Dever, 2011-10-01 Archaeology and Bible two simple terms often used together understood by everybody But are they understood properly If so why are both subject to such controversy And what can archaeology contribute to our understanding of the Bible These are the problems addressed by Professor Dever in this book Dever first looks at the nature and recent development of both archaeology and Biblical studies and then lays the groundwork for a new a productive relationship between these two disciplines His case studies are three eras in Israelite history the period of settlement in Canaan the period of the United Monarchy and the period of religious development chiefly during the Divided Monarchy In each case Dever explores by means of recent discoveries what archaeology couples with textual study can contribute to the illumination of the life and times of ancient Israel Given the flood of new information that has come from recent archaeological discoveries Dever has chosen to draw evidence largely from excavations and surveys done in Israel in the last ten years many still unpublished concerning archaeology and the Old Testament Dever s work not only brings the reader up to date on recent archaeological discoveries as they pertain to the Hebrew Bible but indeed goes further in offering an original interpretation of the relationship between the study of the Bible and the uncovering of the material culture of the ancient Near East Extensive notes plus the use of much new and or unpublished data will make the volume useful to graduate students and professors in the fields of Biblical studies and Syro Palestinian archaeology and the seminarians pastors rabbis and others This book provides stimulating provocative and often controversial reading as well as a compendium of valuable insights and marginalia that symbolizes the state of the art of Biblical archaeology today Some Notes on Recent Archaeological Discoveries at Broadstairs Howard Hurd, 1913

Camden McCormack Cobern, 1917 **New Frontiers in the Neolithic Archaeology of Taiwan (5600-1800 BP)** Su-chiu

Kuo, 2019-12-05 This book summarizes the systematic research on the Neolithic cultures of Taiwan based on the latest archaeological discoveries and focusing on the maritime interactions between mainland southeast China, Taiwan, and southeast Asia during 5600-1800 BP. The study demonstrates and sheds light on the distinctiveness of Taiwan's Neolithic cultures, their interactions with the external cultures of its surrounding regions, the maritime cultural diffusion, and early seafaring across sea regions like the Taiwan Strait, Bashi channel, and South China Sea. Drawing on the author's deep understanding of Taiwan and its surrounding regions, the book also incorporates recent archaeological findings by Taiwanese researchers. Further based on a new reconstruction of the spatiotemporal framework of Taiwanese prehistoric cultures, the chronologically arranged chapters discuss Neolithic cultures of the early, middle, late, and final stage of this island region, revealing the prehistoric cultural development, regional typology, and their maritime interactions with surrounding regions. The typological study of the native traits and external cultural influences of each stage of Neolithic culture shows the prehistoric and early history of this key stepping stone in the Asia-Pacific region. *Ancient Echoes: A Journey Through*
