Reflections On Political Theory A Voice Of Reason From The Past:

Reflections on Political Theory N. Wood, 2001-12-18 In this thought provoking study Neal Wood challenges the conception of political theory as a lofty discipline remote from the world of real politics Drawing on the examples of thinkers from Plato to those of the nineteenth century he attempts to define political theory by examining the nature of the state and politics by identifying the major characteristics that their theories share and by analyzing the conditions that have favoured their creation Wood critically explores the two principle approaches to studying the work of past theorists the philosophical and historical and evaluates the relevance of Marxism The various theories are not treated as blueprints but collectively as a voice of reason from the past which can inspire and guide present and future theorizing **IBSS: Political Science: 2002 Vol.51** Compiled by the British Library of Political and Economic Science, 2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00 Research Handbook on the History of Political Thought Cary J. Welfare for Markets Anton Jäger,2024-05-31 A sweeping intellectual history of the welfare state s policy in waiting The idea of a government paying its citizens to keep them out of poverty now known as basic income is hardly new Often dated as far back as ancient Rome basic income s modern conception truly emerged in the late nineteenth century Yet as one of today s most controversial proposals it draws supporters from across the political spectrum In this eye opening work Anton J ger and Daniel Zamora Vargas trace basic income from its rise in American and British policy debates following periods of economic tumult to its modern relationship with technopopulist figures in Silicon Valley They chronicle how the idea first arose in the United States and Europe as a market friendly alternative to the postwar welfare state and how interest in the policy has grown in the wake of the 2008 credit crisis and COVID 19 crash An incisive comprehensive history Welfare for Markets tells the story of how a fringe idea conceived in economics seminars went global revealing the most significant shift in political culture since the end of the Cold War

History of Political Thought ,2004 **Bibliographie Internationale de Science Politique** ,2002 **The British National Bibliography** Arthur James Wells,2002 **History and Revolution** Michael Haynes,Jim Wolfreys,2007 In History and Revolution a group of respected historians confronts the conservative revisionist trends in historical enquiry that have been dominant in the last twenty years Ranging from an exploration of the English French and Russian revolutions and their treatment by revisionist historiography to the debates and themes arising from attempts to downplay revolution s role in history History and Revolution also engages with several prominent revisionist historians including Orlando Figes Conrad Russell and Simon Schama This important book shows the inability of revisionism to explain why millions are moved to act in defence of political causes and why specific political currents emerge and is a significant reassertion of the concept of revolution in human development

Studies in Political Economy ,2003 Robert Browning S. Wood,2001-05-04 Browning both denied and affirmed the value of biography for an understanding of literature This book narrates the development of his controversial creative life through responses to his work by five key nineteenth century figures John Stuart Mill William Charles Macready Thomas Carlyle John Ruskin and Matthew Arnold It also relates Browning s sense of literary vocation to Victorian publishing Browning emerges as a writer vividly engaged with contemporary assumptions yet deeply aware of the unaccountability of writing

Reflections in American Political Thought: Readings from Past and Present Philip Abbott,1973 **Political Theory** Leigh Jenco,Paulina

Ochoa Espejo, Murad Idris, 2025-02-19 This groundbreaking work presents a transformative perspective on political theory. This text is not just an introduction to political theory; it is a call to broaden the discipline's horizons, making it more globally aware and methodologically diverse. The authors introduce a novel approach to political theory that expands the scope of the discipline beyond traditional philosophical texts and Eurocentric perspectives. The text integrates canonical Western texts with diverse sources of political thought from a wide range of times and places, spanning the Vedas to the Quran, the Upanishads to the Popol Vuh. This is the first introductory text to incorporate such a variety of texts and authors, with each thinker, whether Plato or Laozi, Du Bois or Confucius, introduced in a way that is both accessible and relevant today. The text also demonstrates the possibilities for comparison and connections in teaching political theory. Cross-cutting themes of gender, race, and colonialism connect disparate ideas across time periods and geographies, forging a comprehensive network of political thought. This pioneering textbook reshapes the way political theory is taught and understood and is an essential companion for all undergraduate and postgraduate students of political theory, as much as it will be for anyone interested in global political thought. This text is a must-read for anyone looking to understand the full spectrum of political thought and its application in today's interconnected world. *Recreating Sexual Politics (Routledge Revivals)* Victor Seidler, 2009-12-15

This thought-provoking book, first published in 1991, examines sexual politics in a world which is being radically changed by the challenges of feminism. Seidler explores how men have responded to feminism and the contradictory feelings men have towards dominant forms of masculinity. Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives. It reflects the growing importance of sexual and personal politics within contemporary politics and culture and demonstrates clearly the challenge that feminism brings to our inherited forms of morality, politics, and sexuality. *Pluralizing Philosophy's Past* Amber L. Griffioen, Marius Backmann, 2023-03-21

This collection of 15 accessible essays on neglected philosophical figures and traditions aims to provide readers with concrete access points to less familiar philosophical sources and methods. Showcasing the latest research by both up and coming and well-established scholars, each essay focuses on a particular topic relevant to the pluralization of the history of philosophy and offers advice for incorporating the figure, theme, or approach into the philosophy classroom. **Transforming**

Encounters and Critical Reflection: African Thought, Critical Theory, and Liberation Theology in Dialogue Justin Sands, Anné Hendrik Verhoef, 2018-12-04 This book is a printed edition of the Special Issue *Transforming Encounters and Critical Reflection: African Thought, Critical Theory, and Liberation Theology in Dialogue* that was published in *Religions*.

Methodological Reflections on Women's Contribution and Influence in the History of Philosophy Sigridur Thorgeirsdottir, Ruth Edith Hagengruber, 2020-07-11 This book introduces methodological concepts aimed at including women in the canon of the history of philosophy. The history of women philosophers is as long and strong as the history of philosophy, and this holds true not only for the European tradition, as the research of women philosophers of the past shows.

The phenomenon of ignoring and excluding women in 19th and 20th century views on the history of philosophy was a result of the patriarchal tradition that ostracized women in general. In this book, leading feminist philosophers discuss methodologies for including women thinkers in the canon and curricula of philosophy. How does the recovery of women thinkers and their philosophies change our view of the past, and how does a different view of the past affect us in the present? Studying a richer and more pluralistic history of philosophy presents us with worlds we have never entered and have never been able to approach. This book will appeal to philosophers and intellectual historians wanting to view the history of philosophy in a new light and who are in favor of an inclusive perspective on that history.
