Reassessing Civil Rights:

The Federal Civil Rights Enforcement Effort--a Reassessment United States Commission on Civil Rights,1973

Reassessing Legal Humanism and its Claims Paul J du Plessis,2015-12-31 This book is a fundamental reassessment of the nature and impact of legal humanism on the development of law in Europe It brings together the foremost international experts in related fields such as legal and intellectual history to debate central issues **Superfund**

Reassessment and Reauthorization United States. Congress. Senate. Committee on Environment and Public Works. Subcommittee on Superfund, Waste Control, and Risk Assessment,1995 **Asian Security Reassessed** Stephen

Hoadley,Jurgen Ruland,2006 This book traces changes in the concept of security in Asia from realist to cooperative comprehensive and human security approaches and assesses a number of policy alternatives to management of both old and new security threats It surveys not only orthodox security threats such as tensions between regional powers or armed ethnic antagonists but also new sources of anxiety such as resource scarcity economic instability irregular migration community fragmentation and international terrorism Security policies of major powers such as China Japan and the United States and the moderating roles of regional organizations such as ASEAN ARF SCO and KEDO are evaluated in historical and contemporary perspectives Contributors proffer policy relevant insights where appropriate The book concludes that traditional security approaches remain valid but need to be adapted to the new challenges and offers suggestions for incorporating fresh Asian security perceptions into the agendas of policy makers analysts and scholars Charles H.

Thompson on Desegregation, Democracy, and Education Louis Ray,2020-07-22 The goals of achieving equal citizenship rights for African Americans and international respect for human rights inspired Charles H Thompson to focus his attention on ending segregation as public policy in the United States As editor of The Journal of Negro Education from 1932 to 1963 Thompson tirelessly championed equal educational and economic opportunities for African Americans and other targets of discrimination Charles H Thompson on Desegregation Democracy and Education captures the evolving struggle for civil rights from the perspective of an education insider brilliant scholar activist and arguably the leading dean in African American higher education between 1938 and 1963 This study focuses on Thompson s efforts between 1953 and 1963 to mobilize his readers including African American teachers to support the civil rights movement including voter registration drives boycotts the sit ins as well as the NAACP litigation campaign He encouraged them to support principled African American leaders such as Dr Martin Luther King Jr and their campaigns for social justice Thompson remained confident that they and their allies would prevail so long as they adhered to the ethical principles that informed their movement and applied political and economic pressure intelligently The desegregation of public education and the strengthening of African American higher education for Thompson served as wedges for extending democracy in the US **Thinkers of the Twenty Years' Crisis : Inter-War Idealism Reassessed** David Long,Peter Wilson,1995-12-14 This book reassesses the contribution

to international thought of some of the most important thinkers of the inter war period It takes as its starting point E H Carr's famous critique which more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing This characterization of inter war thought is scrutinized through ten detailed studies of such writers as Norman Angell J A Hobson J M Keynes David Mitrany and Alfred Zimmermann The studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion It is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis

Pursuing Equal Opportunities Lesley A. Jacobs, 2004 This book offers original and innovative contributions to the debate about equality of opportunity The first part sets out a theory of equality of opportunity that presents equal opportunities as a normative device for the regulation of competition for scarce resources The second part shifts the focus to the consideration of the practical application by courts or legislatures or public policy makers of policies for addressing racial class or gender injustices The author examines standardized tests affirmative action workfare universal health care comparable worth and the economic consequences of divorce

For Discrimination Randall Kennedy, 2015-06-09 The definitive reckoning with Affirmative Action one of America's most explosively contentious and divisive issues from one of our most important and perceptive writers on race and the law The Washington Post A clear eyed take on America's battle over affirmative action and diversity Kennedy goes straight at the issue with fearlessness and a certain cheekiness Los Angeles Times Compelling Powerful Wall Street Journal What precisely is affirmative action and why is it fiercely championed by some and just as fiercely denounced by others Does it signify a boon or a stigma Or is it simply reverse discrimination What are its benefits and costs to American society What are the exact indicia determining who should or should not be accorded affirmative action When should affirmative action end if it must Randall Kennedy gives us a concise and deeply personal overview of the policy refusing to shy away from the myriad complexities of an issue that continues to bedevil American race relations

Public Education Myron Lieberman, 1993 In this blistering critique of our failing public schools Lieberman explains why public education is in irreversible and terminal decline and tells what we must do to get American schooling back on track A refreshingly clear analysis of our educational crisis and a rallying cry for market system approaches to school reform
