Medical Astrology-A

Rational Approach J.N. Bhasin,1970 It has been endeavoured to introduce a few specialties in this book Firstly to discuss for the benefit of the student of astrology a maximum number of diseases under astrological laws Secondly to supply in support of that discussion as many illustrations from actual life as is possible with a view to make the subject readily understandable Thirdly we have tried to place the astrological material in a rational logical manner so that the question of health and disease can be tackled in an independent way without being too much subservient to the shlokas of the text We do meet with shlokas dealing with most of the diseases but there are very few books if at all which discuss the how and why of disease We have attempted to discuss the constituents of diseases and the astrological factors representing them severely in order that the student can extend the application of the method to new diseases

careful and open minded testing as well as science s creative and reflective ways of thinking provides key tools What clear science inspired thinking helps us to understand among many other things is that a person can be good and can be motivated to carry out morally good actions without ever bowing to or being limited by supposedly divine forces To Light the Flame of Reason will appeal to adults who are trying to figure out how to deal with the ever increasing daily bombardment of conflicting messages about what is right true sensible or good and it should appeal even more to teenagers and university students who are struggling to find a believable and reliable philosophy of life that can help guide them in their choices of what and whom to trust and how to act both on the personal and the social level Today more people have greater access to information and knowledge than ever was dreamt of before and more people are concerned about the world situation More people have the chance through their own actions to make a difference Each one of us as an individual matters It is thus vitally important that each of us should choose in a conscious and reflective manner our own views of reality of the world and of humanity And this means that it is crucial for us all to train ourselves in the art of thinking clearly Christer Sturmark along with Pulitzer Prize winning author Douglas Hofstadter argue that we must refocus our efforts on cultivating a secular society and in doing so we will rediscover the values and ethics that are so foreign in today s society Medical Astrology Heinrich Daath,2013-03 This is one of the most sophisticated medical astrology books ever written Many of the finer points are dealt with You know the head is ruled by Aries but did you know the nasal bones are co ruled by Scorpio There are references to Vedic principles A helpful diagram explains the subtle division of the urinary tract between Libra and Scorpio Rulerships are given not only for areas of the body and its organs but also for bones muscles arteries and veins Terminology in the book is modern Gemini s rulership of muscles includes the deltoid biceps supinator radii subclavians triceps serratus anticus minor pectoralis palmaris etc Many chapters are unique such as Chapter 5 on crystallization and Chapter 6 on tonicity atonicity and perversion This chapter also tells how pairs of planets mirror each other Sun Moon Mars Saturn Jupiter Venus Uranus Neptune with Mercury as a receiver Chapter 11 concerns many different kinds of planetary strengths among them aspect strength mundane strength natural strength the planet in its natal sign and directional strength Chapter 13 gives astrological indicators for some specific diseases a foretaste of what Charles Carter would expand upon in his famous Encyclopaedia of Psychological Astrology This book was originally published as Alan Leo s Astrological Manual No 9 in 1908 This is the second edition of 1914 There are references in this book to other books in the Alan Leo series dealing with chart construction This book is highly recommended by H L Cornell in his Encyclopaedia of Medical Astrology Heinrich Daath s Medical Astrology is part of a comprehensive series of classic astro medical texts published by Astrology Classics Other books in the series include Joseph Blagrave Astrological Practice of Physick 1671 C E O Carter An Encyclopaedia of Psychological Astrology 1954 H L Cornell Encyclopaedia of Medical Astrology 1933 Nicholas Culpeper Astrological Judgement of Diseases from the Decumbiture of the Sick 1655 and Urinalia 1658 Richard Saunders The Astrological Judgement and Practice of Physick 1677
