This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia. As such, it provides a unique insight into their thinking and motivations which need to be understood if the conflict is to be resolved. Those making and remaking the conflict are placed in the centre of the story, which uses the words of the combatants themselves. It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine, Russia, and different parts of the world stood at the rebellion's heart. The book focuses on the participants' own voices and personalities, drawing extensively on first-hand research and interviews. Rather than rendering Ukraine a chess piece on the geopolitical board, the rebellion shows that ordinary people rather than elites can act as a decisive force. Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high. It stands as an important text on the study of modern insurgencies, revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors. This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle. The insurgency has produced a conflict sub-culture rich with symbolism, narrative, and communications made possible by the digital age and a social media savvy population. These beliefs and ideas have had the power to pull people from different parts of the world. This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas. It analyses the logic of armed struggle and the tactics deployed by warring parties. It also sheds light on the developments in Moscow, discusses the phenomenon of the Russian Spring movement, and concludes with the prospects for a peaceful solution. *Toppling Qaddafi* Christopher S. Chivvis, 2014. A highly readable look at the role of the US and NATO in Libya's war of liberation and its lessons for future military interventions. *Zones of Rebellion* Aysegul Aydin, Cem Emrence, 2015-04-23. How do insurgents and governments select their targets? Which discourses and policies do they adopt to win civilian loyalties and control territory? This book examines the wide variety of coercive strategies adopted by both insurgents and governments in the long-running Kurdish insurgency in Turkey. *McClellan's Military Career Reviewed and Exposed* William Swinton, 1864. **The Army of the Potomac, and Its Mismanagement** Charles Ellet, 1862. **Africa** Army Library (U.S.), 1973. **Slavery and Civil War: An address to the Presbyterian Church, enforcing the duty of excluding all slaveholders from the Communion of Saints**, 1833. **Red Guard Factionalism And The Cultural Revolution In Guangzhou (canton)** Stanley Rosen, 2019-06-04. When the Chinese Great Proletarian Cultural Revolution (GPCR) of the middle and late 1960s burst

forth the initial response both in China and the West seemed primarily to be one of mystification. The spectacle of severe splits among leaders long thought to be compatible of armed struggles between factional units whose uniform pledges to Chairman Mao and the Party Center appeared to make their similarities greater than their differences and of destructive Red Guards who were bent on tearing down the old world to build a new one was at first difficult to explain.
