Rebuilding A Nation Philippine Challenges And American Policy:

Rebuilding a Nation Carl H. Lande, 1999-12-14 States, Ideologies, and Social Revolutions Misagh Parsa, 2000-08-17

Between 1979 and 1986 Iran Nicaragua and the Philippines underwent dramatic political and social revolutions This book examines the conditions and processes that gave rise to revolutions and their outcomes through an in depth analysis of economic and political developments in these countries The book studies the background to revolution provided by state formation and development economic intervention the states vulnerabilities and the social consequences of their development policies Extensive primary data is used to analyze the impact of the collective actions and ideologies of the major social groups involved students clergy workers and capitalists and how they affected the potential for a successful revolutionary outcome Parsa challenges prevailing theories of social revolution and develops an alternative model that incorporates variables from a wide variety of perspectives His book provides a valuable framework within which to understand the causes of revolutions their mechanics and development and their outcomes *Democratic Transition and Human Rights* Sara Steinmetz, 1994-05-24 This book analyzes U S foreign policy in relation to human rights and democratic development abroad Its purpose is to determine if and how human rights policies or their neglect have led to Realpolitik successes for the United States In addition it addresses the issue of how Washington might best respond to challenges in which a choice apparently must be made between support for democracy and preservation of U S national interests Through a comparative analysis of Iran under the Shah Nicaragua under the Somozas and the Philippines under Marcos Steinmetz evaluates the effectiveness of American priorities in authoritarian states that were perceived to protect U S interests Rejecting the policy prescriptions of the neoconservative and neorealist schools she concludes that protection of human rights abroad is desirable not because of its moral implications per se but because of its positive contributions to the preservation of U S national interests **The International Law of Responsibility for Economic Crimes** Ndiva Kofele-Kale, 2016-03-03 Focusing on the problem of indigenous spoliation in developing countries this work explores the controversial issue of spoliation by national officials of the wealth of the states of which they are custodians Due to constraints of the state system and the lack of appropriate substantive municipal law efforts to punish those responsible for the economic rape of entire nations and to recover spoliated funds have been frustrated and rendered insubstantial Taking a multidisciplinary approach and on the basis of data generated from empirical cross national research this study makes the case for indigenous spoliation as a violation of international law Substantially revised and updated to take account of recent legal and political developments the second edition will be a valuable resource for academics practitioners NGOs and policymakers *Driven by Growth* James William Morley, 2015-04-08 A thoroughly revised and updated edition of the highly regarded 1993 book *Driven by Growth* this work presents the political economic evolution of the Asia Pacific countries with overviews of the impact of economic development on political change This new edition now includes chapters on Burma and

Vietnam New authors have been added and all the original chapters have been revised

Agrarian Reform in the Philippines Jeffrey M. Riedinger, 1995 This book evaluates the capacity of new democratic regimes to promote redistributive agrarian reform an issue of contemporary concern in countries throughout the world Agrarian reform is particularly complex and difficult for new democracies because it curtails the power and privileges of influential elements of society The author analyzes the problems attendant on political liberalization and social and economic reform by examining in detail the formulation and implementation of agrarian reform in the Philippines under the governments of Corazon Aquino and her successor Fidel Ramos The book explores how the interaction between state and society shapes reform policy decisions paying close attention to the role of cultural variables and social organizations It shows that what is needed for successful agrarian reform is a combination of sustained forceful leadership from a disciplined reform oriented political party and grassroots agitation by peasant organizations

The Philippines David Joel Steinberg, 2018-02-19 A unified nation with a single people the Philippines is also a highly fragmented plural society Divided between uplander and lowlander rich and poor Christian and Muslim between those of one ethnic linguistic and geographic region and those of another the nation is a complex mosaic formed by conflicting forces of consensus and national identity and of division and instability It is not possible to comprehend the many changes in the Philippines such as the rise and fall of Ferdinand Marcos or the revolution that toppled him without an awareness of the religious cultural and economic forces that have shaped the history of these islands These forces formed the focus of the first edition of *The Philippines* Of that 1982 edition the late Benigno Aquino Jr noted that anyone wanting to understand the Philippines and the Filipinos today must include this book in his must reading list The fourth edition has been updated through the final years of the Ramos presidency and contains a new section on the impact of President Estrada

