Reforging European Security From Confrontation To Cooperation:

Reforging European Security Kurt Gottfried, Paul Bracken, 2019-06-26 This book provides some answers to the questions of how to pursue the build down of the East West military confrontation in Europe and of how to build up an enduring and effective security system for Europe It is the result of a three year study of European security affairs **The Dynamics of**

European Security Cooperation, 1945-91 Gülnur Aybet, 2016-01-12 This is the first integrated analysis of all aspects of security cooperation in western Europe from 1945 to 1991 It provides an accessible yet sophisticated survey of the wider dynamics of security cooperation in each decade throughout this period It covers all aspects of security cooperation which range from the political such as a European voice in arms control to military such as a European input into NATO strategy and economic involving collaboration in defence technology and production A European Security Architecture after the

Cold War G. Aybet, 2000-06-05 A European Security Architecture after the Cold War provides a critical account of the re projection and redefinition of Western values and security institutions in the post Coldwar era This transformation is explored in three stages The first stage covers the period 1990 91 and explains the preservation of a western security community inherited from the Cold War through a process of institutional reconstruction largely carried out on paper The second stage from 1991 to 1992 sees the incorporation of a purpose for these institutions as a framework for the implementation of collective security The third stage explores the emerging questions of legitimacy surrounding the new tasks of these institutions as they become embroiled in the war in the former Yugoslavia The precedents of legitimate intervention in upholding democracy free markets and human rights in the post coldwar era are examined from the perspectives of international law and Gramscian derived concepts of legitimacy focusing on the acceptance of military power by civil society and how intervention in these terms becomes a cultural practice **European Security** Bjørn

Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs

tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it The Defense Policies of Nations Douglas J. Murray, Paul R. Viotti, 1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science

NATO -- the 1990s ,1993 **US Military Strategy and the Cold War Endgame** Stephen J. Cimbala,2014-01-14 At the end of the Cold War security concerns are more about regional and civil conflicts than nuclear or Eurasian global wars Stephen Cimbala argues that deterrence characteristics of the pre Cold War period will in the 21st century again become normative **Preparing for the Twenty-First Century** Paul Kennedy,2011-07-06 Kennedy s groundbreaking book The Rise and Fall of the Great Powers helped to reorder the current priorities of the United States Now he synthesizes extensive research on fields ranging from demography to robotics to draw a detailed persuasive and often sobering map of the very near future a bold work that bridges the gap between history prophecy and policy **The Future of the U.S.-Soviet Nuclear Relationship** National Academy of Sciences,Committee on International Security and Arms Control,1991-02-01 The United States and the Soviet Union could drastically reduce their nuclear arsenals below the levels prescribed by the new Strategic Arms Reduction Treaty START The end of the Cold War and the transformation of international security now under way present the United States with opportunities to develop new policies based on greater international cooperation with the Soviet Union and other major powers This new book describes two lower levels of nuclear forces that could be achieved as well as other related measures to improve international security Threat Assessment, Military Strategy, and Defense Planning United States. Congress. Senate. Committee on Armed Services,1992 *Parameters* ,1991 **The Second Nuclear Age** Paul Bracken,2024-07-02 A leading international security strategist offers a compelling new way to think about the unthinkable The cold war ended more than two decades ago and with its end came a reduction in the threat of nuclear weapons a luxury that we can no longer indulge It s not just the threat of Iran getting the bomb or North Korea doing something rash the whole complexion of global power politics is changing because of the reemergence of nuclear weapons as a vital element of statecraft and power politics In short we have entered the second nuclear age In this provocative and agenda setting book Paul Bracken of Yale University argues that we need to pay renewed attention to nuclear weapons and how their presence will transform the way crises develop and escalate He draws on his years of experience analyzing defense strategy to make the case that the United States needs to start thinking seriously about these issues once again especially as new countries acquire nuclear capabilities He walks us through war game scenarios that are all too realistic to show how nuclear weapons are changing the calculus of power politics and he offers an incisive tour of the Middle East South Asia and East Asia to underscore how the United States must not allow itself to be unprepared for managing such crises Frank in its tone and farsighted in its analysis The Second Nuclear Age is the essential guide to the new rules of international politics **Arms Control Today** ,1991 **The European Studies Journal** ,1992 **American Defense Annual, 1991-1992** Joseph J.
