Lewis and the Meaning of Life** Alister McGrath,2019-05-16 In this pithy entertaining guide to what really matters Alister McGrath brings together Richard Dawkins and C S Lewis two intriguing and well known writers in conversation The two men could hardly have more different perspectives these arguments provide an excellent means of sharpening our own thinking on the meaning of life **The Question of Life's Meaning** Aribiah David Attoe,2023-10-05 In answering the question of life s meaning the African perspective is only just beginning to emerge While this is true a critical examination of African theories of meaningfulness the possibility of life s meaninglessness as well as ideas about the proper mode mood for living with the meaninglessness of life are largely underexplored within the African philosophical tradition This book provides several plausible accounts of meaning in of life from an African perspective examines the relationship between death and life s meaningfulness and explores the possibility of life s meaninglessness proposing the philosophy of indifference as the proper mode mood for living with the meaninglessness of life **The Oxford**

Discusses a very wide array of topics in meaning in life research, some of which have never been discussed in the philosophical literature until this point. Explores among numerous other topics: meaning in life, achievement, forgiveness, gratitude, death, suicide, suffering, religion, psychology, and neuroscience. Book jacket [Manifestations of Reason: Life, Historicity, Culture](#) Reason, Life, Culture Part II Anna-Teresa Tymieniecka, 2012-12-06 Can there be a more flagrant challenge to the recent and classic relativisms, scepticisms, and deconstructivisms toward reason, rationality, logos than the Vision of the Manifestation of Life? As Tymieniecka writes in the introduction to this second book on the constructive appreciation of reason, first book *Analecta Husserliana* Vol XXXIX, the works of the logos manifest themselves indubitably in the edifice of life. Among perspectives in the compass of reason of this collection: individualisation of life, human existence, reason and doxa, studies by Tymieniecka, Kelkel Schrag, Buscaroli, Kelly Laycock, and others; the emphasis falls upon inner rationalities of the spirit, creativity, culture. Bosio, D. Ippolito, Delle Site, Barral, Wittkowski, Regina Haney, Ales Bello, Sivak. Elosequi culminating in the issues of historiography and history by Mario Sancipriano, to whom the book is dedicated. This collection stems from the work of The World Phenomenology Institute, mainly its two congresses held in Dubrovnik, Yugoslavia and Verona, Italy.

Meaning in Life Thaddeus Metz, 2013-11-07 What makes a person's life meaningful? Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda. He proceeds by examining what, if anything, all the conditions that make a life meaningful have in common. The outcome of this process is a philosophical theory of meaning in life. He starts by evaluating existing theories in terms of the classic triad of the good, the true, and the beautiful. He considers whether meaning in life might be about such principles as fulfilling God's purpose, obtaining reward in an afterlife for having been virtuous, being attracted to what merits attraction, leaving the world a better place, connecting to organic unity, or transcending oneself by connecting to what is extensive. He argues that no extant principle satisfactorily accounts for the three-fold significance of morality, enquiry, and creativity, and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence.

Wittgenstein and Meaning in Life R. Hosseini, 2015-04-20 What could Wittgenstein's work contribute to the rapidly growing literature on life's meaning? This book not only examines Wittgenstein's scattered remarks about value and sense of life but also argues that his philosophy and way of seeing has far-reaching implications for the ways theorists approach an ancient question: How shall one live?