The Blue-Eyed Enemy Theodore Friend, 2014-07-14 *The Blue Eyed Enemy* is a comprehensive account of the interwoven histories of the three major archipelago nations of the West Pacific during the years of the Second World War Theodore Friend examines Japanese colonialism in Indonesia and the Philippines as an example of recurring patterns of domination and repression in that region He depicts Japanese rule in Greater East Asia as expressive of the folly of the general who exhorted his troops to annihilate the blue eyed enemy and their black slaves At the same time he clearly shows where the return of Western power aimed at new links between conqueror and conquered or lords and bondsmen Throughout the work one encounters an infectious sympathy for those afflicted by imperialism and racism from whatever source at whatever time The book is based on documentary research in Japan Indonesia and the Philippines as well as in the United States and the Netherlands and on over one hundred interviews with major actors and key observers of the era The analysis balances an eclectic use of social science perspectives with a humanistic concreteness and leads to new understanding of leaders like Sukarno and Hatta Jose P Laurel and Benigno Aquino Sr and Generals Yamashita and MacArthur As comparative tropical history it elucidates the contrasting cultural traditions and political psychologies of

Indonesia and the Philippines and explains why 1945 was a year of dramatic contrast reoccupation and revolution for the first country and liberation and restoration for the latter Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Friendly Tyrants Adam Garfinkle, Daniel Pipes, 1991-10-31 What do the South Vietnamese government the Shah and Ferdinand Marcos have in common All were allied to the United States all defied democratic and liberal norms and all three fell in a blaze creating problems for the United States These three cases and another eighteen more are the subject of Friendly Tyrants the first study ever to survey the contentious persistent problem of U S government relations with pro American authoritarian rulers

The Economy of the Philippines Peter Krinks, 2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier This book critically analyses the Filipino economy and attempts to explain the problems that it has faced as well as the solutions that need to be put into practice This accessible and comprehensive book will be of great use to students academics and business professionals with an interest in the economies of Asia

Rebuilding a Nation Carl H. Landé, 1987

Japan and International Law, Past, Present and Future Nisuke Ando, 2023-12-11 This book is a record of the international symposium held at the Kyoto International Conference Hall to mark the centennial of the Japanese Association of International Law The purpose of the symposium was to reflect on past Japanese practice to analyze current problems affecting Japan and to seek to clarify the future role of Japan in the global community in terms of international law After joining the international community in the middle of the nineteenth century Japan adopted a policy of wealth creation and armament in order to maintain its independence against the expanding Western States At the same time on the domestic scene Japan vigorously promoted the modernization Westernization of its political economic and social institutions Japan emerged as one of the victorious Principal Allied and Associated Powers in World War I and started asserting its place in the international order However in the aftermath of the Great Depression Japan failed to reach agreement with the international community eventually left the League of Nations invaded the Asian continent and met with complete military defeat in World War II In the subsequent years Japan toiled to rebuild its economy and to rejoin the world community but despite its miraculous economic recovery and expansion Japan remains ambivalent in its policy of contributing to the maintenance of international peace and security During these one and a half centuries the Japanese practice of international law has covered a wide range of fields From these various fields the

symposium took up three specific topics War and Peace Economy and Human Rights because of their relevance to past Japanese practice and because future Japanese practice in these areas would be bound to affect international law in the coming century In addition the symposium discussed Japanese transactions in general with international law The period covered by the symposium has witnessed many drastic changes in the world and international law which used to be applied almost exclusively to relations among the Western States has now come to be applied universally The Association wished to emphasize that an analysis of Japanese practice should be of significance for anyone interested in promoting and consolidating the rule of law in the world community at large

Post-Marcos Politics Carl Herman Landé,1996 This study first provides an in depth geographical and demographic analysis of the 1992 Philippine presidential election It is followed by a survey of the development of Philippine party politics before and since the end of the Marcos dictatorship and how the 1992 election fits into the long term evolution of the party system Several scenarios for a future party system are discussed and include the probable effects of proposed changes in the form of government

