of its main subjects

Ziegler, 2016-09-22 How ought Christian faith and theology understand the concept of human immortality today And what if anything might be distinctively Christian about such a concept The contributors to this volume explore how our thinking about the prospect of human immortality is decisively determined by what we receive of the limitless life of the triune God of the gospel and how our understanding of immortality is made concrete by the Christian hope in the resurrection of the body and the life everlasting Debates about how best to understand the eternal life of God are directly significant to how we can imagine the promise of eternal life While immortality is generally conceived to be a future qualification of human reality theological approaches to the question of personal immortality must investigate the difference that the hope and promise of such eternal life makes in the living of present day spiritual life as well as in our common moral and political existence To understand immortality as an eschatological gift of God requires that we take account of it as a formative factor at the foundations of the Christian life

Inside Reality Dr. Thomas Stark, There are those such as scientists who see only the outside of reality its appearance its surface its phenomenal aspect They are blind to the inside the substance the foundation the noumenal aspect They dismiss it as non existent or illusion or epiphenomenon Scientists are those that believe that phenomena have no underlying noumena What you see is what you get Seeing is believing Everything is appearance Nothing is concealed There are no hidden variables and no unobservables The scientific method says Observe That works only if everything is observable If there are foundational unobservables science is catastrophically wrong and has cut itself off from the truth The only truth it can furnish is that of surfaces and appearances with no substance Those who

truly want to understand reality must become masters of both perspectives inside and outside noumenon and phenomenon and see how they relate communicate and interact