The Philippines James A. Tyner,2010-12-22 Nearly five million migrant workers from the Philippines are employed in over 190 countries and territories They work as doctors and domestic helpers engineers and entertainers seamstresses and surveyors It is through their collective labor that the Philippines has assumed a global presence For over five centuries the Philippines has been integrated into the world economy Only recently however has the Philippines been a pro active agent in the production of a global economy Since the 1970s the Philippine state in connection with myriad private institutions has recruited trained marketed and deployed a mobile work force Annually approximately one million migrant workers travel to all corners of the world The Philippines seeks to understand how the Philippines has become the world s largest exporter of government sponsored temporary contract labor and in the process has dramatically reshaped both the processes of globalization and also our understanding of globalization as concept

The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries Nicholas Tarling,1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it Further India Little China the Nanyang The region has had a protracted maritime history Confucianism Buddhism Islam Hinduism Christianity are all represented It has seen a quintet of colonial powers Britain France The Netherlands Spain the United States Most recently it has become one of the fastest growing parts of the world economy The very term Southeast Asia is clearly more than a geographical expression The Cambridge History of Southeast Asia is a multi authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia Unlike other histories of the region it is not divided on a country by country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia s history This volume the second and final in the series takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post World War II period It covers the

economic and social life as well as the religious and popular culture of the region as they develop over two centuries The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history

The Cambridge History of Southeast Asia: Volume 2, Part 2, From World War II to the Present Nicholas Tarling, 2000-01-28 In these four volumes published in paperback in 2000 twenty two scholars of international reputation consider the whole of mainland and island Southeast Asia from Burma to Indonesia Each volume has a new preface which points to the relationships with the other volumes The prefaces also comment on some of the research into and thinking about the subject undertaken since the original contributions were completed for the first edition Volume 2 Part 2 covers the period from World War II to the present and examines the end of European colonial empires the emergence of political structures of the independent states economic and social change religious change in contemporary Southeast Asia Southeast Asia s role and identity in decolonisation and the ongoing weakening of links with the West

Democracy And Development In Southeast Asia Clark Neher, Ross Marlay, 2018-02-12 Exploring the remarkable political and economic changes sweeping Southeast Asia the authors take as their starting point the trend albeit uneven toward democratization They focus specifically on Asian democracy a form that has been adapted by Southeast Asians to suit their own particular needs This book begins by building a framework for understanding democracy in its broadest sense The authors investigate the uniquely Asian style of democracy which borrows democratic political institutions and meshes them with the cultural patterns specific to each country In separate chapters the authors trace the evolutionary historical processes within each country as well as citizen participation electoral practices and civil liberties The chapters end with an assessment of the prospects for democracy in that nation as well as an evaluation of whether democratic regimes are necessary for developing successful economies and societies in the new international era

The Politics of Tourism in Asia Linda K.

Richter, 2019-03-31 Tourism the world s largest industry has created a variety of complex political problems particularly in those countries where the primary attraction of tourism is its potential for accelerating development The political dimensions that have encouraged tourism in the People s Republic of China the Philippines Thailand India Pakistan Bangladesh Sri Lanka the Maldives Nepal and Bhutan are examined in Linda K Richter s study which is based on more than 250 interviews with government officials travel industry representatives and media officials Richter concentrates on the reasons for using tourism to advance government policy objectives and on the many ways political and economic problems can frustrate tourism s contribution to national development All too often after the expensive infrastructure is developed luxury goods imported and

lavish promotional efforts expended nations are left disillusioned with the economic promise of tourism Disappointing results are often complicated by a preoccupation with the lure of tourism and an underestimation of the industry s needs and of the political pressures of and on government officials Encouraging an awareness of the political aspects of tourism the author advocates greater involvement by social and political scientists in monitoring tourism policy as well as a restructuring and redesigning of programs in this largest sector of international trade *Corruption, Capitalism and Democracy* John Girling,2002-03-11 Corruption arises from the collusion of economic and political elites a practice that has developed in order to overcome the contradiction of two important processes of our time capitalism and democracy In this new study of the phenomenon the author shows how corruption is the practice of collusion taken to excess the unacceptable face of capitalism Corruption by going too far exposes what is normally hidden from view the collusive system of elites furthering the expansion of capitalist practice and market practice at the expense of democratic practice and public values Collective Defense Or Strategic Independence? Ted Galen Carpenter,1989
